Don "Wings Of Mercy"

"Wings of mercy" soared down to help the Oliver Sheets family, 3094 Harrisburg-pk in the form of Wings 34 and 42 of Nightingale Cottage. Tragedy struck the home just four weeks ago Tuesday when Mrs. Barbara Sheets, mother of two and chairman of Wing 34, was critically injured when her car plunged off the road near their home on Rt. 62.

Still in semi-conscious condition, she, at first required round-the-clock attention. Members of Wings 34 and 42 started a 24-hour watch arranging a schedule so that Mrs. Sheets would not be alone for a minute. This was continued until two weeks ago until she was able to take sedatives. Since then the members have had someone there at every visiting period.

Many Hilltoppers of Wing 34 have been active in staying with Mrs. Sheets day and night. Mrs. Harold Martin, 2207 Suncrest-dr, has been in charge of scheduling members from Wings 34 and 42 to stay at the side of the injured woman.

Mrs. Olen E. Hilditch, 2500 Valleyview-dr, vice chairman of Wing 34, has taken over the duties of chairman since the accident and with Mrs. Harry E. Timmons, is spearheading a drive to help the Sheets family financially. Hospital and doctor bills are eating up the family's savings and many expenses are anticipated in what is expected to be a long recovery period for the 28-year-old woman. The two children, Jenny, 5, and Steve, 18 months, are in a nursery school, which proves another expense.

Mrs. Hilditch, in speaking of the request to the public to send contributions to the Barbara Sheets Fund, emphasized the fact that the amounts need not be large.

"I think many people have the idea that they have to send large amounts of money to a fund of this type. This is not true. Any contribution, no matter how large or small, is greatly appreciated," she said.

Checks or money may be mailed or taken to Mrs. Timmons, a trustee of the fund, 2870 Dayton-av, or to Mrs. Hilditch, 2500 Valleyview-dr, who will see that they reach Mrs. Timmons. Checks should be made payable to the Barbara Sheets Fund.

Other Hilltoppers who are helping in the fund drive and who have watched over Mrs. Sheets at her bedside are Mrs. Richard Bergman, 678 S. Roys-av, Mrs. Charles Burchfield, 79 S. Algonquin-av; Mrs. John Currier, 191 N. Warren-av; Mrs. Lloyd Hane, 2168 W. Mound-st, Mrs. Paul Kautz, 2233 Suncrest-dr; Mrs. Francis Kline, 2146 W. Mound-st; Mrs. Donald Lehman, 190 N. Warren-av; Mrs. Charles W. Link, 2182 W. Mound-st; Mrs. George Millay, 2147 W. Broad-st, and Mrs. Lloyd Stanhope, [redacted] Fancrest-dr.

Wing 34 will hold a bake sale beginning at 9 a. m. Saturday, July 2, at Edwards Drug Store, corner of Huron and Sullivant-ave. Proceeds will go to the Barbara Sheets Fund. Chairman is Mrs. Lloyd Hane. Your patronage would be appreciated.

Gala Program Scheduled Here For Fourth Of July Celebration

Hilltop Lions Plan 'Safe And Sane' Independence Day

Music, sky rockets, whistling sparklers, firecrackers and the works will be shown on Monday, July 4th when the Hilltop Lions Club presents its annual festival of fun and frolic for a "safe and sane" independence Day.

Approximately 3000 Hilltoppers are expected to participate in the traditional Fourth of July celebration planned at West High School athletic field this year. Staged by the Lions it is provided absolutely free, to the entire community.

Bill Coon, chairman of this year's fun and frolic, announces the event will get underway with a variety show at 8 p. m., followed by a gigantic fireworks display at 9 p. m. Powell Avenue will be roped-off for the street dancing which will follow, until midnight.

The variety show, under the chairmanship of Paul Hott will start the program portion of the evening. Among the acts signed are "The Dogpatchers," from the Ohio Fuel Gas Co. Also appearing will be "an all girls' quartette, composed of former West High Students and Kenny Carpenter, xylophonist.

The talent will include three dance acts of tap and ballet; Dixie Lee Koontz, dancer; a pantomime act with Jan Wihl and a combination baton and ballet act.

Will Marot and his orchestra will play for the show and for the dancing to follow. Bill Mertz, local disc jockey, will emcee the show.

The Lions will award six-months free diaper service to the first Hilltoppers who become brand-new parents on July 4.

Preparation for the affair will begin at 8 a. m. on the Fourth, when a work detail under the direction of Bill Steen, will report at Magly Field to dig postholes for the fireworks apparatus, rope off areas and perform the many other details necessary to the celebration.

Soft drinks will be available, with proceeds going to the Lions' funds for civic betterment and sightsaving efforts. The Lions Auxiliary will also operate concessions with ice cream and refreshments.

Funds for the gala affair are raised throughout the year by such projects as carnivals and turkey sales and do not come from the Lions annual newspaper sale," according to Ron Jones, president-elect of the Club.

IT'LL BE A BIG BANG on the Fourth when the Hilltop Lions Club stages its annual fireworks display as part of the community celebration planned annually by the group. Providing a pretty good demonstration to the small fry on what not to do on the holiday is, left to right, Bill Coon, chairman of the affair with Paul Hott, chairman of entertainment. Watching their antics are, left to right, first row, Jimmy Christy and Margaret "Cricket" Leach; second row, Jerry Kendell and Dick Christopher, and, top, Bob Christopher.

Franklin Township officials are eager to retain the tax-rich plant to help them in maintaining their community. A move to annex the area by Columbus was defeated recently because of defaults in petitions. A new hearing on newly proposed petitions will be heard in November, only seven months before the plant expansion is expected to be completed. GM has been silent on the expansion move.

The Fernstedt plant is expanding its production capacity approximately 75 per cent, according.

Refuse Gripe A Growing Problem

The trash problem in the city of Columbus is a problem residents say. On the South Side, Hilltop, the North and East Sides many residents claim that their garbage has not been collected in three months. Some say that the men on the trucks will not take the garbage and rubbish unless outlandish requests for containers and other storage facilities are fulfilled.

Heinie Butler, chief of the city refuse collection division, countered the attacks of the people with "There is not an area in the city that hasn't had a collection in the past six or seven weeks."

"If anyone tells you their trash hasn't been picked up in three months . . . that's a lie," Butler [redacted].

"Collections used to be made every six weeks but with the annexation of all that new territory, we've dropped down in between seven and eight weeks" he said.

The division of refuse collection has 41 trucks to pick up rubbish alone. Garbage is collected by a separate fleet of 30 trucks. The division had 46 trucks three years ago but, despite the annexing of some 3500 more living units, no new trucks have been added.

This is the height of the rubbish season, and everyone is cutting down trees and bushes and piling the added refuse on trash cans.

Butler further stated, "I feel that within the next two weeks,

Hilltop Mystery Solved

Hey! What's going on?

A group of people gathered in front of the old Kay's "five and dime" to look. Down in the doorway they peered—looking, looking, looking.

Finally one brave young man stepped forward into the doorway. The police cruiser just pulled up and two patrolmen jumped out to check into the situation.

They elbowed their way into the crowd just as the brave youngster with a crushing blow brought his heel down onto an object lying on the doorstep.

When the crowd finally cleared away you could see what all the excitement was about—a little garter snake had bit the dust.

Moments later there was no one to look on—no one to see the last wriggle of the dying snake in the doorway on the Hilltop.

Promises, Hope Action Follows

His Sister's Brother

They were giving away balloons at a local store and the place was crowded with children, all anxious to receive one of the playthings. As one small boy came up to the clerk, he asked politely if he might have two balloons.

"I'm sorry," was the reply, "but we only give one balloon to each boy. Have you a brother at home?"

The youngster was truthful, but he did want another balloon.

"No," he said, "but my sister has, and I want one for him."

LET'S EXPLORE OHIO

MADONNA OF THE TRAIL MONUMENT, SPRINGFIELD

SAILBOATS ON BUCKEYE LAKE

The travel route followed by many of the pioneers who opened up the west by migrating into the Ohio Country prior to and following the Revolutionary War became the Cumberland Road from Baltimore through Hagerstown, Cumberland, Uniontown, and Wheeling.

By 1818 this road was open to Wheeling, where most travellers transferred to Ohio River boats. Statesmen in the halls of Congress realized the need for the extension of this main highway on across Ohio, through Indiana and Illinois to Missouri, if our nation were to grow westward. So in 1825 Congress appropriated $150,000 to extend the road, now known as the National Road, as far as Zanesville, a community of 3000, second only to Cincinnati in population among all Ohio towns.

Section by section the National Road was pushed farther west until in 1850 it was completed to the Indiana line with toll gates every ten miles. Today the National Road, U. S. Route 240, is still one of Ohio's most heavily travelled highways, with many points of interest to be visited by motorists. Pictured above are but two such points of interest: Buckeye Lake and the "Madonna of the Trail" monument at Springfield, erected in memory of the brave women of the covered wagon days. Buckeye Lake, now a popular recreational spot in Ohio, was a reservoir on the Ohio Canal system that extended from Cleveland to Portsmouth.

Back in 1835, the most important stage coach organization on the National Road was the Ohio National Stage Company of Columbus. A stage coach trip from Columbus to Wheeling at that time required 20 to 24 hours; Columbus to Cincinnati, 26 hours with a six-hour layover in Springfield; Columbus to Cleveland, 40 hours; and Columbus to Sandusky, two full days. Compare this schedule with an automobile trip over the same routes today.

Columbusites Vacation Tour In Canada Outlined

Fourth of July Vacation Special Itinerary is a 790 mile run from Columbus to Niagara Falls, N. Y., over into Canada, and back home through Detroit.

The first leg, 353 miles, is to the Falls. Take Ohio Route 3 to Strongsville, Ohio 82 to Twinsburg, Ohio 91 to Willoughby, and U.S. 20 from Willoughby to Buffalo, N.Y. This run could be made the first day, even with heavy holiday traffic. Take U.S. 62 from Buffalo to the Falls. Crossing one of the several toll bridges over the Niagara River, take Ontario 20 to Ryckmans Corner, and Ontario 2 all the way into Windsor. Crossing the Detroit River into Detroit, take U.S. 68 to Kenton, O., and Ohio 31 from Kenton to Marysville, O., and U.S. 33 from Marysville into Columbus.

Making a short stop in Erie, Pa., go to the foot of State-st and see the USS Niagara, Commodore Perry's flagship in the battle of Lake Erie in 1813, and the USS Wolverine, the first iron-hulled warship, built and launched at Erie in 1843. The prow has been preserved, and is near the Niagara. The Niagara is open daily from 8 a.m. to 4 p.m.

Stopping in Buffalo, stop and see the Buffalo Museum of Science, at Humboldt Park at Northampton-st. On hand are exhibits of geology, botany, zoology, anthropology and the physical sciences. Admission is free. Open Monday through Saturday from 10 a.m. to 5 p.m., and Sundays and holidays except Christmas from 1:30 p.m. to 5:30 p.m.

At the falls, stop and see the Cave of the Winds, on the Niagara State Reservation on Goat Island. It is reached by a bridge from Riverway. Visitors are equipped with waterproof garments, descend by elevator to the base of the cliff, then follow a footpath across several bridges to a point directly in front of the American and what is called the Central or Bridal Veil Falls. The fee of $1.25 includes clothing and guide service. Trips are made all day, every 20 minutes, from late May through October.

Then take a steamboat ride to the base of the falls in the "Maid of the Mist," leaving every 15 minutes, from May 15 to Oct. 15. The fare of 90 cents includes waterproof clothing. The runs are made from 9:30 a.m. to 6 p.m.

In Brantford, Ont., stop at the Brant Historical Society Museum, at 57 Charlotte-st. Among the displays are Indian and pioneer relics of Brant County, including old fire-fighting equipment. It is open on Tuesdays, Thursdays, Saturdays, and the first and third Sundays of the month from 2 to 5 p.m. If you leave Saturday, you should be in Brantford by 3 p.m. Sunday, so it would be possible to stop here, unless you are under a tight time schedule.

See Belle Isle, an island park in the Detroit River, connected with the city by a free bridge at E. Jefferson-av and E. Grand-blvd. In its 1000 acres are miles of wooded drives and paths, including a 5½ mile drive around the shore; swimming and boating facilities; tennis courts; athletic fields, zoological gardens; an aquarium and conservatory; a children's zoo; a golf course; a symphony shell; and a picnic area. The Livingstone Light and the Scott Fountain are also located there.

Clear Conscience

At the end of every examination paper in a certain school, students were required to sign a statement that they had neither given nor received any help during the test. One boy lingered after the others and when he was asked what the trouble was, replied that he did not know whether he could sign or not.

He said that he had prayed for help in the examination and did not know whether he had received it or not.

The teacher looked over his paper. Turning to him, she said gently: "I think you can sign."

LET'S EXPLORE OHIO

Migrating herds of buffalo in following the watercourses and the easiest grades through the wilderness, engineered Ohio's original highway system. Indian moccasins wore these trails deeper and the white man's axe widened them into wagon trails. Today many of our paved motor roads follow these same routes.

When the Ohio Country was an Indian paradise, their main travel routes were north and south between Lake Erie and the Ohio River and east and west along the lake shore, the Ohio River and across the middle of the State.

The Indians had many side trails that led off the main routes to the salt licks, to their villages and to the flint mines where they obtained material for their arrow heads.

Important crossroads on the Indian travel routes were such present-day Ohio cities as Fremont, Akron, Chillicothe, Piqua, Canton, Youngstown, Marietta, Dover, Circleville, Coshocton, Portsmouth, Cambridge, Lebanon, Cleveland, Defiance, Upper Sandusky and Cincinnati.

Substituting the names of Indian villages for the names of Ohio cities, this map shows the travel routes in the Ohio Country as Tecumseh's grandfather knew it before the coming of the white man.

Avoid Swimming Accidents Learn Simple Rules

"Don't take foolish chances." That is the easiest—and best—way to avoid danger in the water this summer, Bob Schmidt, executive secretary of the Hilltop YMCA declared today.

"Every year five to seven thousand Americans drown. Most of these deaths could be prevented if people just wouldn't insist on taking foolish chances," he said.

Take this matter of not being able to swim. A person who can't swim has no business in the water. That's ordinary horsesense. Non-swimmers should stay out of small boats, too! But what happens? Why every year—and this one won't be an exception—thousands of non-swimmers come to grief because they ignore such a basic rule of self-preservation.

Learn To Swim

"Maybe they're ashamed to admit they can't swim. Or maybe they figure accidents happen to the other fellow, never to them."

It follows, he added, that the 'Number One Rule of Water Safety' is: learn to swim.

All Hilltop boys are eligible to attend the 'Learn to Swim' classes being conducted by the Columbus YMCA. Each boy will receive six free learn to swim courses. Additional information may be obtained by calling the Hilltop "Y", JO 4641 or the Boys' Branch, CA 4-1131. Also for your information your Hilltop Outdoor Pool will be conducting learn to swim classes and additional information may be obtained by calling the pool directly.

Taking foolish chances isn't limited to persons who can't swim, Bob pointed out. There's the "once-a-year" swimmer who forgets his flabby muscles and short breath. A long swim—or a fast one—may be his last.

"What really gets the aquatic expert's dander up, though, are swimmers who fail to heed warning signs."

"Some people," he said, "think warning signs are for the birds! They behave like signs were put up just for laughs. So they crack their skulls diving into shallow water. Or get sick from swimming in a place that's crawling with sewage germs. Others are cut on underwater broken bottles, tin cans, or other sharp objects, or trapped in deep holes.

"And sho-offs! Wow! What a fellow won't do to impress his girl! But at that, parents — especially fathers — are probably worse. Dad doesn't want his kids to know he can't swim, or dive. He goes ahead and tries to bluff it out, just asking for trouble. Usually ends up in plenty of it, too."

Women Can Help

Many such accidents, Bob suggested, would be prevented if women took a more active interest in water safety. Since drownings claim two more boys and men than girls and women, it is up to wives and mothers to crack down on shenanigans in the water, he said.

Another way people take foolish chances in the water is rushing to the aid of someone in trouble, Bob said. His advice is to leave rescues to the experts. Otherwise, the would-be rescuer may become a victim himself.

Even the experts, he said, will stay out of the water if at all possible when making a rescue. Approved rescue tactics for amateurs include extending a long pole or stick to the person in trouble, throwing or pushing some bouyant object to him, and trying to reach him with one hand while grasping some support with the other.

If the person in trouble is too far away to be reached by any of these means, the rescuer should go to him in a boat. This is safer, faster, and requires less exertion.

Another important thing to remember about boats is to stay with them if they capsize. "Lives are lost needlessly," Schmidt said, "because people strike out for the shore instead of holding on to an overturned boat and waiting for help to come to them. Distances are deceptive over the water. It may be a much longer swim to shore than it looks.

"And speaking of swimming to shore," he went on, "that's the right direction for a race. Always race toward the shore, not away from it. You also can race parallel to the shore. Then if something goes wrong, help will be close by.

"It's a good idea, too, to have some one along whenever you go swimming. Going swimming alone is taking more than a foolish chance. It's plain crazy! Accidents can happen to the best of swimmers. If you're alone when trouble hits, you may not make it back to shore—nor will there be anyone around to go for help.

Are there other "foolish chances" by which swimmers tempt fate? Unfortunately, yes Bob lists these:

Foolish Chances

Swimming immediately after strenuous exercise, or while overheated or tired is not good. (Cool off and rest a while before swimming)

Staying in the water or on an exposed beach during an electrical storm. (If you're caught in the open, lie flat on the ground.)

Swimming so long you become chilled and overtired. (Stop before your muscles rebel by going into cramps.)

Permitting youngsters too great freedom in floating about on inflated rubber tubes, rafts, animal figures or "water wings". (These give a false sense of security. Children may ride them into deep water and fall off. Also, the inflated carriers may spring leaks.)

Swimming at unprotected beaches, or pools. (The presence of lifeguards usually means additional measures have been taken for your safety.)

And here is Bob's final caution, for safe swimming: If you should get into trouble, keep calm. Take advantage of your body's natural buoyancy. You'll float if you give yourself half a chance by not thrashing around.

"It's when you're in trouble that water safety experience pays off," he concluded. "All the rules in the world can't make up for the value of swimming lessons from an experienced teacher. This includes breath control and learning to float — both important water-proofing skills that may save your life".

"We've made great medical progress in the last generation. What used to be merely an itch is now an allergy."—Jess Denious.

His Sister's Brother

They were giving away balloons at a local store and the place was crowded with children, all anxious to receive one of the playthings. As one small boy came up to the clerk, he asked politely if he might have two balloons.

"I'm sorry," was the reply, "but we only give one balloon to each boy. Have you a brother at home?"

The youngster was truthful, but he did want another balloon.

"No," he said, "but my sister has, and I want one for him."

LET'S EXPLORE OHIO

MADONNA OF THE TRAIL MONUMENT, SPRINGFIELD

SAILBOATS ON BUCKEYE LAKE

The travel route followed by many of the pioneers who opened up the west by migrating into the Ohio Country prior to and following the Revolutionary War became the Cumberland Road from Baltimore through Hagerstown, Cumberland, Uniontown, and Wheeling.

By 1818 this road was open to Wheeling, where most travellers transferred to Ohio River boats. Statesmen in the halls of Congress realized the need for the extension of this main highway on across Ohio, through Indiana and Illinois to Missouri, if our nation were to grow westward. So in 1825 Congress appropriated $150,000 to extend the road, now known as the National Road, as far as Zanesville, a community of 3000, second only to Cincinnati in population among all Ohio towns.

Section by section the National Road was pushed farther west until in 1850 it was completed to the Indiana line with toll gates every ten miles. Today the National Road, U. S. Route 40, is still one of Ohio's most heavily travelled highways, with many points of interest to be visited by motorists. Pictured above are but two such points of interest: Buckeye Lake and the "Madonna of the Trail" monument at Springfield, erected in memory of the brave women of the covered wagon days. Buckeye Lake, now a popular recreational spot in Ohio, was a reservoir on the Ohio Canal system that extended from Cleveland to Portsmouth.

Back in 1835, the most important stage coach organization on the National Road was the Ohio National Stage Company of Columbus. A stage coach trip from Columbus to Wheeling at that time required 20 to 24 hours; Columbus to Cincinnati, 36 hours with a six-hour layover in Springfield; Columbus to Cleveland, 40 hours; and Columbus to Sandusky, two full days. Compare this schedule with an automobile trip over the same routes today.

Columbusites Vacation Tour In Canada Outlined

Fourth of July Vacation Special Itinerary is a 790 mile run from Columbus to Niagara Falls, N. Y., over into Canada, and back home through Detroit.

The first leg, 353 miles, is to the Falls. Take Ohio Route 3 to Strongsville, Ohio 82 to Twinsburg, Ohio 91 to Willoughby, and U.S. 20 from Willoughby to Buffalo, N.Y. This run could be made the first day, even with heavy holiday traffic. Take U.S. 62 from Buffalo to the Falls. Crossing one of the several toll bridges over the Niagara River, take Ontario 20 to Ryckmans Corner, and Ontario 3 all the way into Windsor. Crossing the Detroit River into Detroit, take U.S. 68 to Kenton, O., and Ohio 31 from Kenton to Marysville, O., and U.S. 33 from Marysville into Columbus.

Making a short stop in Erie, Pa., go to the foot of State-st and see the USS Niagara, Commodore Perry's flagship in the battle of Lake Erie in 1813, and the USS Wolverine, the first iron-hulled warship, built and launched at Erie in 1843. The prow has been preserved, and is near the Niagara. The Niagara is open daily from 8 a.m. to 4 p.m.

Stopping in Buffalo, stop and see the Buffalo Museum of Science, at Humboldt Park at Northampton-st. On hand are exhibits of geology, botany, zoology, anthropology and the physical sciences. Admission is free. Open Monday through Saturday from 10 a.m. to 5 p.m., and Sundays and holidays except Christmas from 1:30 p.m. to 5:30 p.m.

At the falls, stop and see the Cave of the Winds, on the Niagara State Reservation on Goat Island. It is reached by a bridge from Riverway. Visitors are equipped with waterproof garments, descend by elevator to the base of the cliff, then follow a footpath across several bridges to a point directly in front of the American and what is called the Central or Bridal Veil Falls. The fee of $1.25 includes clothing and guide service. Trips are made all day, every 20 minutes, from late May through October.

Then take a steamboat ride to the base of the falls in the "Maid of the Mist," leaving every 15 minutes, from May 15 to Oct. 15. The fare of 90 cents includes waterproof clothing. The runs are made from 9:30 a.m. to 6 p.m.

In Brantford, Ont., stop at the Brant Historical Society Museum, at 57 Charlotte-st. Among the displays are Indian and pioneer relics of Brant County, including old fire-fighting equipment. It is open on Tuesdays, Thursdays, Saturdays, and the first and third Sundays of the month from 2 to 5 p.m. If you leave Saturday, you should be in Brantford by 3 p.m. Sunday, so it would be possible to stop here, unless you are under a tight time schedule.

See Belle Isle, an island park in the Detroit River, connected with the city by a free bridge at E. Jefferson-av and E. Grand-blvd. In its 1000 acres are miles of wooded drives and paths, including a 5½ mile drive around the shore; swimming and boating facilities; tennis courts; athletic fields, zoological gardens; an aquarium and conservatory; a children's zoo; a golf course; a symphony shell; and a picnic area. The Livingstone Light and the Scott Fountain are also located there.

Clear Consciences

At the end of every examination paper in a certain school, students were required to sign a statement that they had neither given nor received any help during the test. One boy lingered after the others and when he was asked what the trouble was, replied that he did not know whether he could sign or not.

He said that he had prayed for help in the examination and did not know whether he had received it or not.

The teacher looked over his paper. Turning to him, she said gently: "I think you can sign."

LET'S EXPLORE OHIO

Migrating herds of buffalo in following the watercourses and the easiest grades through the wilderness, engineered Ohio's original highway system. Indian moccasins wore these trails deeper and the white man's axe widened them into wagon trails. Today many of our paved motor roads follow these same routes.

When the Ohio Country was an Indian paradise, their main travel routes were north and south between Lake Erie and the Ohio River and east and west along the lake shore, the Ohio River and across the middle of the State.

The Indians had many side trails that led off the main routes to the salt licks, to their villages and to the flint mines where they obtained material for their arrow heads.

Important crossroads on the Indian travel routes were such present-day Ohio cities as Fremont, Akron, Chillicothe, Piqua, Canton, Youngstown, Marietta, Dover, Circleville, Coshocton, Portsmouth, Cambridge, Lebanon, Cleveland, Defiance, Upper Sandusky and Cincinnati.

Substituting the names of Indian villages for the names of Ohio cities, this map shows the travel routes in the Ohio Country as Tecumseh's grandfather knew it before the coming of the white man.

Avoid Swimming Accidents Learn Simple Rules

"Don't take foolish chances."

That is the easiest—and best—way to avoid danger in the water this summer, Bob Schmidt, executive secretary of the Hilltop YMCA declared today.

"Every year five to seven thousand Americans drown. Most of these deaths could be prevented if people just wouldn't insist on taking foolish chances," he said.

Take this matter of not being able to swim. A person who can't swim has no business in the water. That's ordinary horsesense. Non-swimmers should stay out of small boats, too! But what happens? Why every year—and this one won't be an exception—thousands of non-swimmers come to grief because they ignore such a basic rule of self-preservation.

Learn To Swim

"Maybe they're ashamed to admit they can't swim. Or maybe they figure accidents happen to the other fellow, never to them."

It follows, he added, that the 'Number One Rule of Water Safety' is: learn to swim.

All Hilltop boys are eligible to attend the 'Learn to Swim' classes being conducted by the Columbus YMCA. Each boy will receive six free learn to swim courses. Additional information may be obtained by calling the Hilltop "Y", JO 4641 or the Boys' Branch, CA 4-1131. Also for your information your Hilltop Outdoor Pool will be conducting learn to swim classes and additional information may be obtained by calling the pool directly.

Taking foolish chances isn't limited to persons who can't swim, Bob pointed out. There's the "once-a-year" swimmer who forgets his flabby muscles and short breath. A long swim—or a fast one—may be his last.

"What really gets the aquatic expert's dander up, though, are swimmers who fail to heed warning signs."

"Some people," he said, "think warning signs are for the birds! They behave like signs were put up just for laughs. So they crack their skulls diving into shallow water. Or get sick from swimming in a place that's crawling with sewage germs. Others are cut on underwater broken bottles, tin cans, or other sharp objects, or trapped in deep holes.

"And sho-offs! Wow! What a fellow won't do to impress his girl! But at that, parents — especially fathers — are probably worse. Dad doesn't want his kids to know he can't swim, or dive. He goes ahead and tries to bluff it out, just asking for trouble. Usually ends up in plenty of it, too."

Women Can Help

Many such accidents, Bob suggested, would be prevented if women took a more active interest in water safety. Since drownings claim far more boys and men than girls and women, it is up to wives and mothers to crack down on shenanigans in the water, he said.

Another way people take foolish chances in the water is rushing to the aid of someone in trouble, Bob said. His advice is to leave rescues to the experts. Otherwise, the would-be rescuer may become a victim himself.

Even the experts, he said, will stay out of the water if at all possible when making a rescue. Approved rescue tactics for amateurs include extending a long pole or stick to the person in trouble, throwing or pushing some bouyant object to him, and trying to reach him, with one hand while grasping some support with the other.

If the person in trouble is too far away to be reached by any of those means, the rescuer should go to him in a boat. This is safer, faster, and requires less exertion.

Another important thing to remember about boats is to stay with them if they capsize. "Lives are lost needlessly," Schmidt said, "because people strike out for the shore instead of holding on to an overturned boat and waiting for help to come to them. Distances are deceptive over the water. It may be a much longer swim to shore than it looks.

"And speaking of swimming to shore," he went on, "that's the right direction for a race. Always race toward the shore, not away from it. You also can race parallel to the shore. Then if something goes wrong, help will be close by.

"It's a good idea, too, to have some one along whenever you go swimming. Going swimming alone is taking more than a foolish chance. It's plain crazy! Accidents can happen to the best of swimmers. If you're alone when trouble hits, you may not make it back to shore—nor will there be anyone around to go for help.

Are there other "foolish chances" by which swimmers tempt fate? Unfortunately, yes Bob lists (Issue

Foolish Chances

Swimming immediately after strenous exercise, or while overheated or tired is not good. (Cool off and rest a while before swimming)

Staying in the water or on an exposed beach during an electrical storm. (If you're caught in the open, lie flat on the ground.)

Swimming so long you become chilled and overtired. (Stop before your muscles rebel by going into cramps.)

Permitting youngsters too great freedom in floating about on inflated rubber tubes, rafts, animal figures or "water wings". (These give a false sense of security. Children may ride them into deep water and fall off. Also, the inflated carriers may spring leaks.)

Swimming at unprotected beaches, or pools. (The presence of lifeguards usually means additional measures have been taken for your safety.)

And here is Bob's final caution, for safe swimming: If you should get into trouble, keep calm. Take advantage of your body's natural buoyancy. You'll float if you give yourself half a chance by not thrashing around.

"It's when you're in trouble that water safety experience pays off," he concluded. "All the rules in the world can't make up for the value of swimming lessons from an experienced teacher. This includes breath control and learning to float — both important water-proofing skills that may save your life".

"We've made great medical progress in the last generation. What used to be merely an itch is now an allergy."—Jess Denious.

Helen Charas, Robert Johnston Wed In Candlelit Ceremony

MRS. ROBERT GEORGE JOHNSTON

Candlelight illumined Glenwood Methodist Church Sunday evening, June 12, for the marriage of Miss Helen Charas and Mr. Robert George Johnston. The Rev. Joseph B. Shellhaas read the double-ring ceremony at 7:30 before an altar decorated with arrangements of palms, ferns and bowls of white larkspur with huckleberry foliage.

Given in marriage by her uncle, Mr. Gus Johnson, the new Mrs. Johnston is the daughter of Mrs. John Matrozos, 2655 Camden-rd, and her husband's parents are Mr. and Mrs. R. D. Johnston, 418 S. James-rd.

Hand-clipped chantilly lace in a small rose design over satin fashioned the bridal gown. It was designed with a portrait neckline, trimmed with small paillettes of sequins and pearls, and long sleeves forming points over the hands. The same paillettes were scattered throughout the extremely full skirt which extended into a cathedral train.

A crown of sequins and pearls held her fingertip veil of imported illusion and she carried a white prayer book mounted with a white orchid, stephanotis and satin streamers.

Miss Christine Charas served as maid of honor for her sister. Her ballerina-length gown of vivid pink Dupioni silk was designed with a square neckline, brief sleeves and bouffant skirt. She wore a matching bandeau of flowers with a tiny theatre veil and carried a modified Colonial bouquet of blue delphinium centered with pink sweetheart roses.

The bridesmaids were Miss Ann Manus and Miss Janice Johnson. Their gowns were styled identically with the one worn by the honor attendant and they carried modified Colonial bouquets of blue delphinium.

The little flower girl, Sandra Wutzler, wore a full-length frock of white tulle over taffeta with a bandeau of pink rosebuds in her hair and carried a basket of pink rose petals.

Mr. James Johnson served as best man and wedding guests were seated by Dr. Edward Schlegel, Mr. Stanley Payne, Mr. Clarence Wutzler and Mr. Donald Whipps. Master Larry Payne carried the rings on a heart-shaped white satin pillow.

The mother of the bride chose a gown of starlight blue silk organza with pink accessories and a corsage of pink rosebuds. The bridegroom's mother wore a rose silk frock with white accessories and a corsage of white rosebuds.

Honka's Provincial House was the scene of the reception that followed the ceremony. More than 200 guests attended and hostesses were Miss Ada George, Miss Marilyn Valentine, Mrs. Donald Whipps, Mrs. Edward Schlegel and Mrs. Bill Myers.

The new Mrs. Johnston was graduated from West High School and is associated with her mother in business at 2429 W. Broad-st. Her husband is a graduate of North High School and will graduate in August from the college of commerce, Ohio State University.

Following a wedding trip to Washington, D.C., the couple is at home at 2655 Camden-rd.

Miss Helen Torok Is June Bride Of Rev. Edwin Johns

REV. AND MRS. EDWIN LEE JOHNS

Miss Helen Torok and the Rev. Edwin Lee Johns exchanged their wedding vows Saturday evening, June 4, in the bridegroom's home church, Westgate Evangelical United Brethren. The Rev. Harold Dutt read the 7:30 service before an altar decorated with arrangements of white gladioli and iris and seven branch candelabra.

The former Miss Torok is the daughter of Mr. and Mrs. Andrew Torok of Cleveland. The Rev. Johns' parents are Mr. and Mrs. Chester Johns, formerly of S. Wayne-av and now residents of Orlando, Fla.

The bride chose for the occasion a gown of chantilly lace and tulle over satin. Her fingertip veil of illusion fell from a tiny lace cap and she carried a white Bible mounted with a white orchid.

A close friend from Cleveland served as her maid of honor and only attendant.

Mr. Louis Schory served as bestman and wedding guests were seated by Mr. Charles Meetham and Mr. Joseph Alutius.

The mother of the bride was gowned in a blue print shantung frock with matching accessories and a corsage of white flowers. The bridegroom's mother chose a gown of beige linen and lace, worn with matching accessories and a pink corsage.

The new Mrs. Johns was graduated from John Adams High School in Cleveland, and was enrolled in Asbury College, Wilmore, Ky. She will attend North Central College in Naperville, Ill., next year, where she will continue her study of Christian Education.

The Rev. Johns was graduated from Asbury College and will attend seminary in Naperville next year. He has been assigned to the pulpit of Lowpoint Evangelical United Brethren Church, Lowpoint, Ill., and will continue to serve the church while he is attending seminary next winter. The newly-married couple is now at home in the Lowpoint church parsonage.

MRS. RICHARD F. WEISENBACH

The altar of St. Mary Magdalene Church was decorated with pink carnations and white stock for the Saturday nuptial ceremony uniting Miss Barbara Ellen Smith and Mr. Richard F. Weisenbach. Father Raymond Bauschard officiated at the 10:30 a. m. rites.

Given in marriage by her father, the bride is the daughter of Mr. and Mrs. O. H. Smith, 3008 Wicklow rd, and the bridegroom is the son of Mr. and Mrs. J. M. Weisenbach, of 770 N. Cassady-av.

The bridal gown was an original design of imported, embroidered organdy, styled with a square neckline, short sleeves with matching mitts and a very full skirt extending into a cathedral train.

Her fingertip length veil of illusion was held by a tiara of seed pearls. A white orchid surrounded by delphinium was mounted on her white prayer-book.

Miss Betsy Kraemer was the maid of honor and bridesmaids were Miss Carol Garrity, Miss Kathy Luckhaupt and Miss Mary Louise Weisenbach, sister of the bridegroom.

Their identically-styled gowns of pale pink embroidered organdy were in ballerina-length and they wore matching small hats of pleated nylon net caught with lilies of the valley, pink shoes and white gloves. Each carried a French basket of pink carnations and white stock.

Mr. Paul Weisenbach served as bestman for his brother. Wedding guests were seated by Mr. Charles Gibboney, Mr. Richard Snyder and Mr. Roger Smith, brother of the bride.

Mrs. Smith chose for her daughter's wedding an aqua lace frock with a matching hat and carried a purse corsage of pink carnations. The mother of the bridegroom was gowned in rose lace with white accessories and a corsage of white roses.

A breakfast reception was served immediately following the ceremony at the Everglades Restaurant for 125 guests.

The new Mrs. Weisenbach was graduated from St. Mary of the Springs and is employed by General Motors Acceptance Corp. Mr. Weisenbach is a graduate of Rosary High School and is associated with the Electric Power Equipment Co.

Those who expect to hear the truth during a political campaign evidently know little about campaigns.

Delay In Burning Ordered By Local Fire Department

Plans for the burning of the 100-year-old Ruffing house at 3734 Sullivant-av, set last week for Saturday, June 18, were indefinitely delayed at the request of the Franklin Township Fire Department. The fire department decided that since the clapboards on the house exterior cover a cabin built of huge logs which would burn for a long time and with an intense heat, high tension wires near the house would have to be protected.

Until such time that a protective barricade can be constructed around the wires, the township fire department, in the throes of moving men and equipment to the new station not far from the house, will make no preparation for the burning operation.

The house is situated on six acres of land facing Sullivant-av, across from Westgate Manor. The acreage was recently purchased from George E. Ruffing, Charles A. Ruffing and Mrs. Clara Trabue, of Valleyview by the Highland Avenue Friends Church. The site will be used for a new church for the congregation.

The old house, over 100 years old, was in the Ruffing family more than 90 years. It was moved to its present location from Camp Chase. The land was part of the old Sullivant tract and totalled about 44 acres at that time.

George E. Ruffing, grandson of the early pioneer Ruffings and his family lived in the ancient house until just a few months ago when they moved to 291 S. Terrace-av.

EUB Nips Second Win of DeMolay

By Bert Korte

Two games were played last Thursday evening in the Hilltop YMCA Intermediate Church Softball League.

Avondale EUB won its second game of the young season as they defeated the DeMolay team 10-3. Potter chalked up the win for the Avondale club, while Webb, hurler for the DeMolay team, was charged with the loss.

In the other game Westgate EUB won its first game of the season as they dealt the Hillcrest Baptist representatives their second defeat. Kight was the winning pitcher with the loss going to Kuntz.

The other scheduled game of the evening between the Thomas Avenue Church of Christ and West Park Methodist was called off due to bad playing conditions. This game will be rescheduled at a later date.

Old Home To Burn, Make Way For Church

TO BE BURNED TO MAKE WAY FOR CHURCH—The old Ruffing home, located at 3734 Sullivant-av, had people buzzing and rubber-necking last week. It was announced that it would be burned down to make way for a new Highland Avenue Church. The date was set for Saturday, June 18, but the Franklin Township Fire Department refused to let it go on as scheduled because of the proximity of high tension wires to what will be a very hot fire. A log cabin is disguised by the vertical clapboards. Staff Photo

A LATER PICTURE showing the old log house with the clapboards removed. Walter McKinzie, 4474 Sullivant-av, removed the yellow poplar clapboards to use for other building. STAFF Photo

Knothole League Opens Tuesday For Some Hilltop Teams

The Junior Division, West League, of the Columbus Recreation Department's Knothole Gang Baseball League, will open play on Thursday, July 7, with the Glenwood Furies playing the Columbus Pirates on Westgate diamond 1.

In the Intermediate League, Glenwood will play the Boys' Club at Gowdy Field's diamond 17 on Tuesday, July 5, and St. Aloysius against St. Mary Magdalene at Southview 7 on Wednesday, July 6.

HAVING HOME REMODELED

Heston Hensley, 23 N. Terrace-av, is having his frame home remodeled. Reuben Smith is the contractor.

Third Reunion Is A Living Memorial

Mr. and Mrs. Moss Williams, former residents of the Hilltop, now building a new home at 4796 Hayden Falls-blvd, and living temporarily at 5308 Riverside-dr, are again sponsoring a reunion of the squadron members of their late son, Lt. Gayle V. Williams, who was killed in the service, June, 1945. The squadron was formerly known as CVIG (n)41. It was a select group of men and was the first carrier-based night-fighter group during World War II, and was attached to the USS Independence.

The Williams' sponsored the first reunion of this group in 1948, and this will be the fourth reunion; this one being outstanding because it will mark the tenth anniversary of the ending of the war. Again this year, the reunion will be held at the Hotel Lancaster Lancaster, July 1 through 4th.

Reservations have been made for 28 squadron men and their wives from all over the United States. Folks will be arriving all day July 1. On Saturday, they will be golfing at the Lancaster Country club, swimming, shopping, making trips to caves, etc. In the evening there is a cocktail party planned, followed by a banquet and short business session. The Williams' have engaged Bob Verbeck and his band for the balance of the evening for square dancing.

On Sunday, the group will pilgrimage to Columbus, where they will be the guests of Mr. and Mrs. C. Carlton Hartley, 1370 Wilson-rd, for a picnic dinner. Then the group will be taken to the new home of Mr. and Mrs. Williams (in progress of construction), and then go back to Lancaster for Sunday evening.

Among the reservations, are Mr. and Mrs. D. K. Powers, Oscola, O., who also lost their son, who was a member of this squadron; and Mrs. Russell Edwards, Blythewood, S. C., who lost her husband.

"BARKING" FOR WHITE ELEPHANTS—The children who planned the Georgian Heights "Polio Festival," held Tuesday, June 14, are shown selling "white elephants" at one of their seven tables in front of the William R. King residence at 645 French-dr. Barker Is Ann Miller. Others, left to right, are Sheron Burtschin, Lois King and David King. Fifth member of the committee was Carolyn Parsons, shown in insert. They made $9.53 which was sent to the county polio foundation. Staff Photo

Give Sale And Show For Fun And Funds

Two groups of children in widely-separated Hilltop areas were "polio-minded" last week, and did something about it. They gave benefit performances of their own planning and sent the money to the Franklin County Infantile Paralysis Foundation.

For two weeks previous to June 14, the day of their "Polio Festival", five children in Georgian Heights, ages 8 to 12, collected donations of white elephants, promises of baked goods and other saleable articles. The "big day" found the children operating seven tables along the sidewalk in front of the William R. King residence, 645 French-dr.

The youngsters netted $9.53 in their business venture, which was open from 5 to 9 p. m. They had a ring toss game, for which a fee was charged. They had a grab bag table, a fish pond, and an ice cream sandwich stand. They also sold white elephants, Kool-Aid, and baked goods.

In the Westgate section of the Hilltop, at the home of Mr. and Mrs. Herbert Howard, 374 S. Huron-av, four children, nine and ten years old, had an idea similar to that of the Georgian Heights youngsters — earning money for the polio foundation.

On Friday and Saturday, June 17 and 18, the garage of the Howards was transformed into stage and seating-room for audience and they presented a show. They rigged up their own costumes, stage curtains, and applied their own make-up.

Mrs. Howard served pop and cookies to the neighborhood youngsters attending the show.

Taking Crime Out Of Comic

Ohio Legislature ended its session with a most notable achievement toward bettering the moral and mental development of youth last week. They passed a bill which put a ban on the sale and distribution of crime, sex and horror comic books and privately shown obscene movies

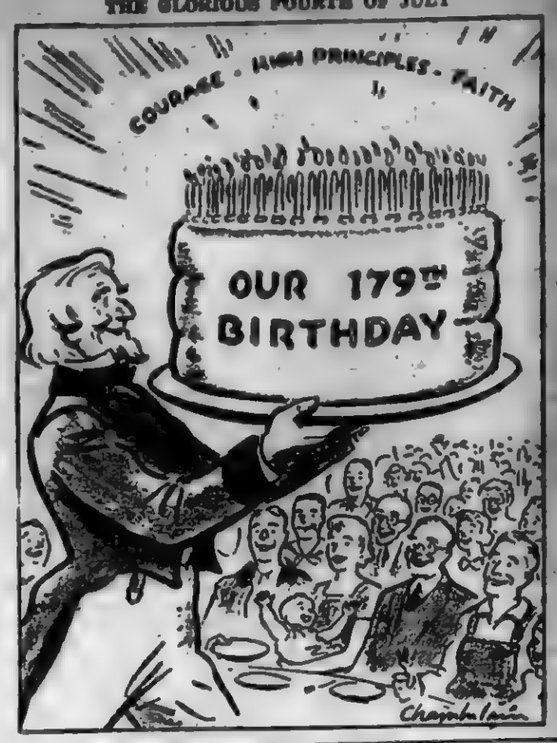
To these honorable gentlemen goes our highest praise.

For many years newsstands have been flooded with filth which many parents and older persons would never be "seen" reading, but youngsters could purchase the books and read them secretly and OPENLY without censure because they were comic books.

Many newspapers in various states have attempted to bring about the ban on these ignoble comics and movies but were unsuccessful. Ohio should be proud of this act of legislature.

Knowing How Could Save You

There are times in everyone's lives when they go to the lake to either just sit on the sand or swim out into the cool, refreshing water. But . . . do they know how to be safe in the water . . do you?



There are a few simple rules which can really help you keep out of trouble when you go in swimming.

Learn to swim—anyone can—is the statement given by YMCA authorities. You owe it to yourself and others.

Swim only at protected beaches and pools; race towards the shore—never away from it; never dive in unknown waters; don't go in for competitive water sports without training; never swim alone; after strenuous exercise, rest and cool off before going swimming; stay out of small boats if you can't swim; don't try to swim against strong currents; when getting into a small boat, or helping someone into it, use the stern or bow—not the sides. It is less likely to capsize. Learn to swim. You owe it to yourself and others.

THE GLORIOUS FOURTH OF JULY

Teen Troubles

By John Douglas, M.D. and Mary Douglas

Question: What about going steady? At what age should you begin?

Answer: There is no one age that can be called "right" for everybody. Not all girls and boys are ready for steady dating at the same age.

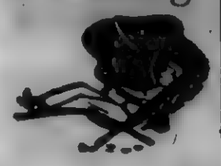
Before you decide, it is well to remember that going steady has both good and bad points.

In the "good" column we find (1) You are always sure of a date. This is especially important to a girl because she is the one who must worry about an escort. (2) You become better pals because you learn to know each other better. (3) Dating costs less money because you can have fun without "putting on a show" or trying to impress each other.

On the not-so-good side, boys and girls have themselves listed the following faults: (1) It's always the girl who "gets left" when things are broken off. While she sits at home and waits for a date, the boy just picks up the phone and calls another girl. (2) Going steady limits your experience with other boys and girls—which you need in order to choose the kind of person you want to marry. (3) Sometimes going steady leads to heavy necking and dangerous situations. After all, statistics tell us that the majority of couples who go steady in high school do not marry each other.

The wise teen-ager will consider all these things — balancing the good points against the bad — before becoming too involved in steady dating.

And Low-Mindedness?



Broad-mindedness has been described as high-mindedness that was flattened by experience.—The Savannah Morning News.

I am the Lord which exercise loving-kindness, judgment, and righteousness, in the earth, for in these things I delight.—(Jeremiah 9, 24.)

How wonderful it is that the Source of all power in the universe, that which keeps the suns and the galaxies in orderly course, is God within and all about us always — that His loving-kindness is available to us, His children, unstintingly, for the taking.

NOSTALGIA

I think that I shall never see
A bride as dewy-eyed as me.
One who sniffs the orange scents
With such a holy, high intent—
One so sure that nothing phony
Alloys the gold of matrimony.
There'll never be a bride again
Whose coffee tastes so much like rain!

Thousands of Americans had the same idea the Weakleys had—that Gettysburg, Pa., would be an appropriate place in which to spend the Memorial Day weekend. The hotels and motels in and around the town were profusely decorated with flags, bunting, and No Vacancy signs. It rained; lightning struck a tree too near us for comfort; the restaurants were crowded. But we loved it anyway. Being a loyal Ohioan I'm sorry to say it, but the only reckless drivers we saw on the trip were Ohioans! Gettysburg has always been special because my two grandfathers fought in that battle. A policeman told us that tourists are most interested in the Eisenhower farm, the Eternal Light Peace Memorial, the church in which the pew Lincoln used is still preserved, the North Carolina Monument designed by Borglum, the Gettysburg Address Monument, and the Jenny Wade House. A waitress said much is made of the fact that the President attends church when he is at the farm. Her young son asked her why he shouldn't go to church since everybody else does. Gettysburg residents are friendly and they take their history and the Eisenhowers in stride.

IT HAPPENED IN FRANKLIN COUNTY

Henry Clay A Columbus Visitor In January, 1830

By Gilbert Dodds

During the year 1830 the Democratic party held its state convention in Columbus and made nomination for state officers. Robert Lucas, a soldier of the War of 1812 (at that time residing on a large farm in Pike County,) was nominated for governor. He was one of the best-known men in Ohio.

It was while this convention was in session that Henry Clay, leader of the National Republican Party, visited in Columbus. He frequently had business in the higher courts here. In January, 1830, he had made a trip to New Orleans and other Mississippi River towns and during the summer toured Ohio.

At Columbus, party leaders met him at the hotel. There was Charles Hammond of the "Cincinnati Gazette", Jacob Burnet, John C. Wright, Philip Doddridge, Thomas Ewing, Tom Corwin and many other prominent men of the party.

Isaac Humphreys of the Jeffersonians, wrote to General Lucas, giving interesting descriptions of the gathering of the Clay followers. Among other things, he said there were 40 or 50 Federalists, mostly editors of newspapers or members of the bar. Clay was not a candidate for any office that year but later he received the nomination for president but was not elected.

Little Jet League Play Begins Season This Week

June 26 marked the opening day of Little Jet League baseball games at Glenwood Recreation Center. On this day the Cowboys opposed the Sabers, and the Eagles and Yankees clashed. Wednesday, June 29, the Indians and Cardinals collide.

The schedule is set up so that each team will play two games each week. However, these games will not be played on the same day. The weekly schedule is as follows: Tuesdays, games at 11:30 a. m. and 1:30 p. m.; Wednesdays, one game at 1 p. m.; Thursdays, games at 11:30 a. m. and 1:30 p. m.; Fridays, one game at 11:30.

The Cowboys served an early warning of their power as they soundly trounced the Eagles 15-0 in a pre-league practice game. The Sabers were scheduled to play the Indians in another practice game, but the Indians failed to field a team. As a consequence, the Indians were completely remodeled, with all the laggards being dropped. The practice game between the Cardinals and Yankees was rained out.

Westgate Little Jet League Still Signing Members

Westgate Park has been buzzing with activity the past week and a half. Some 138 boys signed up for the Little Jet League and supervisors Phil Fulton and Bob McDonald are still signing up more children. Twenty-eight boys have joined the Little Bigger League.

A girls' softball team is in the organization stage. Any girl between the age of 10 and 13 years who wishes to join should contact Julianne McDonald at the park.

Many children are attending Westgate's arts and crafts program. The class meets each day from 9 to 5 p. m. The group has tried its hand at finger painting, coloring, painting, gimp work, and they are making a doll house and its furniture for their summer project.

Story telling is offered to the younger set from 1 to 3 p. m. Mondays, Wednesdays, and Fridays. The horseshoe courts are open daily for the public's use.

Free movies are available to the children Friday evenings at 7:30 p. m.

Thursday evening Westgate is having a record party at 7 p. m. All children are asked to bring their favorite records.

New Ball Diamond At Glenwood

FINISHING TOUCHES are being put on the ball diamond at Glenwood Recreation Center by Franklin Witherup, 1968 Fairmont-av, left, and Paul "Willy" Wilson, 153 Nashoba-av, as they were cutting up some of the felled trees. Jack Roberts, supervisor of boys' sports at Glenwood, in supervising the job. For many years attempts have been made to have the job done without success. Thanks to the goodwill gesture of these men the baseball diamond will be enlarged to handle the games planned.

PRIMER FOR AMERICANS

You live in the United States of America. You are an American.

Real Americans like their country. They are proud of it. They think it is a good place to live. And they want to keep it good—to keep it getting better all the time.

Why is America the way it is? What makes it a good place to live? The answer is simply this:

Throughout our history most Americans have believed that every person has certain *rights* and *duties* and *responsibilities*.

Americans have believed that there are certain things people *should do*, and things they *should not do*.

They have also believed in certain things that people *are*, and *are not*.

These things that people believe are called *principles*. This book is an attempt to state the Principles of America in simple, primer fashion so that you can understand them, learn them, and remember them.

This is important. It was because earlier Americans believed in these principles and guided their lives by them, that America has grown to be the good place it is.

If all of us learn and remember these principles—if we also guide our lives by them—then we can help to keep America growing better, and better, and better.

And if we follow these Principles of America, we can help make the world a better place to live in, too.

The Principles of America are these . . .

1. **Each Person is of Importance and Value as an Individual.**

This is the cornerstone . . . the foundation of all our other beliefs in a person's right to live his own life, to speak for himself, to choose and change his leaders.

From it comes our hatred of those "isms" under which the individual has no value or importance *as a person*, but is only one of many unimportant people who have to live the way their leaders tell them to.

Coming directly from that first principle are two others that are also part of the foundation of Americanism.

2. **We Believe that All Men should Enjoy Personal Freedom.**

3. **We Believe that All Men are Created Equal.**

It is worth noting that the Declaration of Independence expressed the belief that "all men are *created equal*." It did not state or imply a belief that men *develop* equally or have equal *ability*, or that they should ever be forced to an exact equality of thought, speech or material possessions.

That would be equality without *freedom*. Americans have always believed the two should go together.

In our Constitution, and in other laws of our land, there are set down principles to protect the rights and freedoms and equality of individuals.

4. **The Right to Freedom of Speech.**

This includes freedom of the press, of radio, of motion pictures, of every means by which man may express his thoughts.

5. **The Right to Freedom of Assembly.**

As we believe in the right of individual action, so we believe that individuals should be free to act together.

6. **The Right to Freedom of Worship.**

Not only is the individual free to worship as he will, but religions themselves are free and equal.

7. **The Right to Security of Person and Property.**

Not just one, but three Amendments to the Constitution (4th, 5th and 14th) protect against illegal search and seizure, or loss of life, liberty, or property, without "due process of law."

8. **The Right to Equal Protection before the Law.**

As individuals are equally important, so laws must apply equally to all, without special privileges for any group.

9. **The Right to Freedom from Slavery.**

This includes "the right to quit," for no individual may be *forced* to work for another.

10. **The Right to Petition the Government.**

The right of the individual to "petition the government for redress of grievances" is evidence of the American belief that government is the servant, not the master, of the people.

11. **The Right to Vote for people of your choice.**

This is the individual's most potent weapon in the protection of his rights and freedoms . . . a weapon that to be effective must be constantly and wisely used.

Other Principles hold that every man has . . .

12. The Right to a Good Education.
13. The Right to Live where he pleases.
14. The Right to Work where he wants to.
15. The Right to Belong to an Organization.
16. The Right to Own Property.
17. The Right to Start his Own Business.
18. The Right to Manage his Own Affairs.
19. The Right to Make a Profit or to Fail, depending on his Own Ability.

There are other, similar rights of individual action which are Principles of America, but all of these individual rights may be combined in these two broad principles . . .

20. Every Man is entitled to Freedom and Equality of Opportunity.
21. Every Man may Earn his Living When, Where, and How he wants to.

There are also Limiting Principles . . .

Principles of individual *freedom* sometimes clash with those of individual *equality*. Therefore our rights as individuals must be limited, and those limitations are themselves *principles*.

22. The Rights of any Individual shall not Interfere with those of Other Individuals.

Your right to swing your arms stops where the other fellow's nose starts.

23. The Rights of any Individual shall not Interfere with the Welfare of the People.

Freedom of speech does not give the individual the right to shout "fire" in a crowded theatre.

24. Every Individual owes Obedience to the Laws under which he Lives.

The individual has the right to talk against a law, to work and vote to change that law, but NOT to disobey that law.

Principles that are Patterns of Behavior . . .

Many of our principles of individual freedom and equality are guaranteed to us by law. But we have other beliefs, other general rules of action and conduct that have grown to the status of principles. And these too, are foundations of Americanism.

25. A Man shall be Judged by his Own Record.

A man's family background, his race or his religion, is not as important as what that man himself can do, for Americans believe a man must stand on his own feet.

26. A Man is Free to Achieve as much as he can.

We believe that where any boy may become President, where any man may achieve greatness, there is the greatest incentive for every man to do his best.

27. To Achieve anything, a Man should be Willing to Work.

Americans have always known that "you don't get something for nothing," that to get anything takes a willingness to work.

28. Achievement also Depends upon the Ability to do a Good Job.

Add to "willingness to work" the ability to produce results and the combination is the basis for most individual achievement in our country.

29. Every Man has the Right to a Fair Share of the Results of his Work and his Ability.

Because of this belief, America has not only produced more goods, but they have been more fairly and more widely shared by more people than in any other country.

30. Security is the Ability of a Man to Provide for himself.

The only true security for any individual is the opportunity, the ability, *and the determination* to work and plan and save for his own present, and future. Self-reliance is vital to individual independence and personal freedom. No man can be "proud and free" who depends on others for his security.

31. When an Individual cannot Provide his own Security, the Responsibility should be Assumed by Others.

We believe that no one should starve, or be without adequate clothing and shelter, so those who have more than their basic needs share the responsibility of providing the essentials of security for those who need help.

32. Each Individual must Deal Fairly with others.

Honesty, fairness, and personal integrity are virtues that help free and independent individuals get along with each other without losing their independence.

33. Fair and Free Competition is a Good Thing.

Americans have always believed that competition among individuals or groups encourages greater effort which in turn brings greater benefits to all.

34. Cooperation among Individuals is Vital.

President Eisenhower has said: "The freedom to compete vigorously accompanied by a readiness to cooperate wholeheartedly for the performance of community and national functions, together make our system the most productive on earth."

Principles of Individual Responsibility . . .

Freedom for individuals carries with it an equal responsibility to use that freedom wisely. If we wish to remain free, we must faithfully fulfill this responsibility.

35. The Individual is Responsible for himself and his Family.

He must protect them and provide for their present and future well-being.

36. The Individual has Responsibilities to the Groups of which he is a Part.

He must give of his best to his community, his church, his employer, his union, and to every group in which individuals cooperate for their mutual benefit.

37. The Individual has Responsibilities to his Country.

He must be an active citizen, interesting himself in local, state, and national government, voting wisely, thinking and speaking and acting to preserve and strengthen freedom, equality and opportunity for every individual.

38. The Individual has Responsibilities to the World.

Man's horizons have expanded. What happens in the world affects him, and his actions can affect the world. Today, therefore, each man has a responsibility to act—and to encourage his country to act—so that freedom and cooperation will be encouraged among the people and the nations of the world.

For America's Future

Most of us have faith in our country's ability to move forward, to improve, to grow, to provide more and more individuals with more and more of everything they want and need in life . . .

If we, the people of the United States, want to have more material benefits, we must believe in and follow these two principles:

39. The only way we can Have More is to Produce More; and
40. As we Produce More, we must make it possible for More and More People to Enjoy that which we Produce.

If we, the people of the United States, want to have a better life, spiritually as well as materially . . .

41. We must stand firmly for our Beliefs, our Rights, our Principles.

There are those who would chip away our confidence so that their special brand of tyranny might creep into America. They must not succeed. So, let us ask of every plan, or act, or idea . . .

Is it With or Against the Principles of America?

Rev. Amos Cambric Assumes Pulpit of Wheatland Avenue

Rev. Amos Cambric, Jr.

The Rev. Amos Cambric, Jr., has been assigned as the new pastor of Wheatland Avenue Methodist Church and assumed his duties there on May 22.

In addition to his pastoral duties, he also serves as conference director of Christian vocation for the Lexington Conference of the Methodist Church and his responsibility is to interpret Christian vocations and direct young people into full-time Christian service.

Born in Hempstead, Tex., he was graduated from Sam Schwarz High School there, from Arizona State College and, in 1952, from Garrett Biblical Institute at Northwestern University, Evanston, Ill.

He served his first pastorate in Flemingsburg, Ky., and from 1953 to the present time, was pastor of the Wesley Methodist Church, Harvey, Ill.

The Rev. Phillip A. Harley, former pastor of Wheatland Avenue, and the Rev. Cambric exchanged pulpits. The Rev. Harley will serve Wesley Methodist Church while attending Garrett Biblical Institute in Evanston.

A veteran of World War II, the Rev. Cambric and his family are at home in the parsonage, 226 S. Wheatland-av. His wife, Zenobia, has taught home economics in junior high school and the couple has two daughters, Carol Lynda, and two-year-old Vicki Sue.

The local congregation has outgrown its present building, with educational facilities especially overcrowded. Future plans of the church call for a building program.

GM Plans Expansion

(Continued from Page 1)

ing to Paul L. Jones, resident manager.

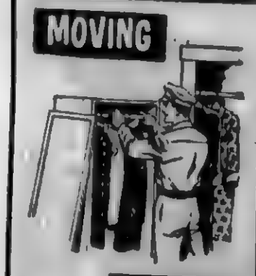
This expansion is being accomplished by building additions amounting to 635,723 square feet of floor space plus service roadways and parking lots. Additions will be made to the present manufacturing plant, office and power house.

New Waste Disposal Plant

A completely new modern waste disposal plant will be built for the treatment of waste prior to emptying into the present sewer. This is part of GM's new half billion dollar capital expenditure program announced in Detroit recently.

Only nine years since the plant operations began, Ternstedt will make its largest expansion move.

In 1946 the plant had 699,021 square footage; in 1950, 128,000 square footage of floor space was added, making the total 1,027,021. The new expansion is scheduled for completion on June 1, 1956, and will bring the total floor area up to 1,652,744 square feet.



Contracts have been awarded to Garwick & Ross, local contractors, for the new east parking lots and roadways.

It is anticipated that late in 1956 the employment will be increased from the present 4,760 employes to approximately 7,000 employes.

One of four plants in the Ternstedt Division of GM, the Columbus plant receives daily approximately one million pounds of various types of steel which is fabricated into 966 different shipping part numbers. The daily requirement for these parts adds up to five and a half million pieces of automotive hardware which is shipped in 35 boxcars to 55 assembly plants.

"The decision to expand locally is an expression of our faith and confidence in the future of Columbus," Jones added.

A Growing Problem—

(Continued from Page 1)

we'll have the city completely cleaned up and that includes the annexed areas."

The division has a new "mass production" system for handling the refuse collection problem.

Under the new set up, trucks operate in pairs with five men to each pair. When a truck is full, only the drivers go to the dump, the other three men stay in the alley getting rubbish ready for the next load.

The problem has been complicated with the closing of the Whittier-st and W. North Broadway city dumps. Trucks from all over the city must travel to the two remaining dumps on McKinley-av and John-st.

If any residents have any complaints about the non-collection of refuse, call the department at CA. 1-2311, extensions 328, 329, 330 and 331.

Spotlight Falls On Home In Valleyview Which Was Built By Owner

This trim four and one-half room brick one-floor plan is located at 530 N. Burgess-av, and was built by its owner, Floyd Christman, formerly a well-known Hilltop contractor. Awning type windows, as well as the raised cement porch with wrought iron corner posts, are protected by green and white aluminum awnings. (Staff Photo)

The Home of the Week

The foyer, floored in spattered linoleum with glowing pink walls and a white ceiling, leads to a center hallway and the living room, shown above.

The kitchen and dinette, off the living room, is floored in red spattered linoleum and boasts white walls. Bamboo shutters may be drawn across the picture window in the dinette area.

Christman Family Enjoys Roominess of New Home

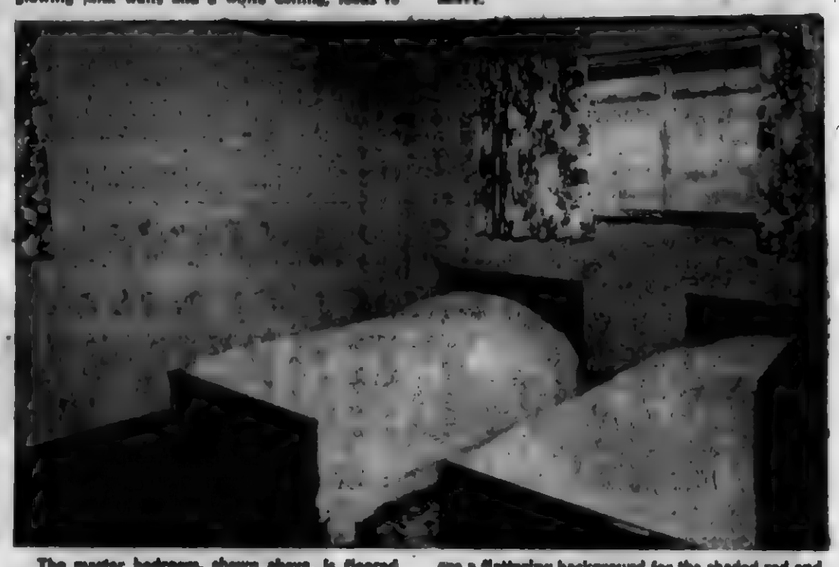
By Grace Durflinger

Spotlighted this week is the home of Mr. and Mrs. Floyd B. Christman, 530 N. Burgess-av, in the village of Valleyview. Christman built the home himself, starting it in May last year. It was completed in August and the family, which incluides a 19-year-old daughter, Joan, moved in then.

Christman was formerly a contractor well-known on the Hilltop, but now he owns and operates Christman's Grill, 2514 Sullivant-av.

The Christmans have lived on the West Side nearly all of their lives and Joan is a graduate of Central High School.

Christman's chief pleasure is hooking the big ones on fishing trips in Michigan, while Mrs. Christman's favorite sport is "antique hunting." Her lovely home displays many fine prizes of her efforts.



The walls and ceiling of the living room are pink and white, respectively, while the drapes at the picture window are a floral print of shaded greens, pinks, and metallic gold on white. The carpet, designed in a rich floral pattern on gray, is combined with the mellow tones of birch woodwork and a marble brick fireplace. Furnishings include a leaf green frieze sofa and matching chair, a second occasional chair in pale green frieze, and a pair of occasional chairs flanking the fireplace, one of beige satin brocade, the other of brown leatherette. The walnut coffee table and matching chairside table are hand-carved imports from France.

In the kitchen, with its red floor and white walls, there is a chrome dinette set with gray Formica table top trimmed in red and blue leatherette, with matching chairs. The white-enameled stainless steel cupboard units are separated by counter tops and backing of red Formica trimmed in chrome.

A hall to the right of the kitchen leads to the two bedrooms and a bathroom displaying pink fixtures and a blue tile floor, combined with blue tile walls, trimmed in maroon.

The walls of the master bedroom are gray. Floors are covered with green linoleum. Needlepoint rugs in a muted floral pattern are arranged with a pair of twin beds, a vanity, and a dresser of dark mahogany. The roomy closet boasts double sliding doors.

Daughter Joan's bedroom combines a pink spattered linoleum floor with aqua walls, trimmed in black at baseboard level. The drapes are in a scenic pattern of beige, pink and gray on white.

The master bedroom, shown above, is floored in green linoleum with red trim. The gray walls are a flattering background for the shaded red and green floral drapes.

Jack Kidwell, who lived on a farm just north of the course as a child, started caddying when he was eight, and as he says, "just grew up with the course." He was fortunate enough to be able to purchase the place in 1937, operating it on a semi-private basis. Kidwell is also chief pro.

When Kidwell was in the service for four years during the war his parents, Mr. and Mrs. L. E. Kidwell operated the course.

Assistant pro and assistant greens-keeper is Irvin Friend. Two Hilliards high school students, Harold Gardner and Ronnie Campbell, assist with course maintenance.

The qualifying rounds for club championship are now in progress. Club champion at the present is Art Todd of Columbus.

Par for the Beacon Light Course is 36-36—72. Course record is held by Charles Klein, of the Wilson Advisory Committee, San Antonio, Tex.

Regular caddies come from the area around the golf course. They are Bill McMillen, Garden Heights, Ronnie and Harold Leach and John Stoffel. Others come at different times, but do not work regularly.

The course sponsors a Match Play Caddy Championship each summer. Ralph Wells of Garden Heights was last year's caddy champion.

Beacon Light Golf Course Has Nine Holes On 60 Acres

As soon as the first warm days of spring arrive many golf-minded folks in West Franklin County get out the golf clubs and wend their way to Beacon Light Golf Course, 391 Norton-rd. For those not so golf-minded, just a drive by the course to glimpse the lovely green slopes, lakes, and venerable trees clustered along wandering creekbeds is a good spring tonic.

Now that summer is here the greens are even more popular as groups start out from the club house, the old Postle homestead, to try their luck at nine holes on the 60-acre course.

The sixth hole is a complete water-carried shot for between tee and green lies the newest of two Lakes. This lake is only two years old and it looks like nature herself placed it there.

The older lake near the club house lies across the approach shot on the fourth hole. It was recently drained, cleaned out and rebuilt.

The Postle sons, Dr. Carl, and Fred, attorney, built the course in 1926.

America's happiest birthday!

This July Fourth, America celebrates its 179th birthday.
Independence Day, we call it, because on this day, in 1776, the thirteen colonies declared themselves a free nation of free men.
But should Americans single out any one particular day as Independence Day? In this great land of liberty, isn't every day Independence Day?
Every day we are free to speak our mind.
Every day we are free to read what we want to read.
Every day we are free to worship as we want to worship.
Every day we live in a land of peace and good will—a land that respects the God-given dignity of each human being.
For all our freedoms, for all our blessings, we believe that Americans should be devoutly grateful—not only on America's birthday, but 365 days a year.

HEY MISTER . . . YOUR TRUCK IS ON FIRE," was shouted at Joe Hissong of Utica, by a passing motorist as Hissong drove his large semi-trailer truck west on Broad-st. The high truck had scraped a trolley wire on the Sullivant-av viaduct, igniting the paper wrapping of the load of fiber glass insulation carried in the truck. The fiber glass was scorched. Stopping at the Hilltop fire station, fireman are shown in the top photo pouring water into the hole in the top of the trailer. In the lower picture Hissong is soaking the fiber glass which has all been taken out of his truck. STAFF Photo

A truck loaded with fiber glass refrigerator insulation scraped wires under the railroad viaduct near Sullivant and Glenwood-avs on Friday morning, July 1, and caught on fire.

The B and L Motor Freight Inc. truck was going to Westinghouse Electric's Columbus plant from Newark, O., when it scraped the trolley wires running under the viaduct, igniting the contents.

The driver, Joe Hissong, Utica, O., said a passing motorist told him that the trailer was on fire, so he drove to fire station 17, where the contents were unloaded and the fire was put out. The contents were thoroughly saturated with water, to prevent further damage while on the ground.

HBA Members Roll Out Bean Dinner Coupon Barrels

Members of the Hilltop Business Association literally "rolled out the barrels" today as they presented to Hilltoppers the first concrete evidence to mark the approach of the annual Hilltop Bean Dinner, to be held at Westgate Park on Tuesday and Wednesday, July 26-27.

The barrels, located at strategic points on Hilltop business streets, are being used for the deposit of coupons, which may be secured from Hilltop merchants displaying cards signifying their sponsorship of a contest in which $100 will be the top award. There will also be several prizes in lesser amounts.

Secure Exhibit Space

Much interest is being shown by local firms in having displays in the exhibit tent, according to Paul Rausch and P. A. Jackson, who are handling that phase of the Bean Dinner.

Business concerns which have already signed up for space include Westgate Electric Co., West Hill Furniture, West Side Motors, Hilltop Jewelry, Rains Carpet Co., Arco Electric Co., City Furniture Co., Value House and Hilltop Motors.

However, there's room for many more, Mr. Jackson said, as the tent can be made as large as is necessary to accommodate all the exhibits. Deadline for securing space, however, is July 15, he declared.

Many to Compete for Queen

Several new entrants in the competition for Bean Dinner Queen and their photographs will appear in the next issue of The Hilltop Record. A record entry list this year will make competition keen, according to Mrs. Harriet Huff and Miss Sarabel Henderson, co-chairmen of the Queen committee.

The queen will be chosen on the basis of neatness, charm and poise, and will reign over the two-day affair. All contestants will be attired in street dresses.

Any girl wishing to enter may do so by contacting the office of the Hilltop Business Association. Only requirements are that she either resides on the Hilltop, or be employed by a Hilltop firm and be at least 16 years of age. She may be sponsored by a Hilltop business concern if she so desires.

Judges will not be announced until the evening of the selection of the queen—July 28. Bert Stille will serve as emcee for the affair.

Appreciative Community Enjoys Lions Club's July Fourth Fete

"Bigger and better than ever," was the community's reaction to the annual Fourth of July celebration staged by the Hilltop Lions Club Monday night in West High School's athletic field.

The frolic of entertainment, fireworks, fun and dancing marked a grand and glorious finish to the Fourth for Hilltoppers who were stay-at-homes on the holiday as well as to those who returned from week-end jaunts.

Recipient of this year's six months' free Banner diaper service, gift of the Hilltop Lions to the first local parents of the Fourth, was Mr. and Mrs. Archie Parker, 435 Eldon-av. Their baby son was born in Mt. Carmel Hospital.

This year's fete was under the direction of Bill Coon with an able assist from Paul Hott and Bill Steen.

Talent for the variety show included Ken Carpenter, accordionist; Nancy Wilson, vocalist; Dixie Lee Koontz, dancer; the "Debutantes," girls' quartet; Jan Wihl, pantomime act and Nancy Brooks, tap dancer.

Hilltop Youth Tries Valiently To Save Child

Scott Munson, 17-year-old West High School student and a staff member of the YMCA's Camp Alfred Willson has been well-trained in first aid and in methods of artificial respiration. In an heroic effort Sunday, he tried with all the skill at his command to keep alive the spark of life in a small boy, but to no avail.

The son of Mr. and Mrs. A. L. Munson, 277 E. Hague-av, he was among the gay holiday crowd at WRFD picnic grounds on Sunday, and was an eye-witness to the tragic accident which claimed the lives of Mrs. Eda Rosetti and her three small children.

Munson, with Bob Lane, 921 Lockbourne-rd, immediately started artificial respiration on Johnny, six, and worked with him for about 30 minutes until emergency squadmen arrived and relieved him.

The child was pronounced dead on arrival at a local hospital.

Fifty-three old comrades from 15 states convened in Lancaster, Friday. Festivities there included golf, swimming, dancing, a party and a banquet. On Sunday the group moved to Columbus where they were guests of Mr. and Mrs. C. Carlton Hartley, 1370 Wilson-rd. A portion of the group is pictured above with Mr. and Mrs. Williams. The Sunday affair is traditionally held in the Williams' home but the couple is building a new home this year at 4796 Hayden Falls-blvd. STAFF Photo

The group will meet with the Sudbury Kiwanis Club on July 8 at the Nickle Range Hotel in Sudbury.

A part of the Kiwanis International interclub program, this meeting will help promote better understanding and fellowship between people in different sections of this country as well as Canada.

This sort of club cooperation affords an opportunity to discuss the service activities of the clubs, such as their youth and other community programs. Internal club procedure is also a much discussed topic in these inter-meetings.

Attending are; Lowell Shroyer, Shroyer Funeral Home; Jim Henery, Westgate and Mound Street School principal. Ted Stetham, building contractor; Bob Weaver, Weaver Furnace; Bob Cramer, retired; Leo McCombs, McComb Florist; Jim Holroyd, architect; and Dr. Bruce Tanner.

"What! You're staying away and she's sinking?"

"Yes, she's sinking soprano."

Starts First Job At 66

Ancil Reid (right) chats with milk truck driver, Ralph Sheppard (left) of 556 S. 18th-st.

"This was the first place I ever worked for anybody other than myself," said 79-year-old Ancil Reid, day-watchman at the Bureau of Juvenile Research.

Reid, a widower for 28 years, lives at 1963 Sullivant-av. He has a son, Carl, a Pennsylvania railroad engineer at Fort Wayne, Ind., and a sister at Urbana, O.

He had a Standard Oil station at Leonard and Fifth-avs until June of 1942. A cousin, Harry Dern, one of the early heads of the bureau, came out to the station one day to get gas. Ancil told him that would be the last gas he would ever get from him there. Dern asked why and Reid told him that he was giving up his lease the following day, because the hours were too limited and not enough gas due to the war. Dern told him to report to the bureau the next day, and they would hire him.

Gets Job

He was hired to drive a truck and take care of the lawn. He stayed at that until two years ago when the fence was put up. The watchman job was then created. He asked for it, and got it.

Reid says that he hasn't an enemy, young or old, in the whole institution. He used to drive a truck load of the boys downtown, and not one of them ever tried to get away. None of them ever turned on him, either. They used to walk away from the custodians all the time, but they always would either be caught or come back under their own power, not one ever got past him or tried to.

The first day on the job was the strangest to him, because of all the youngsters whooping and yelling their lungs off. He soon grew used to it, and has loved his work very much ever since then.

Forty Days Sick Leave

Ancil has seldom been sick and because of this he has never missed a pay. At the present time he thinks he has about 40 days sick leave coming.

He will be 80 on Dec. 11, and he says he has to stay on this job because he couldn't get work elsewhere, but he is content with his job, so he doesn't care.

Sympathetic Army Recruiter Draws Many Enlistees

He is a sympathetic looking fellow who just says . . . "Don't be drafted . . . enlist."

Such was the statement made by Sgt. Ray Mitchell, recruiter for the U. S. Army from behind his new desk at the Hilltop Postoffice Tuesday morning.

Ever since being assigned to Columbus duty, Sgt. Mitchell has lived on the Hilltop. He lives at 2867 Wicklow-rd. With a friendly hand he joined community projects and has given of his time to become a "regular" member of the Hilltop.

Yet back to business . . . Sgt. Mitchell states, "My office hours are from 9:30 to 11:30 a. m. every Tuesday in the Hilltop Postoffice."

Sgt. Mitchell serves the recruitment needs of all of West Franklin County.

Miss Shelby Is Bride Of Howard Merriman

The quaint, century and a half old, red brick Presbyterian Church in Lynnhaven, Va., was the scene of the marriage ceremony uniting Miss Patricia Ann Shelby and Mr. Howard Owen Merriman, Saturday, June 18. The Rev. Raymond C. Flitton read the service before an altar banked with ferns and baskets of white summer flowers.

Given in marriage by her father, the bride is the daughter of Capt. Edward Ellis Shelby and Mrs. Shelby of "Watersedge," Lynnhaven, Va. The bridegroom's parents are Mr. and Mrs. J. P. Merriman, 44 S. Sylvan-av. Mr. Merriman is co-owner of Seiller's Dept. Store.

The ballerina-length wedding gown was fashioned of white lace over pale pink taffeta, designed with a fitted bodice embroidered in pearls, portrait neckline and bouffant skirt. She wore a small shrug jacket of lace lined in pink with a Peter Pan collar trimmed with pearls.

A demi-cloche held her shoulder length veil of illusion and she carried a white Bible mounted with pale pink sweetheart roses and gypsophilia with satin streamers entwined with flowers.

Miss Dorothea Monroe of Washington, D.C., maid of honor, wore a pale blue embroidered eyelet gown in ballerina length. Bridesmaids were Miss Martha Merriman, sister of the bridegroom and Miss Carol Ann Shelby, sister of the bride. Their gowns of pastel blue crystelet were styled identically with the one worn by the honor attendant.

They all wore matching bandeaus with flowers in their hair and carried Colonial nosegays of mixed pink and blue flowers.

Ens. William D. Shardelow, of Birmingham, Mich., served as bestman and wedding guests were seated by Ens. Guy D. Spitler of Bowling Green, O., and Ens. William Harrigan of Cleveland.

The mother of the bride was gowned in white linen with a purple orchid corsage and the mother of the bridegroom chose a frock of white and blue linen with a corsage of lavender orchids.

After the reception held at "Watersedge," the couple left for a wedding trip through the Carolinas. The bride travelled in a blue linen ensemble. Mr. and Mrs. Merriman will later make their home at 503 Lyons Apartments, Athens, Ga.

MR. AND MRS. HOWARD OWEN MERRIMAN

The new Mrs. Merriman was graduated from Woodrow Wilson High School, Washington, D. C., and studied at Miami University. Her husband was graduated from West High School and from Miami University. He is enrolled in the Naval Supply School in Athens, Ga.

Among out-of-town guests at the wedding were Mr. and Mrs. J. P. Merriman, Miss Martha Ellen Merriman, Mrs. Martha A. Merriman, 68 N. Westmoor-av, grandmother of the bridegroom, and Mr. and Mrs. Charles Merriman, 292 S. Roys-av, uncle and aunt of the bridegroom.

Glenwood Chapter, Blue Star Mothers, Plans Meet, Lists Accomplishments

Glenwood Chapter of Blue Star Mothers will meet at Glenwood Church Thursday afternoon and evening to sew for an orphanage in Korea. The group has also adopted one of the orphans.

Since the chapter was instituted in February, members have completed many projects. On Palm Sunday, they entertained 900 men at the Veteran's Hospital in Dayton.

They brought 36 men to Columbus for the opening ball game at Jet Stadium and in June had 36 men as guests for picnic dinner at the Columbus Zoo. There will be another picnic in August.

At the State Convention they gave $500 toward the Memorial Stadium at Chillicothe and the day the stadium was dedicated, the group went in a charatered bus. Hearing of a need for a wheel chair for an invalid daughter of a veteran, they purchased one.

For money making projects they participate in "Daisy Day", collect sales stamps and serve dinners to lodge and church groups.

Mrs. Sara Ely is president.

TAPIOCA MOLDS ARE PRETTY DESSERTS

Every homemaker knows the value of a dish which is made in advance and keeps in the refrigerator until serving time.

These individual molds of Creamy Tapioca Pudding are an example of good planning for dessert time. When ready to serve, just unmold on pretty plates or nappies, and spoon fresh sweetened strawberries over them. A garnish of whipped cream may be added.

Strawberry Tapioca Molds

1 egg white	3 tablespoons quick-cooking tapioca
2 tablespoons sugar	¼ teaspoon salt
1 egg yolk	2 or 3 tablespoons sugar
2 cups milk	½ teaspoon vanilla

Beat egg white until foamy throughout; add 2 tablespoons sugar, 1 tablespoon at a time, and continue beating with rotary egg beater until mixture will stand in soft peaks. Set aside.

Mix egg yolk with about ¼ cup of the milk in saucepan. Add tapioca, salt, 2 or 3 tablespoons sugar, and remaining milk. Place over medium heat. Cook until mixture comes to a boil, stirring constantly — this takes 5 to 8 minutes.

Pour small amount of hot tapioca mixture gradually on beaten egg white, blending well. Then quickly add the remaining mixture, stirring constantly. (The hotter the tapioca and the faster it is blended in, the thicker and fluffier the pudding will be.) Add vanilla. Turn at once into individual molds. Let stand 20 minutes at room temperature. Then chill until firm. Unmold and serve with sweetened sliced strawberries. Makes 6 to 8 servings.

Pat And Putty

Discussing his tennis game with a friend, a stout little dumpling of a man explained it this way: "When my opponent hits the ball to me my brain immediately barks out a command to my body: 'Race up to the net,' it says, 'slam a blistering drive to the far corner of the court, jump back into position to return the next volley.'"

"Then what?" asked his friend.

"Then," sighed the stout little man, "my body says, 'Who—me?'"

Other Changes Seen

In addition to the changed numbers, Columbus subscribers will recognize several distinct changes in the new directory. Each directory listing with a two-letter and five-figure number carries only the first two letters of the exchange name, plus the five figures. In the center of each right hand page is an information box in which is listed the full name of the new exchanges which are identified with only the first two letters in the alphabetical listings.

Listings of subscribers who have the new style numbers are in larger type, along with the listings of other subscribers who have had changes made in their service during this year. This larger sized type is more easily read and in the next issue of the directory all the listings will be printed in the larger type.

The blue page civic section in the center of each book contains interesting and helpful information on Columbus and Franklin County.

Since the present 1954 directory remains in use up to the actual changeover on Sunday, July 10, these old books will not be picked up at the time the new ones are delivered. Gibbs requested all subscribers to throw away or destroy all copies of the old book after the number change is accomplished, so that calls may be dialed correctly.

Next year the remaining Columbus telephone numbers, along with the numbers of the Franklin County exchanges, are due to be changed, completing the three year program that started in July, 1954.

Knotholers Annex Glenwood First Victory

The Glenwood Recreation Center's entry in the intermediate knothole league won a practice game from the St. Aloysius entry 5-4 Wednesday, June 29, at Sunshine Recreation Center. It was a regularly scheduled seven inning affair, but at the end of the seventh, the score was knotted 4-4.

In the top of the eighth, Kreig led off with a walk, Hummel struck out, and Vediecho was safe on an error that scored Kreig, and gave Glenwood the game.

Norm Reisman was the winning pitcher, being relieved by Hummel in the last of the eighth. Although he was tagged for eight hits, he kept them scattered and was never in serious trouble.

The team is coached by Lon Wright, well known amateur baseballer in Columbus.

IT WAS SAID in the long ago that we brought nothing into this world and that we shall take nothing out. That is true for all material goods. It is false in the realm of the spirit. *You and I are writing day by the day the story that must forever be our history.* We are garnering the harvests of the years and storing them in the granaries of heaven. As women and men come to the closing hours of life on the earth, they gather up the "fruit of the spirit." *Love and joy and peace and longsuffering are not material.* They are eternal goods.

HOW RICH ARE WE? When we stand before the heavenly cashier and ask for a statement, what will the little card carry as our record? *Shall we hold in our hands a blank white card, with a dark background?* Will the servant of the Most High say that our account stands at zero? How dreadful, when we discover we have been working and living for naught! But why wait? Most of us can guess what the bank account really is. *Let's face that question now, for tomorrow we must know the final statement.* Shall I make sure of my holdings in the divine treasure house? What is my harvest?

Large Lemons Load Limbs

TROPICAL FRUIT THRIVES ON HILLTOP—Showing one of the unusually large lemons on the family's three-year-old lemon tree is Carl Hackman III, who lives with his grandparents, at 295 S. Eureka-av. Carl Hackman, Sr., is pointing out a green lemon which he hopes will turn out as big as the ripe ones. Numerous blossoms hold the promise of more of the large fruit to come. (Staff Photo)

• • •

If you would drop by 295 S. Eureka-av, Mr. and Mrs. Carl Hackman, Sr., would proudly show you their three-year-old lemon tree which has been producing mammoth fruit for them for two years. The two big lemons shown in the picture weigh one pound each, are four inches in diameter, and five inches from stem to bottom tip.

Last year, the tree, which they have raised since it was about a foot high, produced similarly-sized lemons. They bought it in Tipp City, O. Mrs. Hackman says, "Last year, the juice from one of my lemons, plus the juice from two ordinary store-bought lemons, produced a gallon of lemonade." The tree produced 12 of the cut-sized fruit last summer.

At present there are nine green lemons and about a dozen of the white fragrant blooms on the plant. Mr. Hackman had to brace the branches with wires to keep the fruit from breaking them.

The tree does not seem to have been "babied." It merely sits on the back porch, which is screened in, and gets only the afternoon sun. If the growers raised lemons like this in Florida and California the puny little fruit we are all so familiar would be a thing of the past!

Hall Ridge Club Opens Pool On July 4th

July 4 was doubly celebrated by members of the Hall Ridge Club, as the famous date also marked the opening of the organization's new swimming pool at its grounds, 4822 Hall-rd. "It required a lot of last-minute hard work to have it ready Monday," according to Mrs. L. E. Tracey, director and general manager, "and we not only wish to thank all those who helped in any way, but would like to express our gratitude to the members for the patience they displayed when we found it was impossible to have the pool ready at an earlier date." Artist Paintings On Display At Hilltop Branch

By Mildred Phaler

Sterling Smith, a Reynoldsburg artist, is presenting 12 paintings at the Hilltop Branch Library, 2955 W. Broad-st, during the month of July.

Smith attended Ohio State University and spent several years in New York studying painting. He has previously exhibited his paintings with the Columbus Art League, at the Columbus Jewish Center, the Ohio State Fair, and the Ohio Union. The Columbus Gallery of Fine Arts, in 1953, purchased Smith's oil painting, 'Spring Landscape," to be incorporated into its permanent collection.

Smith originally began his art work while at the university. Since then he has become recognized as one of Columbus' foremost artists. His home is at 635 McNaughten-rd.

Of special interest among adult readers is the new book by Dr. Lance Webb, minister of North Broadway Methodist Church, Columbus. "Conquering the Seven Deadly Sins" is the unusual title of the book. The sins are listed in the contents of the book as Pride, Envy and Jealousy, Anger and Intolerance, Dejection, Avarice, Lust and Gluttony, and Anxiety and Wrong.

A chapter is devoted to each of the sins, with a discussion of the nature, history and particular causes. Dr. Webb shows that both history and psychiatry have proved the truth of Jesus' teachings. Dr. Webb's Sunday morning sermons are broadcast over Radio Station WRFD.

Other new non-fiction available at the Hilltop Branch Library includes "Clever Introductions for Chairmen", by Lawrence Brings; "Somebody Up There Likes Me", by Rocky Graziano; "Headquarters," by Quenton Reynolds; "How I Raised Myself From Failure to Success in Selling," by Frank Bettger; "Teaching Every Child to Read," by Kathleen Hester, and "Contemporary America," by Harvey Wish.

Hear about the tired businessman who, after signing up for another big life insurance policy, turned a weary smile on the insurance agent? Said he, "Young man, you ought to feel very proud of yourself. I've refused to see five other insurance men today."

Is Power Politics At Work?

What will the governor do? This question is strong on the lips of members of the Franklin County Regional Planning Commission following action of the State Legislature who in one fell swoop wiped out the recent authority which granted the commissioners power to enforce the program for the orderly development of the county.

An amendment was made to the law which provides the regional planning commission with the power to demand an orderly growth of subdivisions, utilities, parks and other facilities in the county. The governor can sign it into law or veto the bill.

The amended portion reads:

"Section 713-23. The regional or county planning commission shall make plans and maps of the region or county respectively, showing the commission's recommendation for systems of transportation, highways, parks and recreational facilities, the water supply, sewage disposal, garbage disposal, civic centers and other public improvements which affect the development of the region or county respectively, as a whole or as more than one political unit within the region or county and which do not begin and terminate with the boundaries of any single municipal corporation.

"This section does not confer any power on any planning commission in respect to location, erection, construction, reconstruction, change, alteration, maintenance, removal, use or enlargement of any buildings or structures of any public utilities or railroad, whether publicly or privately owned, or the use of land by any public utility or railroad for the operation of its business."

If the governor approves the amended bill and goes along with the legislature he will be giving privately owned and operated public utilities as well as municipally guardianed utilities the right to destroy many beautiful and highly valued pieces of property and the entire purpose of the planning commission as was exhibited in the recent case of the Ohio Power Company.

Gov. Frank J. Lausche will have many bills facing him for signing before the legislature reconvenes July 13 to act upon his appraisal of the bills presented in recent session.

Only a small majority of the legislators favored the "all-inclusive bill".

When some can push their way to the front and get what they want at the cost of many it is time someone looks into the matter.

We are waiting for the action of the governor on THIS bill!

Then there was the old lady who berated the traffic cop because his car was not marked. "It's unfair," she said.

The commencement oratory is already over yet, somehow, the problems of the universe have not been solved.

Let's Spell Something Constructive

Teen Troubles

By John Douglas, M.D. and Mary Douglas

Question: What is the best way to let a boy know you like him?

Answer: 1. Be friendly (but not gushy) when you meet him.

2. Find out what his interests are and when you're with him—talk about those things . . . (Read up on them, so you can talk intelligently . . .)

3. Give a party and invite him.

It will please him to know you like him. But don't carry it too far.

If he doesn't soon single you out—better be smart and forget him. Remember, boys like to pick their own dates—and they make fun of girls who chase them.

Question: How often should you have dates?

Answer: In schools where such questionnaires have been filled out by the students, the majority of them have voted for week-end dates during the school term.

This wasn't necessarily, what they wanted to do. It was just that they had learned they couldn't keep up their grades any other way. And the girls had discovered they looked prettier and felt better when they got a certain amount of sleep.

The whole thing depends, of course, on (1) how your parents feel about it, (2) how much homework you have and (3) how much sleep you need to look fresh and feel full of pep in the morning.

Incidentally, high school surveys indicate that the ones who are considered most attractive are not always those who date the most. They're the ones who are not only good looking and friendly, but are also considered good students. Nobody admires a dummy—except maybe another dummy.

If you need to study more to keep up your grades—or to make better ones—or if you're always sleepy in the morning—it shouldn't be too difficult to decide what's [illegible]

Last week, we entertained royalty. She is royalty to her grandparents, anyway. While she was here life was one grand whirl of bubble gum, Child's Garden of Verse, Aunt Fran, Howdy Doody, milk shakes, learning to play Chopsticks, letters written on Grandma's typewriter, spending pennies at the drug store and bubble baths. After she left, taking her seven-year-old's laughter and chatter with her, this place was like a ghost town is supposed to be. A seven-year-old's giggle and her wise philosophy are priceless.

Mail—From Portland, Ore.: Do you ever watch the Home Program on television? It was from Portland yesterday and today (June 31) but nobody here thinks they did justice to us. They featured lumber today which is crazy because most of the lumber mills around have gone out of business. Not enough forests around this area any more. One would think we were still in the backwoods or something. They will be in Seattle the rest of the week and probably will show some old fishing boat or something antique. Ain't no justice . . . From Columbus: The older I get the less cluttered I want my life to be, so I'm cleaning out closets — and discarding everything that does clutter my life.

A fine one-night trip is to Springfield, Illinois. You can go through the Lincoln home, see his magnificent tomb, and go to New Salem Village in two days. On your way you can stop at the Ernie Pyle Park near Dana, Indiana, too. If you don't know where to go some weekend, and you have seen all the wonders of Ohio, I heartily recommend Springfield. Another one-night trip is to the beautiful Shenandoah Valley. You can get as far as New Market, Va., by evening, and can see at least half of the Valley. While I'm at it, may as well make another suggestion for one-night, two-day trips—Leamington, Canada.

IT HAPPENED IN FRANKLIN COUNTY

Township Has Birth In 1811

By Gilbert F. Dodds

In the year 1811 Clinton was organized as a township of Franklin County and William McElvain and William Drody were elected justices of the peace.

There was no village in the township at that time but in 1847 Alanson Bull, Esquire, a prosperous farmer on the Columbus and Worthington plank road, sold a few lots on the roadside which were bought and improved by tradesmen.

There was a post office established at the village in October 1847 and James Ferguson appointed postmaster. John J. Cairly was a carriage and wagon maker in the village at that time and J. R. Smith operated a wagon shop.

Nearby stood the residence of David Shrom. Elias W. Pegg owned a farm adjacent to the village. Other farms in the vicinity were owned by Henry Brevoort, Amazon Webster, J. C. Wilson, George Weber, W. H. Innis, T. A. Ingham, E. A. Fuller, P. R. Hunt and others.

There was no plat of the village recorded nor did the owner design it for a regular town, but merely to afford residences for a few mechanics for the benefit of the neighborhood. Many descendants of the pioneers who settled in that part of Clinton township still reside in the Clintonville neighborhood.

YOU'RE AN EXPERT IF YOU CAN TELL 'EM WITHOUT A 'SCORECARD'

An expert at a football game doesn't need a scorecard to identify the players. He can recognize them by certain characteristics and mannerisms. If you are not an expert, you can purchase a scorecard and tell who the athletes are by numbers. However, there are no "scorecards" available when you are in the process of purchasing carpeting. You must depend upon the integrity of the dealer and decide whether his reputation warrants the trust you must place in him.

That we have given true value for every dollar spent with us during the 20 years we have been in the rug and carpeting business exclusively is proved by the many customers who have returned to make additional purchases, or who have recommended us to others.

Whatever your rug problem may be, we invite you to pay us a visit. Be assured we shall advise you honestly.

You Never Saw Them Quieter Than This!

"... And Flopsy, Mopsy and Cottontail got blackberries for dinner," relates Mrs. Walter Martin, 69 N. Harris-av, assistant librarian at the Hilltop Branch of the Columbus Public Library. Giving rapt attention to the old familiar story of Peter Rabbit are children who attended the first session last week of the weekly story hour, which is held Wednesday mornings from 10:30 to 11:30 throughout the summer. Stories will be told each week, and in addition during most of the hours there will be a special guest artist.

Major Upset In 'Y' Old-Timers League

By Harry Grashel

The fireworks arrived a week early in the YMCA Old-Timers Slo-Pitch Softball League as the previously undefeated Westway Post VFW team was upset by a scrappy Westgate EUB "10". Larry Surrell of the mound for Westgate held the VFW sluggers to their lowest run production of the season as his own team exploded for eight runs in the last of the sixth for the winning margin. Reeves, Brooks, Kistner, Miller and Pendleton led the EUB run-makers. For Westway VFW, Bendetti, L. Click and Bill Rivers all fared

In one of the best played games of the season, Grashel's Mobilgas Station climbed into a first place tie with Westway VFW by defeating the Hilltop Kiwanis Club 4 to 3. Liston and Denbow clouted homers and Ernie Mawhirter hit safely three times for the Flying Red Horse team. Chuck Ditrick with a homer and two singles and Al Stephens and Don Best with two hits each led the Kiwanis attack.

Glenwood Methodist dropped Hillcrest Baptist 14 to 5 as Dave Randall had a perfect four for four night at the plate while his teammates, Curt Koons and Eldon Koehler, each had three safeties. Swicegood, Gurina, Whittaker and Miller hit safely twice each for Hillcrest.

West Park Methodist swamped Diamond Milk 24 to 2. The entire West Park squad hit hard and often, especially Sowers, Brownfield, Kuhn and Breckenridge. Judy, Klarman and Baltzer played good ball for Diamond Milk.

Northway Post VFW broke into the win column for the first time with a 31 to 12 pasting of the Hilltop Lions. VFW tallied 13 runs in the first inning to ice the game. J. Hoffman and Monnett swung heavy bats for Northway. Gilger and Ronnie Jones were the leading hitters for the Lions.

Grashel's Mobilgas eased into second place with two wins during the week, beating Hillcrest Baptist 8 to 3 and Northway VFW 12 to 3.

Hillcrest Baptist won over the Hilltop Lions to move out in front of the Lions in the league stand ings.

In a make-up game, the Hilltop Lions won their first game of the season with a 10 to 6 victory over West Park Methodist.

THE TOP PICTURE above shows the exterior of the Reeb home from the front. Siding is redwood, used both vertically and horizontally. Trim is painted turquoise. The large black top area may be used for parking quite a number of cars or for turning area. The middle picture shows a view of the living room taken from the corner window and looking toward the entrance hall and front door. Fireplace is of native Ohio limestone from the Dublin area. Note the planter and the vines trailing from it across the fireplace. In glass-lined shelves at right are ceramic and metal items carrying out the black and white accessory color scheme. In the bottom picture at the left is the back view of the house showing clerestory windows in living room, patio with red and white umbrella and the screened porch opening off the kitchen and living room.

Reeb Home On Dublin Road Reflects Owners' Art Ability

The Walter Reeb home, 4211 Dublin-rd. is an example of the so-called "modern" style, both inside and out, but livability has been the aim, not severe modernity just for its own sake.

The Reebs moved four years ago from the home they had occupied since their marriage, 3283 Wicklow-rd, in the Westgate section of Columbus. Reeb is co-owner with his brother, Edward Reeb, of Reeb's Confectionery, 2909 Sullivant-av.

With three children, Judy, 15, Jeff, 11, and Joan, 4, the Reeb home has to have a high degree of livability! Then too, Reeb, who commutes a long way from his job on the Hilltop to his corner lot and home near Dublin community each day, would want a comfortable place in which to relax.

The exterior is of redwood siding stained with a redwood stain.

The entrance hall has coral wallpaper and a Vermont slate floor. The slates are soft shades of gray and dark blue-green. The same slates run into the living room in a diagonal manner and form the broad hearth of the fireplace. A planter lends a dramatic note to the entrance hall. Dividing the living room from the hall, it is fashioned of the same native Ohio limestone as the fireplace and really is a continuation of the same.

Walls in the living room are very light gray. Draperies at the big corner window are turquoise. The table in the window corner is black and the chairs grouped about it are in black and white loop pile. Carpeting is gray.

Two black canvas butterfly chairs flank a blond table on another side of the room and there is a sofa slip-covered in a patterned cotton in blue-green, gold and black on a white background. A coral chair adds a bright spot of color near the fireplace.

Soft light comes from an eight-pane clerestory window near the ceiling in the south wall of the living room.

On one wall in the living room is a lovely watercolor landscape painting done by Mrs. William Stoner, 3535 Schirtzinger-rd, a friend and neighbor of the Reebs.

Walls in the dining room are painted turquoise. The furniture is white-painted wrought iron. The table top is clear glass and the chair seats are coral. Cafe curtains are white chintz. Recessed in one wall is an electric oven.

In the small but efficiently-planned kitchen the cabinets are of birch, which is the wood used in the woodwork all over the house. There is a counter-top electric range.

The floors of the bedroom and hall area are all covered with gray Jaspe asphalt tile.

The bedroom of daughters Judy and Joan has blue painted walls, dark red quilted chintz bedspreads on bleached maple twin beds and white faille draperies at the wide corner window. A valance covered with plaid wallpaper repeats the plaid of one of the walls.

One of the two baths has yellow walls and yellow asphalt tile floor with dashes of rust. The draw draperies are bamboo match stick design and the clever valance, constructed by Walter Reeb, is of rust-painted cork and is covered with tiny gayly-feathered fish lures. A mobile made by the artistic lady of the house is suspended from the ceiling.

The other bath has coral walls and a recessed bowl in a black linoleum-topped vanity. The shower stall is glassed-in.

The master bedroom has walls painted in two shades of gray. Bedspreads on the twin beds are of quilted gray plastic, with coral dust ruffle. One wall is covered in wall paper with coral background and plants". Draw draperies at the cor patterned with gray "money ner window are white.

This view of the living room shows interesting corner window treatment and unusual ceiling line.

THE DINING ROOM is given a light-hearted, delicate appearance by the use of wrought iron furniture enamelled white, light turquoise walls, and white cafe curtains. STAFF Photos

Church of Christ Knocks Off Avondale EUB

By Bert Kerle

A full schedule was played in the Hilltop YMCA Intermediate Church Softball League last Thursday night. In the upset of the evening the Thomas Avenue Church of Christ knocked off previously undefeated Avondale EUB 9-7.

West Park Methodist romped over the Hillcrest Baptist squad 20-2. In the final game of the evening played on the Westgate diamonds, the Westgate EUB team beat DeMolay 22-9.

The winning pitcher in the big game of the evening was Davis for the Thomas Avenue Church of Christ with the loss going to Potter of the Avondale EUB nine.

Kight received credit for Westgate EUB's victory while Webb was charged with the DeMolay loss. In the last game of the night Breck was credited with the victory for West Park Methodist with the Hillcrest loss going to Kunz.

GM Cops Lead In Junior League

By Bert Kerle

Glenwood Methodist kept their record perfect in the Hilltop YMCA Junior Church League as they defeated Hillcrest Baptist for their third victory of the season. Glenwood had to come from behind as they trailed 8-6 after the first two innings.

In the other game of the evening West Park Methodist won their second game as they dealt the West Junior Hi-Y another defeat 14-9.

Tittle received credit for the victory for Glenwood and Street was charged with the loss.

The winning hurler for the West Park Methodist team was Williams with the loss going to McKlefe for the West Junior Hi-Y outfit.

Glenwood Hitters Take Sunshine

The Sluggers of Glenwood Recreation Center outclasses Sunshine junior girls, 20-1, Friday, July 1, in a practice game at Sunshine Recreation Center.

Donna Berio and Donna Young shared pitching honors for Glenwood, Berio giving up one hit in three innings, and Young allowing no hits in two of the five innings.

Donna Berio also accounted for two of the Sluggers' seven hits, while Pat Policaro, Vicki Quinn, Dee Elliott, Roberta Lowe, and Faye Armour tallied one apiece.

A triple play was made in the second inning when, with runners on second and third, Elliott caught an infield fly, caught the runner off second, and threw to Policaro who put the runner on third out. Both runners left base before the fly was caught.

Two runners were picked off when trying to steal, one when Schiller threw to third, a runner being trapped between second and third, and tagged out. The second pick-off was made when the runner on first tried to steal on an overthrow. However, Faye Armour, backing up the first baseman, threw the ball to second for the out.

Your Youth

By Bob Kerle and Bob Schmidt

Little Nine Baseball once more takes the spotlight. All the teams saw action last week when some very interesting and hard play took place. After last week's play, the Dodgers and Tigers are all tied for the League leadership.

The Tigers defeated the Redlegs 7-4 and the Dodgers beat the Cards by the same score. In the other games, the Yanks beat the Braves 3-1 in a real close game. The Indians outslugged the Cubs 10-8 in the other contest played last week.

The Little Nine All-Stars swung into action last Thursday as they defeated the Ternstedt "B" team 24-1. Mike Cantlon, Don Heame and Jim Thorton combined their efforts to hurl a no-hitter. It is very difficult to pick any real stars because everyone on the squad contributed to the attack and all played like All-Stars.

Last night the All-Stars returned to the Ternstedt diamond to meet the "A" team. Saturday night the squad will travel to Chillicothe to take on a tough opponent. Last year our squad was defeated twice by the Chillicothe team.

This will be your last chance to join the Summer Fun Club and get in all activities. Bob Schmidt will be back Monday at which time the schedeule will get under way.

Friday the Little Bigger Baseball League will start. Cards will be sent to all the fellows who have signed up and practice games will take place Friday afternoon at the Westgate diamonds.

Messy Thief Robbed Theatre

For the fourth time the Rivoli Theatre on the Hilltop has been robbed. Only four weeks ago thieves tried to get in and walk off with the till but were rebuffed by locks and other protective measures.

"In all my 23 years of managing this theatre," said Owner George Pekras, "this is the first time burglars messed up the place so much."

On Thursday, July 7, after midnight, person or persons unknown, as the saying goes, climbed to the top of the roof at the theatre and forced open a skylight and entered the building.

Crowbar in hand and after all they could get, the burglar pried into the manager's office, into his desk, into the file cabinets, literally breaking up everything in his quest for money. None was found there.

Next into the heavily locked bookkeeper's office the thief went. The lock on the door was strong. The door could not be opened so the burglar simply battered it down.

Smashing into the desk, file cabinets and boxes in the bookkeeper's office all the burglar could find was some petty cash amounting to $65.

A Big Boy; And A Little Clothes Chute Create A Fireman's Dilemma

"IT'S LITTLER THAN IT LOOKS"—Stephen Daft, above, pointing to the clothes chute where he was trapped, speaks with authority on the matter. STAFF Photo

Breathes there a child with soul so dead that never to himself hath said, "Hmmm, that clothes chute looks like fun." Stephen Daft, 7, 203 S. Richardson-av, can tell you. "It's better to be out of than in one."

He spent a thoroughly uncomfortable and frightening half-hour last Thursday in the clothes chute at his home. What was worse, all the sympathetic help and combined efforts of his grandmother, Mrs. Margaret Arrowsmith; brother, Tommy; an emergency squad of firemen, the firechief, helpful friends and neighbors couldn't

A bicycle parade will be held Wednesday with prizes to be given to the best decorated vehicles in four groups: Boys, 10 to 14 years of age, boys under 10, and for girls in the same age categories.

Barrels, used as depositories for the coupons, were placed on the sidewalks at strategic points on the Hilltop a week ago. Top award will be $100 in cash, to be given the final evening of the Bean Dinner.

Hilltop Expansion Brings Roads

The westward expansion of the Columbus area in recent years and the consequent phenomenal growth of the Hilltop area with its huge building programs, is still continuing undiminished.

Among the latest subdivisions is the huge Miriam addition, south of Sullivant-av, being developed by the Rosary Development Co., 3099 Sullivant-av. Ranking high among the needs of the many new residents of this area has been a network of really good roads.

Plans are completed and work will be underway soon on the extension of three major roads for easy access into the area, according to Ed Tonti, president of Rosary Development Co.

Tonti also added that the roads would be finished by the end of the summer and that the entire subdivision, including all construction, would be completed by early next spring.

The road-building program includes the extension of Mound-st, west from Salisbury-rd to Brinker-av; Eakin-rd will be completed to Brinker-av and Brinker-av will be continued south, from Sullivant-av to Briggs-rd.

The engineering work on the project has been completed by the Thomas Engineering Co., 3203 W. Broad-st, with the sewer and water lines work to be completed by the Ben Davis Excavating Co., 3099 Sullivant-av and the actual construction by A. W. Burns Co.

Eighteen acres in the area will also be used as the future site of a new Catholic High School. The closest Catholic High School at the present is Holy Family, W. Broad-st at Sandusky-st.

Several members of Columbus Chapter, Order of DeMolay on the Hilltop at Burgess and Broad, are planning to attend the 30th annual Conclave at Cleveland.

The meeting will begin Friday, August 12, and continue through Sunday, Aug. 14. It will be staged at the Hotel Cleveland.

Banquets, stage shows, and tours will highlight the week-end and the grand ball on Saturday night will be the main feature of the meeting.

Don Hooper, who is a P.M.C. of Columbus Chapter and present state junior councillor, will be on the ballot for the state senior councillor.

Governor Vetoes Rural Zoning Law Revision

Monday Governor Frank Lausche vetoed an act to revise the rural zoning laws. He indicated that his objection to the proposed law was that it "completely exempts public utilities and railroads from any regulations promulgated by regional or county planning commissions."

The amendment as stated would upset the decision of the Ohio Supreme Court in favor of the Franklin County Regional Planning Commission, which held the Ohio Power Company couldn't stretch its lines across certain property in northeastern Franklin County because it violated the planning commission program.

It Can Be Done... Plane Lands

Line squalls and congestion at Port Columbus helped the chief pilot for Cornell Dubilier Electronics Corp. of New Jersey decide to land at the Sullivant Avenue Airport on Saturday, July 9.

Charles Woodard, pilot of Testerboro, N.J., landed his DC-3C at Gomer Jones airstrip after finding the airport at Springfield closed. A long line of north-south line squalls made landing difficult at any local airfield and the pilot chose the Sullivant Avenue Airport as the most likely and most judiciously placed airfield, he said.

Woodard was on his way from New York through Harrisburg, Pittsburgh, Columbus to Cincinnati. In a recent issue, the city of Columbus Civil Aeronautics Administration officials pointed out that the Sullivant Avenue Airport did not serve a vital need in the city and therefore did not have to be purchased by the city.

CAA officials indicated that privately-owned airfields can be of public service and serve local aviation needs of the community without being publicly owned.

Jones pointed out once again the vital need for the city owned airstrip in the southwest quarter of the county to handle the aviation needs of the growing metropolis.

Charles Woodward of Testerboro, N.J., flew his DC-3C to Columbus and landed at Gomer Jones airfield on Sullivant-av because of congestion at Port Columbus. He is shown discussing flight plans with Jones. In the background may be seen the large plane and a portion of the Sullivant Avenue Airport. STAFF Photo

Children 'Run' Holton Playground

There are about 200 boys and girls who have registered to date with the supervisors at Holton Park. Many come to the playground to participate in the different activities held daily, while others prefer to have fun on the swings, slides, teeters, and splashing in the wading pool. Every boy and girl living in the vicinity of Holton Park is invited to come to the playground and play safely in whichever type of summer fun he or she enjoys.

Many of the girls and boys serve as playground assistants. This week Larry Frazee, Reid Massey, Kenneth Lucas and Eddie Commeans are taking charge of the wading pool. These boys help with the opening and cleaning of the wading pool and guard the safety of the children who are wading in the pool.

Paul McGonigle and Terry Stover are serving in the bicyle area. These boys see that all bicycles are parked in the proper place and that no bicycles are ridden on the playground. Bicycles are not permitted on any city playground to help protect the safety of the boys and girls who are playing.

To help guard the safety of the boys and girls as they are swinging and using the slides and teeters are Franny Stover, Timmy Murnane, Norman Parish, Mike Stieff and Virgil Emrick. Safety lines are marked around the swings and teeters. All people are requested to walk outside the safety lines while the swings are being used. No one is permitted to stand while using the playground equipment.

On the clean up squad this week are Jackie Berryman and Mary Mobbs. These boys are responsible for keeping the playground clean and free from paper, rubbish and glass.

Roger Leach and Phillip Thompson are in charge of keeping the bulletin board up to date. Milton West is reporter for "The Echo Bulletin" the playground paper published at Glenwood Park with West Side playground news. About 35 boys and girls are participating in the Physical Fitness Program. A certificate is awarded by the Amateur Athletic Union to those who successfully pass a number of physical tests. To date those who have successfully qualified for the

"OUR STRENGTH YOUR PROTECTION"

"I didn't see the child crossing the street." "I didn't see the other car." "I didn't see the stop sign." How many times have we heard this following a tragic accident. "I didn't see." There are many reasons why we do not see—driving too fast, obstructions in the road, blinding lights, and worst of all—below normal vision. Worst of all because in most cases it is avoidable.

Inability to read road signs due to poor vision may account for thousands of accidents at road crossings. When a driver is so handicapped, stopping distances are greatly increased. For example if a car is being driven at 60 miles per hour, a driver with 20/50 vision will be 75 yards past the sign before he is able to stop. Yet this vision is good enough to get a license in many of our states. Add to this the fact that, even if vision is normal, the ability to judge distance, the area of clear vision, or night vision may be inadequate. It is important for the driver to know and correct any problems he may have. Or if correction is impossible to make allowances for safety.

Good vision is a vital factor in making driving safer and to acquire such vision drivers should take advantage of the most advanced methods known to science.

Double Ring Ceremony Unites Jo-Ann Stevens, Mr. Laderer

J. Curtis Allen Photo

MR. AND MRS. WILLIAM FREDERICK LADERER

Hoge Memorial Presbyterian Church was the setting for the wedding ceremony uniting Miss Jo-Ann Stevens and Mr. William Frederick Laderer on Friday, July 1 at 7:30 p. m. The Rev. A. J. Wold officiated at the double-ring service before an altar decorated with bouquets of white gladioli and asters, and candelabra.

The bride is the daughter of Mr. and Mrs. Charles M. Stevens of Belle Center, O., and formerly of 250 S. Westmoor-av and the bridegroom's parents are Mr. and Mrs. Frank E. Laderer of 780 S. Roys-av.

The bridal gown was designed with a fitted lace bodice over satin, long sleeves and a portrait neckline with a stand-up collar. Two layers of tulle over satin with a lace peplum formed the waist-length skirt.

A crown of lace encrusted with seed pearls and sequins held her fingertip length veil of illusion and she carried a large white orchid and satin streamers mounted on a white Bible.

Miss Elizabeth Ann Laderer, sister of the bridegroom, served as maid of honor. Her strapless gown was in pastel blue and featured panels of white lace in the waist-length skirt. A matching net stole covered her shoulders, and she wore a bandeau of tiny blue flowers in her hair and carried a Colonial arrangement of pink baby chrysanthemums.

Mr. William Campbell served as bestman for his cousin and guests were seated by Mr. Louis Proper and Mr. Starling Hanford.

The mother of the bride chose a blue crystallet gown with white accessories and a corsage of pink rosebuds. The bridegroom's mother wore a crystallet frock in pink orchid with matching accessories and a corsage of yellow rosebuds.

Hostesses for the reception held immediately following the ceremony in the church dining rooms were Miss Janet Williams, Miss Shirley Preston and Miss Rita Elliott.

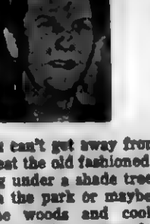
About The Hilltop



You can't get away from beating the heat the old fashioned way, just sitting under a shade tree, picnicking in the park or maybe camping in the woods and cooling your "dogs" off in a near by stream, and letting the rest of the world go by . . . Newlyweds Mr. and Mrs. Charles McMillen (Berneice) of San Francisco are home on a visit with Berneice's Mother and Dad, the Jake Green's. They were wed last November and McMillen is associated with the American Latex Co. of that city . . . After a long stay in Japan, Mrs. Paul J. Primrose (Margaret) is back and residing on the Hilltop. Primrose is an engineer with the American Construction Co. in Japan and will arrive at a later date . . . Recently, the Eddie Scanlons celebrated their 32nd wedding anniversary with a belated honeymoon in St. Petersburg, Fla. . . . Mrs. Sam Sasshall and Mrs. Paul Kautz are new members of the Women's Pharmacy Club.

Happy birthday to Mrs. Ida Skinner. This week she will be 94 years young . . . Sunday, Bob and Frances Dings and their daughter Jill, will return from a vacation stay in St. Pete . . . Sunday a week, Charlie Althen injured his arm at his summer home at Stony Point, Buckeye Lake . . . This past month the Bill Liebenspergers became the proud parents of a baby boy, William Wiley . . . Eddie Ryan, who has been ailing, is slowly getting back in the swing of things again . . . It's true, the popular and well known bachelor, Jerry Walsh, will exchange nuptial vows with Ann Crawford on Dec. 31.

This week, George and Ruth Toomire are entertaining their favorite guest, Ruth's mother, Mrs. C. E. Moreland of Cincinnati . . . Lester "Pappy" Davis of Diamond Milk Co. is recuperating from a broken ankle at St. Anthony's Hospital . . . Former Hilltoppers, the Howard Youngs of New York, and their son are catching up on the news at the home of Howard's mother, Mrs. Freda Young . . . This week the Don Dewhursts will leave for Bainbridge, Md., to visit their son, Carl, who is attending the US Naval Academy in that city. Mary Reinhardt, Carl's best girl, will accompany them on the trip . . . These young social matrons, Mrs. Lawrence Hatfield and Mrs. F. Adrian Downes, are new members of the Junior Division, Symphony Club.

"Anyone can carry his burden, however heavy, until nightfall. Anyone can do his work, however hard, one day. Anyone can live sweetly, patiently, lovingly, purely, till the sun goes down. And this is all that life really means."—Robert Louis Stevenson.

Hope Memorial Presbyterian Church was the setting for the wedding ceremony uniting Miss Jo-Ann Stevens and Mr. William Frederick Laderer on Friday, July 1 at 7:30 p. m. The Rev. A. J. With Peg Warren:
About The Hilltop

You can't get away from beating the heat the old fashioned way, just sitting under a shade tree, picnicking in the woods and cooling your "dogs" off in a near by stream, and letting the rest of the world go by . . . Newlyweds Mr. and Mrs. Charles McMillen (Berneice) of San Francisco are home on a visit with Berneice's Mother and Dad, the Jake Grahn's. They were wed last November and McMillen is associated with the American Latex Co. of that city . . . After a long stay in Japan, Mrs. Paul J. Primrose (Margaret) is back and residing on the Hilltop. Primrose is an engineer with the American Construction Co. in Japan and will arrive at a later date . . . Recently, the Eddie Scanlons celebrated their 32nd wedding anniversary with a belated honeymoon in St. Petersburg, Fla. . . . Mrs. Sam Snashall and Mrs. Paul Kautz are new members of the Women's Pharmacy Club.

Happy birthday to Mrs. Ida Skinner. This week she will be 94 years young . . . Sunday, Bob and Frances Dings and their daughter Jill, will return from a vacation stay in St. Pete . . . Sunday a week, Charlie Althen injured his arm at his summer home at Stony Point, Buckeye Lake . . . This past month the Bill Liebenspergers became the proud parents of a baby boy, William Wiley . . . Eddie Ryan, who has been ailing, is slowly getting back in the swing of things again . . . It's true, the popular and well known bachelor, Jerry Walsh, will exchange nuptial vows with Ann Crawford on Dec. 31.

This week, George and Ruth Teomire are entertaining their favorite guest, Ruth's mother, Mrs. C. E. Moreland of Cincinnati . . . Lester "Pappy" Davis of Diamond Milk Co. is recuperating from a broken ankle at St. Anthony's Hospital . . . Former Hilltoppers, the Howard Youngs of New York, and their son are catching up on the news at the home of Howard's mother, Mrs. Freda Young . . . This week the Don Dewhursts will leave for Bainbridge, Md., to visit their son, Carl, who is attending the US Naval Academy in that city. Mary Reinhardt, Carl's best girl, will accompany them on the trip . . . These young social matrons, Mrs. Lawrence Hatfield and Mrs. F. Adrian Downes, are new members of the Junior Division, Symphony Club.

"Anyone can carry his burden, however heavy, until nightfall. Anyone can do his work, however hard, one day. Anyone can live sweetly, patiently, lovingly, purely, till the sun goes down. And this is all that life really means."—Robert Louis Stevenson.

REMODELING HOME

LET'S EXPLORE OHIO

U. S. Route 21, which starts in Cleveland, passes through Marietta and ends in Savannah, Georgia, is a highway very familiar to Ohio motorists and one of our principal north and south arteries of travel. Its path through this State was just as familiar to the Indians who knew it as the Muskingum-Cuyahoga Trail long before the coming of the white man.

So today, this Route reveals a marked contrast between the old and the new, as the above pictures indicate. Perhaps nothing better typifies the modern age than Cleveland's magnificent Museum of Art that is visited by thousands every year and the Old Stone Fort, circa 1670, just west of Route 21 at Newcomerstown, is claimed to have been one of the chain of forts built by the French in the days of La Salle's explorations in this area, which would make it the oldest structure in these parts.

The organized settlement of the Northwest Territory began at Marietta in 1788, and this earliest permanent settlement in the Ohio Country became Governor St. Clair's capital of the Territory. In that same year, General Rufus Putnam built his home at Marietta. This house is now on exhibit in the modern Campus Martius museum there. The Ohio Land office, built in 1790, still stands as a tourist attraction at Marietta.

The territory around Newcomerstown, New Philadelphia, and Navarre is especially rich in Indian lore for those interested. Here were many Indian towns that were of considerable importance at the time of the white man's coming. Here also was established the only fort manned by American soldiers in the Ohio Country during the Revolutionary War, Fort Laurens.

The Ohio Canal era left its mark on this area, and today the Stark Canal Restoration State Park at Canal Fulton permits the present day generation of Ohio motorists to get some idea of the appearance and operations of the canal, which had so profound an influence in opening up the inland portions of Ohio in the period of 1825-1870.

Route 21 is also a gateway to the Muskingum Conservancy District and its popular recreational and flood control lakes.

CARD OF THANKS

I wish sincerely to thank friends for their kind expression of sympathy and for the beautiful floral offerings in my recent bereavement in losing my dear wife, Alberta Markins.

Harry E. Markins,
Glen H. Markins, son.

HILLTOP BRANCH LIBRARY

'Story Hours' Continue; Many New Books Added To Shelves

"Story Hour" at the Hilltop Branch Library continues to be popular and 150 children heard stories last week, told by Patty Gibson, 239 Brinker-av.

Mrs. Hakola, 136 S. Richardson-av, was to have told the stories, but instead will be present on Wednesday, July 20. Mrs. Cleo Stickel, 656 Chesterhire-rd, will be guest story teller Wednesday, July 13.

A continued demand for inspirational reading is being met at the Hilltop Library by such books as "Happiness Through Creative Living," by Preston Bradley, and "Way to Inner Peace," by Bishop Fulton Sheen.

Dr. Bradley's philosophy for living is indicated in the expressive title of his new book, "Happiness Through Creative Living." It is the purpose of the author to pass on to others an understanding of the deep peace and fulfillment of the philosophy, "Way to Inner Peace." His previous best seller was "Way to Happiness."

Bishop Sheen has a way of pinpointing vital problems, and suggesting logical solutions.

For the garden enthusiast there is a new book, "The Care and Feeding of Garden Plants," published by the American Society for Horticultural Science. Chapters, each written by an authority in his particular field, are: How Plants Grow; If You Want a Good Lawn; Shrubs for the Home Grounds; Trees for the Home Grounds; House Plants to Bring Nature's Beauty Indoors; Fertilizers for Garden Flowers; How About a Vegetable Garden? and Small Fruits collection. "Excelsior," by Paul for the Home Garden.

Three new fiction books of interest are now part of the library Bonner, is an arresting exposition of the historical need for neutrality in world affairs on the part of the Swiss international banker, Robert Egg11.

Present day China is the scene of the novel, "The Rice Sprout Song," by Eileen Chang, and presents an authentic picture of life under the Chinese communists.

Phil Story's latest novel, Blizzard," portrays life on an Iowa farm where plenty of excitement resulted from the storm.

There are also other new titles, such as "Garbo", by John Bainbridge, "Chiang Kai-Shek," by Emily Hahn, and "Around the U. S. A" in 1000 Pictures," edited by A. Milton Runyan.

A Big Boy—

budge him.

Since his right leg was tightly doubled beneath him the firemen in their concern for his safety, decided that before Stevie could come out, the wall must come down. They had put in a call for the fire squad complete with axes and hatchets when a neighbor, Mrs. N. D. Murphy, arrived on the scene, and in the wise and kindly way so many neighbors have, saved the day and the wall.

She poured a can of liquid shortening around him, and with an able assist from the squadmen, Stephen was freed.

As for the why and how he got into the clothes chute, he's not talking He and the understanding firechief had a man-to-man talk on the matter and Steve isn't incriminating himself with any further explanations.

Stephen's opinion of the whole affair is: since small boys don't come equipped with whiskers, like cats do, to measure a hole before crawling in, it's better by far to stay out! Lesson number two: people are wonderful, especially firemen and neighbors and family and friends.

Teen Troubles

By John Douglas, M.D. and Mary Douglas

Question: Exactly what are "reefers"? Are they dangerous?

Answer: "Reefers" are cigarettes made of marihuana. They certainly are dangerous, since smoking them is often the first step toward drug addiction.

Most of the marihuana which is smuggled into the U.S. comes from Mexico. However, it can be grown (illegally, of course) in any state of the union.

People "drunk" on marihuana may have all sorts of delusions and hallucinations. Some become reckless and arrogant. Some commit terrible crimes. Others just act ridiculous and silly.

After a while, the marihuana smoker finds that he is no longer able to get a "kick" from it. Then is when the drug peddler (or a "friend") persuades him to try "something stronger", which is usually heroin or morphine, for a "real thrill" . . . Since these drugs are expensive and obtained only from criminals, he soon begins to steal in order to pay for his "dope". He finds that he can't "just quit." If he is lucky, his parents may be able to get him into one of the two government hospitals equipped to treat drug addiction. However, these two hospitals cannot possibly take all who need to go. Consequently, many addicted teen agers never get in.

At present, we have not nearly enough government agents to deal with the criminals who peddle drugs to our teen agers. These horrible creatures frequently offer "free samples" to boys and girls—to get them started. Other teen agers, not knowing the danger, begin smoking "reefers" or taking "a shot" because they hate to be called "chicken".

All teen agers should be on the lookout for drug peddlers. Marihuana cigarettes usually are home-made looking. They may be wrapped in a brownish looking or a brown and white paper. The odor from them is different, too. They smell somewhat like burning weeds.

If anybody ever offers you a "reefer" or any other kind of drug "thrill", please be keen enough to do three things: (1) Refuse it. No matter what he calls you or how much he insists that it won't hurt you or that "everybody does it"—refuse it. (2) Report it to your parents. (3) See that your parents report it to the police.

John, the last prophet of the Bible, dreamed of a place where there would be no night. There is such a place. We live in an X-ray world. While we may not be conscious of it, a light is forever falling upon us. God's light falls upon this man. *Brother, your could not make it alone! We must have Him.* How foolish of anyone to try to walk in darkness...to walk alone. Why, you can't do it. *Even the way to church is lighted with His presence when you head that way.* God watches over His children, and doesn't that make you glad? Look at the friendly, ever watchful eye of God pictured on our one dollar bill. He is watching over the destinies of our America. He will guide the steps of His children, if they allow Him...will you?

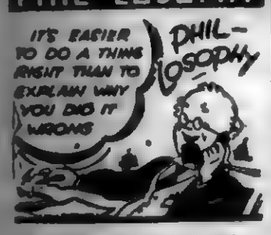
Dog-Toting Tot Falls On Steps



PLAYING THIS SCENE IS NO FUN—Little Jennifer, 2, daughter of Mr. and Mrs. Dean H. Fenner, 476 E. Dorror-rd, didn't want to "pretend" again on the basement steps of her home and pose for the photographer. She fell down six or seven of these same steps as she went down to the basement to play "pretend" with her dog, Betsy, Wednesday, July 7. She hit her head on the concrete basement floor, receiving a cut which required five stitches to close. She also was bruised on the chest, neck, back and legs. Police in a police ambulance, gave her first aid treatment, and she received further attention at a local doctor's office. STAFF Photo

We Don't All Own Swimming Pools Do We?

When a little girl wants to go swimming it is not too difficult for the enterprising parent. Shown here is Mrs. Albert Seiler, 811 Chestershire-rd, helping her daughter, Jeri Lou, 2, get into the swim in their backyard. It just wasn't their day to sprinkle so Mrs. Seiler brought out the "pool" for Jeri. Only a moment after this picture was taken Jeri threw herself down into the "depths" of her "pool" and all of the water splashed right over the edge. All in the day of a mother, Mrs. Seiler had to go in and get water to re-fill the pool. STAFF Photo

Sabers Defeat Eagles In Extra Inning

The Sabers won over the Eagles 18-3 Thursday, July 7, in a little Jet League game at Glenwood Recreation Center. The game was not as lopsided as the score indicates, however.

Both teams scored two runs in the first inning, and one in the second. The score was then deadlocked at three runs apiece at the end of the regulation game. At this point in the game, the Sabers took their turn at bat in the first extra inning. Garey McNeely got a safe hit to first base, and then Bill Karn tripled to send McNeely home. This broke the game wide open as the Sabres went on to score 14 more runs.

The Eagles had the final turn at bat, but it was three up and three down as Bill Karn poured on the speed to fan all three batters.

It was 18 runs on 12 hits for the Sabers, and three runs on four hits for the Eagles. The Sabers committed two errors, while the Eagles bobbled seven times.

The Sabers, behind the two hit pitching of Bill Karn, romped over the Cardinals, 23-2 in a Little Jet League contest July 5.

The Sabres led 2-1 going into the bottom of the third inning. At this point, the victors racked up 15 more runs, which broke the game wide open. Homers by Bill Karn, Bill Diedrich, and John Ilas all helped the Sabers' cause. Karn fanned 15 men in the six-inning game.

The league - leading Cowboys racked up their third victory by trouncing the Yankees 17-0. This game was also played on July 5.

Mike Mental and Mike Briggs formed the battery for the Cowboys, and Robert Sego and Frank Hatfield for the Yankees.

The Indians blanked the Yankees 2-0 in another Little Jet League contest July 8. The win came on the pitching weakness of the Yankees. A total of five men were walked across the plate by Yankee pitchers.

YOUR YOUTH

By Bert Kerbs and Bob Schmidt

This week marks the opening of the Summer Fun Club. The YMCA now has its complete summer schedule under way. Let's get all the boys and girls on the Hilltop to take part in these worthwhile activities.

Despite the rain and bad weather, we managed to complete our full schedule of games in our Little Nine Baseball League. The Dodgers remained the only team with a clean slate as they topped the Braves 8-4. In other games the Cubs knocked off the previously undefeated Tigers 6-4. The Cards beat the Indians 8-2 and Mike Cantion pitched the first shut-out of the season as he hurled a two hitter and blanked the Yanks 8-0.

The Little Nine All-Stars won their second game of the season last Thursday as they dealt the Ternstedt "A" team a 7-1 defeat. Terry Linson and Mike Cantion limited the General Motors representatives to two hits. Cantion led the hitters with a single, triple and a home run. The entire squad turned in great performances and you folks can be really proud of your youth. The scheduled game with Chillicothe was postponed because of rain and will be played Saturday at 8 p.m. at Chillicothe.

The Little Bigger League got under way Friday with all the teams playing a practice game. From the looks of things, we should have a real good league. There is still room for a few more players so hurry over and sign up.

Playground Offers Wide Variety Of Games For All

John Burroughs playground has had a very busy season so far this summer, according to playground officials. In the hot and humid weather in the city recently most of the center's activities have been held inside.

A large craft class every afternoon and games of checkers, bounce ball, ring toss, bean bag and others are available in the shady court.

L. Beachler said the softball team for boys under 15 is not yet completed for the season. Boys may still try out for the team. Some of the regulars out for practice are Tom and Mike Nightwine, Richard DeLong, Rich Nelson, Dave Ellis, John Agriste, Allen Bellah, Jay Smith, Richard Nelson, and others with vacations cutting in on their

ROADS...A Sign Of Progress

It is not exactly the cross-roads of the south of the Hilltop, but it is a sign of real progress in Franklin County . . construction of three major roads east of Demorest-rd and north of Briggs-rd.

After many years of having inadequate cross-roads for residents in the area, Thomas Engineering Company has laid out final plans for the new roads. Those roads to be extended are Mound-st, Eakin-rd and Brinker-av.

Brinker-av will be one of the vital north-south roads for residents of the Rosary and Miriam additions. It will run from Sullivant south to Briggs-rd.

The new Brinker-av extension will offer connecting links for the westward extension of Mound-st and Eakin-rd. Mound-st will be extended from Salisbury-rd to Brinker-av. Eakin-rd will be continued to meet the portion already completed at Brinker-av.

Ed Tonti, president of the Rosary Development Company said this week that the work on roads for the Miriam Addition south of the Hilltop in Franklin County would be completed by the end of summer. In fact, he said, the entire subdivision will be finished by spring!

Several roads which will offer access to Columbus for the new subdivision have long been awaited by residents of the area. The Brinker-Mound-Eakin-rd extensions will give the new additions excellent thoroughfares.

These are good signs of progress and Tonti is to be congratulated for getting them under construction at this early date.

Residents in the area of Mound and Eakin from Salisbury to Brinker have complained bitterly about the lack of thoroughfares to give drivers an outlet from the area. Now their plea is being answered and progress is chalking up another mark in its favor.

Work will begin on the Miriam Addition roads and the continuance of Mound, Eakin and Brinker-rds soon.

Modesty is not generally associated with advertising, regardless of what is being given the publicity.

The One Sure Preventive

Trivia

From THE EDITOR'S DESK

The curiosity of two Hartly Publishing Co. circulation men led to this unusual story last week.

Gerald Willey and Bill Botkin were out checking on the delivery of the papers on Thursday, July 7 at about 4 p. m. Botkin fancies himself a real enthusiast on sport cars and never misses seeing them if they are anywhere around.

Botkin spotted a British racing car with silver and black license tags . . . but there was no indication of which country the car was from.

With the interest of two newshounds, the two men tracked down the car through the bustling evening traffic. Finally they came upon the green Austin-Healey as it was parked in a service station.

As Botkin referred to the incident: "Approaching cautiously from either side with press cards drawn, we got the story from a lady sitting in the sports car. Mr. and Mrs. Edsel Noguira, a coffee broker, and his wife, from Frankfort, Germany, were touring the states in their little car."

According to our reporters, the Noguiras, who both spoke very good English, were on a pleasure trip. They arrived in New York City on the liner United States on July 5. After having toured Austria, Italy, Holland, Germany and France they wanted to see America.

The Noguiras were on their way to Los Angeles where they will remain a month and then travel on to Brazil, thence back home to Germany.

Botkin concluded the episode by saying: "We chatted for a few minutes and then bade farewell. The Healeys' four-banger engine roared into a full-throated whine and the Noguiras were off toward their destination once more."

Shop Talk

We saw a little item in a newspaper the other day which applies fairly well to our paper. Using a few editorial privileges it would read as follows:

Getting out The Hilltop Record is no picnic.

If we print jokes folks say we are lightminded.

If we don't, they say we are too serious.

If we publish original matter they say we lack variety.

If we publish things from other papers then we are too lazy to write our own.

If we don't print contributions then we lack proper appreciation of the other fellow.

If we do, the paper is filled with junk, they say.

Like as not someone will say we copied this from some other paper. You know it . . . WE DID.

Just Talkl

It could have been at the Hilltop Swimming Pool or the Hall Ridge Swimming Pool, I don't recall which, but I overheard a girl say to her friend that she had been "poured into" her swim suit.

I fully agreed with her, but of course I was not in the conversation . . . I felt like adding: "You forgot to say 'when!'"

More to come next week.

I saw a charming house today,
But when I measured it for size
I was about to turn away,
When suddenly another guise
Developed through large panes of glass
The house was full of sun and sky,
A willow tree, the rolling grass . . .
And instantly I knew that I
Would never measure wall to wall,
Or count the two-by-fours—
Because no house can be too small
That holds the entire out-of-doors.

Mail—From San Clemente, Calif.: This town is jam-packed during the summer months since it is a delightful vacation town and the swimming is ideal. It is the third fastest growing town in the country. San Clemente is only 25 years old so the buildings are comparatively new—a great many are the glass-house type with almost all of the walls of glass and there are views of the ocean from most of the windows. Rattlesnakes turn up on the vacant lots and in the deep ravines that seam the area here and there, so it is a town of contrast — ultra-modern and wilderness. You and your Ohio friends should come out here. The welcome mat will be out. PS—We kill the snakes.

Pioneers Build Hotels, Taverns

By Gilbert P. Dodds

Because early Columbus was the capital of Ohio and also a center of trade many travelers came here on business. The great influx resulted in the building of many hotels and taverns for the various classes of visitors. Eventually Columbus boasted several of the best hostelries in the state.

Probably the most noted of these pioneer hotels was the National, which was operated by John Noble. The building stood on the site now occupied by the famous Neil House, today one of the city's most prominent first class hotels.

Other good hotels in Columbus were the Franklin House, kept by J. Robinson and Sons, the Globe Hotel, kept by Robert Russell, the Lion Hotel, managed by Jeremiah Armstrong, the Swan Hotel, operated by Christian Heyl, and the Eagle Hotel, managed by David Brooks.

After the National Road came into Columbus from the east and passed on westward, a number of taverns sprang up along the busy highway in order to accommodate the many travelers. Many came in covered wagons conveying entire pioneer families and their belongings to the new lands. Therefore there were taverns that catered to both the average traveler as well as to the well established tradesman.

The famous Four-Mile House, located four miles west of Columbus, provided ample accommodations for the traveler. A large wagon-house nearby was used for the drivers of big heavy wagons loaded with various supplies and a large yard by the wagonhouse provided a comfortable place for man and animal. Stagecoaches stopped at the Four-Mile House and took on passengers and discharged them. The House was a busy place during the Civil War as Camp Chase was located in close proximity.

Four-Mile House was considered one of the most important taverns in the entire West for almost 100 years. A picture of the tavern appears on page 35 of the Franklin County Historical Society's October Annual for 1953, a sesquicentennial issue. It may be obtained at the society's library headquarters, 96 S. Grant-av.

Former Publisher Of Record Retires From Printing Trade

Mr. and Mrs. Roy Hastings, 150 S. Westmoor-Av.

In the 30 year history of service The Hilltop Record has given to its community, the name of Roy Hastings, publisher of the paper for 10 years, will be well remembered. Hastings will retire from the printing trade at the end of this month after 62 years in newspaper work.

What is the story in which Hastings played so vital a role and later was to sell the paper to C. Carlton Hartley, an employee who envisioned the newspaper as one of the largest weeklies in Columbus?

A $10 Investment

In 1927 S. J. Westlake with an initial capital of $10 published the first edition of The Record. Westlake who will be 80 in August, lives at 342 E. State-st. He recalls the first issue of The Record as a four page, four column, nine inches by 12 inches edition printed on a Chandler and Price press one page at a time. The issue featured news and advertising both on the front page, a practice no longer followed generally anywhere but in Europe.

The first home of The Record was on the fourth floor in the Wesley Block, 101 N. High-st, where seven other printing firms also had their home. Westlake soon moved his shop to 2354½ W. Broad-st. The paper continued to grow in staff and equipment.

Westlake Takes A Partner

Roy D. Hastings, living at 86 S. Ogden-av, became Westlake's partner. Later Hastings bought out Westlake's interest and became sole owner of The Record in 1926. By then the circulation figure had jumped to a paid listing of 2,900 compared to only a few hundred copies distributed to Hilltoppers in its first year of publication.

Almost simultaneous with the purchase of The Record a young college student sought employment at The Record to learn the newspaper business. For $5 a week C. Carlton Hartley started his career in the publishing field. Hastings and Hartley worked together until two years after Hartley graduated from Ohio State University when the journalism graduate purchased a weekly newspaper in Greenfield, Ohio.

Hartley built up the circulation and prestige of the Greenfield Times to such a point that it proved advantageous to go daily with the paper. Hastings and Hartley confered and considered putting The Hilltop Record on a daily circulation basis.

Hastings continued to publish the paper until January, 1936 when he sold his interests in the paper to Hartley.

Finale To Printing

After 62 years, starting when he was only 12 setting type, veteran newspaper man Hastings, 74, has decided to retire.

Born in Ft. Recovery, O., Hastings' first job paid him $1 a week at the age of 12 setting type. His professional career started following his training in an Albion, Mich. print shop where he became a typesetter in 1902.

A wife and varied career carried him to California from 1905 to 1906 when he set column after column of type on the San Francisco earthquake. Later he was employed at a Columbus daily in 1907. Unsatisfied with printing, he tried his hand at the grain elevator business in Indiana before returning to the Hilltop in 1914. For 10 years he owned The Hilltop Record. After selling out in 1936, he returned to work with a Columbus daily as a typesetter.

Retirement for a printer, a man used to mechanical work, Hastings will settle down in his woodwork shop and flower garden at his home at 150 S. Westmoor-av. This fall he and his wife, Gertrude, will take a trip to California.

The Hastings' have two sons and two daughters, married. He is a member of the official board of the Hoge Memorial Presbyterian Church and has served there for 25 years. He is a member of Luther B. Turner Lodge 732, F.&A.M.

Jones Re-Opens Business, Recalls Many Memories

John B. Jones announced the opening of the West Columbus Auto Body shop at 12 S. Hague-av this week. Jones, who has been in business 28 years repairing and refinishing automobiles, recalls the day when working with crumpled cars was not such a simple job.

"I remember when we used to refinish a car with a brush," Jones said. "They looked better than they do now for about six months. It took all of three weeks, though to paint a car."

Recalling some of the many friends who frequented the Hilltop during his days of service, Jones mentioned Charlie Richards, Bob Bailey . . . remember them, he asked.

The days when Westgate was just a cornfield . . . times have changed so greatly Jones said, we did a great deal of remodeling in our business and are now ready for business.

Next year Jones' son, John, will be assisting him in the work. In preparation for the future in the auto industry, Jones pointed out that he is studying about plastic bodies and how to repair them.

Lightning Hits Television Aerial

A bolt of lightning hit the television aerial atop the roof of the Harold Mier home at 204 S. Terrace-av on Saturday morning, July 9, causing no damage.

Three trucks from engine house 17 at Wheatland-av and W. Broad-st answered the call.

Consultation With An MD Inspired Hilltop Kiwanis

THE MAN who had a great deal to do in the forming of the Hilltop Kiwanis Club, Robert Hill, past governor of the Ohio District of Kiwanis and lieutenant governor in 1945 the year the club formed, is shown with Dr. James Miles, first president of the Hilltop Kiwanis Club in 1945, and presently serving on the inter-club relations committee and boys and girls committee of the club. The men are cutting into the birthday cake to celebrate the 10th anniversary of the club. STAFF Photo

"It is an ill wind that blows no good and strangely enough, Bob Hill's sore foot back in 1945 may have been somewhat responsible for the establishment of the Hilltop Kiwanis Club" said Art Walker, master of ceremonies for the 10th birthday party of the Hilltop Kiwanis Club at the Colony Restaurant on July 7.

"Bob took his sore foot to Dr. Jim Miles and in the course of taking treatments, was able to impregnate Jim with some of his enthusiasm for Kiwanis activities and ideals," Walker told the celebrating Kiwanis group.

"After these chance discussions of Kiwanis, much effort was expended in the organization of the new club for there were many obstacles in the way which had to be overcome before a club could be established.

"Finally, on June 12, 1945, an organizational meeting was held in Dr. Miles' office. This meeting was attended by 17 men from the Hilltop and of those 17 there are 15 who are still very active members of the club.

"The two who attended this meeting, who are not members, have since passed away. That, in itself, is a very great tribute to the spirit and desire for community service of the founders of the Hilltop Kiwanis Club," Walker asserted.

At the first meeting, which was attended by Bob Hill and Bill Hall of the Northwest Kiwanis Club, it was decided to hold the first regular meeting of the Hilltop group on Thursday, July 5, 1945 at Schmelzer's restaurant. Dr. James Miles was chosen chairman to officiate until officers could be elected.

During the first regular meeting under the direction of Sam Waldon, member of the Circleville club, who was appointed by Kiwanis International as advisor to the newly created Hilltop Kiwanis Club, the first officers were elected.

Out of the election the four top officers were chosen and a board of directors was installed.

Dr. Miles was elected president, Herbert Deems, vice president, Noble Allen, secretary and Cyril Wilenz, treasurer. The board of directors included Donald Smith, Fred Wardeja, Charles Campbell, Ed Melvin, Jack Miles, Lee Russell, and Clarence Story.

On Sept. 6, 1945, the charter night party was held at the Seneca Hotel with Lt. Gov. Bob Hill, of what was then the 8th Ohio Division of Kiwanis International, presiding.

After eating the luncheon, a birthday cake was cut and served to the members.

I LEAVE EVERYTHING TO MY WIFE!
These seven words have been used by more men than any others in writing a will. When hand written these are sufficient.
A will is a document for the distribution of your estate, large or small according to your wishes.
Many wills setting up trusts require many pages, some going into volumes. New laws make it advantageous tax-wise to provide trusts which only an alert attorney is aware of.
The government is very generous in tax deductions for charity, education and welfare associations. We urge you to give consideration to the merits of the Hilltop YMCA. We do wonders with our limited funds and require newer and larger sources of income for expansion and rehabilitation. We welcome your inquiries.

The Home of the Week

By Elsie Ireland Weaver

HOME FEATURED this week is this gray shingle and stone home of Herbert G. Deems, 26 S. Algonquin-av. The roof is blue-gray; shutters are white. Shown top left is the front of the home, cozy and neat, with a wall-protected front door. At far left is shown a view of the dining room, which has lovely rose-sprinkled wallpaper, rose-colored taffeta draperies and dark mahogany furniture. At the immediate left is the dining area of the kitchen. Note the built-in telephone stand. STAFF Photos

THIS VIEW of the living room, with a glimpse into the center hall, shows that the living room is at the back of the house, for privacy and lack of street noise. Note the double pilasters on mantel and the marble facing and hearth. A picture window is at the opposite end of the room, overlooking the back lawn.

Deems' Well-Planned Westgate Home Suits Their Way Of Living 'Almost Perfectly'

As soon as you enter the Herbert G. Deems' home, 26 S. Algonquin-av in the Westgate section of Columbus, you are impressed by the unusual floor-plan of the story-and-a-half home.

The room arrangement was planned by Mrs. Deems and has had the hearty endorsement of her husband and visitors to the home over since the Deems' moved in about five years ago.

Just Comfortable

Herbert Deems, secretary and director of the Hilltop office, First Federal Savings and Loan Association, 2680 W. Broad-st, claims the home suits the couple's mode of living almost perfectly. With their son married and living out of the state, they find the gray shingle and stone home just the right size and very comfortable.

As you cross the threshold you enter a center hall, a feature rarely found in a house which is essentially a one-floor plan. The walls are covered with a paper having a gray background and roses in shades of pink and rose. The carpeting is blue-green. The woodwork here, and throughout the house, except in the kitchen, is a honey-colored birch.

There are doors opening off this hall into the dining room, living room, master bedroom, and hall leading to both bedrooms and bath.

The living room is at the back of the house, with the picture window opening onto the back lawn. There is a maximum of privacy here, with no noise from the street. The same blue-green carpeting of the center hall extends into both this room and the dining room. The walls have a lovely washable wallpaper in matching blue-green flecked with gold. There are chairs upholstered in gold, and lighter blue-green. The sofa is slip-covered in coral and pillows are covered in blue-green and gold.

A valance over the picture window is covered with the same wallpaper as that on the walls. There are beige draw draperies and side draperies in a floral pattern which picks up the gold, coral and blue-greens of the rest of the room. All windows in the house have aluminum frames and marble sills.

The living room's end tables, coffee table, desk, and television are all done in dark mahogany.

The north side of the living room is dominated by the lovely wood-burning fireplace. The mantle is fashioned of honey-colored birch with double pilasters at each end and marble hearth and facing.

A picture of charm and freshness is the kitchen. The woodwork and cabinets are all white-enamelled and two of the walls are covered with a white-grounded paper with a fruit and butterfly pattern done in dark green, reds and browns. The other two walls and ceiling are painted pale chartreuse. Fruits and butterflies cut from the paper are mounted on the box overhang over the cupboards near the ceiling.

The chartreuse of the walls is repeated in the chair seats of the blond furniture in the dining area of the kitchen. At the windows and door nook are hung part green and white striped draperies.

Oversized Cupboard

An over-sized kitchen cupboard is really a small pantry with shelves for canned goods.

In the dining room the mahogany suite and [illegible] table are set against a background of the same gray rose-strewn paper as in the center hall and the same turquoise carpeting. There is also a blue-green painted wainscoting and chair rail here. Rose taffeta ruffled draperies hang to the floor, adding dignity and warm color. A silver tea set presented by Deems to his wife a few years back adorns the buffet.

When one passes into the master bedroom it becomes evident that this couple is fond of pink. Pink taffeta draperies and bedspreads glow against gray carpeting and pink and gray companion papers on the walls.

Two walls are papered in a gray-background paper with a pale pink fern patterns. And the other two is paper with a pale pink background with the same fern pattern in gray but overprinted with a flower pattern with pink areas and black line designs.

The bath too contains lots of pink. Tile is pink, with an unusual vivid paper above depicting rose-colored horses frolicking across it with light blue garlands floating by mystically. The blue is repeated in the rugs, and the rose in the Fiberglass window curtains and taffeta shower curtains.

In the guest room the furniture is antiqued ivory. The pale yellow wallpaper contains small pink roses and ruffled curtains at the windows are pink marquisette.

A screened porch fits in a corner of the house back of the kitchen and next to the living room, from which it may be entered.

THE WORK AREA of the kitchen fairly sparkles with its white appliances and wealth of white-enameled cupboards.

Add the Colors Slowly When Mixing the Paint

In mixing paint, be sure to add colors sparingly. A little pigment often has a marked effect on even a large can of paint. Experienced painters advise experimenting at first with a little paint in a small can to see what the colors will do. The safest procedure is to add tinting color to a small amount of paint and then transfer this mixture to the large container. This process can be repeated until you obtain the exact hue you desire.

Sink the Potted Plants In Ground For Summer

What to do with house plants poses a problem to many gardeners. Sinking the pots to the rim in the soil in a sheltered and at least partly shaded garden position often solves it. Be sure the earth is well firmed all around the pots to eliminate air pockets. A heavy watering not only will start them off with a good water supply but also will settle the soil around them. Really choice potted plants could perhaps be boarded with your local florist and the expert attention they should receive there might do them a lot of good.

Search Is On In Lincoln Village For Dog Who Bit Girl, Age 2

Little Dare Ann Ryan has been undergoing a painful daily experience, anti-rabies shots, since a dog bit her and disappeared Sunday, July 2, near her home in Lincoln Village.

The tiny two-year-old, who was bitten on the eye, will have to receive a total of 21 daily shots unless the dog can be found and examined for rabies.

Her parents, Mr. and Mrs. John J. Ryan, Jr., 215 Danhurst-rd, are still hoping someone will find the brown and black dog who was seen snapping at other children in the neighborhood shortly before he bit Dare Ann.

The dog was called a wire-haired terrier by Mrs. Ryan when talking to a reporter from the Columbus newspaper who carried a feature story on the tot's misfortune. Mrs. Ryan has since been informed that wire-haired terriers are never brown and black. It is now believed that the dog is a Welsh or Irish terrier, or a young airedale.

The dog is black with brown face and legs, curly-haired, and wears a collar.

If a victim is bitten on the face by a dog who could have rabies, the Sample treatment, an outgrowth of the Pasteur technique, is begun almost immediately. This is because rabies sets in faster when the wound is close to the brain.

The dog must be found, examined and ruled free of rabies before the shots can be discontinued. Rabies in humans is not apparent until obvious symptoms show up and then it is "too late." Rabies in humans is always fatal.

Besides the pain of the increasing number of shots given Dare Ann, and the inconvenience of taking two other children with her to the doctor each day, Mrs. Ryan is worried about the possibility of Dare Ann suffering a reaction to the shots. According to Dr. Ollie Goodley, Health Commissioner, one out of every 600 cases of people who complete the full series of 21 anti-rabies shots contract, these symptoms of two other diseases. Encephalitis, or brain fever, or sleeping sickness in various degrees of severity, may result from the shots.

Dare Ann's eye is healing fine but to save the tot further trouble everyone in Lincoln Village is looking for a certain little dog who has either disappeared from the area or who is being held by its owner. If you see the animal, please contact the Ryans, FR. 8-4024. The owner may be traced through the tag on his collar.

Community Council Will Sponsor Third Dance For Teen-Agers At Westgate Park

Booth of the Hilltop Community Council, the dances are a summer project and are sponsored by the Hilltop Community Council.

Planned as a summer activity for the Senior High age group the admission charge of 50 cents is used to defray expenses and to assist the Hilltop Community Council with a free dance at Halloween Time.

See Another Hilltop Aviation 1st

Sullivant Avenue Airport has been the scene of many "firsts" in aviation in Franklin County and at times in the nation.

This week "John Law" took to the air to protect the county and its people. Sheriff Ralph Paul was given the keys to a plane owned by Lee Bennett of Victor-Lee Motor Sales, 3193 W. Broad-st, a former deputy sheriff, to use in law enforcement work.

Sheriff Paul is the first sheriff out of 88 in the state to use this modern means of protection.

"We'll probably use the plane mostly for traffic surveys and picking up prisoners in distant states or counties," said Sheriff Paul, "but we'll also use it in manhunts or searching for missing persons."

Sheriff Paul has 300 hours in the air as a private pilot and has often used a plane in law enforcement work. He said he had used a plane for searching the banks of a creek where a man was believed drowned and also to pick up prisoners.

With a two-way radio "plane one" may contact unmarked cars of the sheriff's department in conjunction with work of the plane. A test over Sullivant Avenue Airport revealed that messages to police cars could be heard "loud and clear." The plane should prove valuable for general emergencies, Paul said.

The plane is a four-passenger Cessna 170 with a cruising speed of 120 miles per hour. The plane is capable of flying at 80 miles per hour when doing reconnaissance work close to the ground.

Some of the other firsts at Sullivant Avenue Airport were the landing made July 9 by a pilot of a DC-3C from New Jersey when inclement weather forced him to use a port other than Port Columbus. This was the first time an aircraft so large landed at the Gomer Jones Airstrip. In 1928 the first airmail ever to be delivered in Franklin County was left at the Sullivant Avenue Airport. In 1930 the second glider club in the United States was founded at the Sullivant-av strip. It was the first in Ohio.

Jones pointed out that aviation is growing rapidly now. There is no telling what will be the future needs for the Sullivant Avenue Airport. This is just the beginning, he added.

The airstrip is now a controversial question in City Hall since the offer of Jones to sell it to the city for a municipally owned airfield was rejected recently. Jones insisted that if members of the Hilltop Business Association would get behind the project it would be a boon to aviation in Columbus and be a drawing card to fine business and industry in and around the Hilltop.

Highland Paving Bids Contracted

Bids were let this week to the Thompson and Conie Construction Company to repave Highland-av from Springmont to Sullivant-avs for $30,115, according to Robert F. Werner, chief engineer with the department of public works.

Just completed is work on Eakin-rd from Wayne to Harris-av, Werner stated. The new street was contracted and completed by the Concrete Construction Company.

Other streets which had been paved with concrete base and were recently paved with asphalt topping include Vanderburg, Regina and St. Patrick-sts.

Rev. Cunningham Accepts Pulpit Of St. Paul's, Scene Of His Ordination

Rev. Cunningham

The Rev. Fred Paul Cunningham, a newcomer to the Hilltop, has assumed the pulpit of the church where he was ordained 16 years ago, St. Paul's Evangelical Congregational on S. Warren-av.

It is the practice of the Evangelical Congregational faith to ordain new pastors at the church's annual conference, and in 1939 the annual meeting was held in the local church. The late Rev. Frank Brandfelner officiated at the ordination of the Rev. Mr. Cunningham in that year.

Since then he has served as a minister in Chicago for seven years, and before assuming his duties here on July 10, was pastor in Dixon, Ill, for eight years.

Born in Pennsylvania, the Rev. Mr. Cunningham grew up in Youngstown, and studied at the Northern Baptist Theological Seminary in Chicago and at the Practical Bible Training School in Binghamton, N. Y.

The Rev. Paul Dunn, former pastor of St. Paul's, has been elevated to an executive position in the denomination. He is now presiding elder of the Western District of the Western Conference of the Evangelical Congregational faith and is living in Akron.

The Rev. Mr. Cunningham and his wife, Marian, have two children, Fred, Jr., 18, who will enroll in West High School in the fall and 10-year-old Diana Lynne who will attend West Broad Street School. The family is at home in the parsonage at 24 S. Warren-av.

Camp Chase Lawn Fete Saturday

Camp Chase American Legion Post Auxiliary will hold its annual lawn fete at the post home, 3211 W. Broad-st, Saturday, July 23, at 5:30 p. m.

Mrs. Reynold Greene is general chairman. Mrs. William Boothe will be the hostess.

Delegates elected to the department convention to be held in Columbus July 28 through 31 are: Mrs. Boothe, Mrs. Walter Zimmer, Mrs. John Martindale, Mrs. Wilbur Minnameyer, Mrs. Helen Whitlock, and Mrs. Lillian McVay.

Alternates include Mrs. Roger Myers, Mrs. Eugene Brink, Mrs. George Levisay, Mrs. Clark Finneran, Mrs. Charles Weimer, and Mrs. Joseph Thompson.

A Welcome Guest To Our Festival

The Hilltop's festival of fun, the annual bean dinner, has always meant to the "natives" the wonderful community spirit of Hilltoppers. But no one anticipates the event with more pleasure than a man who has never even lived on the Hilltop.

E. R. Jewett, 76, a retired farmer who lives in Delaware, has for many years, joined his daughter, Miss Mahala Jewett, 2377 W. Broad-st, at each bean dinner time.

5 More Enter Queen Contest

Marlene England

Dorothy Snow

Five more Hilltop girls, bringing the total to 20, were entered this week as contestants for the title of Bean Dinner Queen. They were:

Marlene England, 17, 335 Leicht-worth-av, a 1955 graduate of West High School.

Dorothy Snow, 16, 97 S. Hamilton-av, a junior at West High School.

Patty Shay, 16, 290 N. Hague-av, a West High School student, sponsored by Darden Memorial Co.

Kathleen Crider, 18, 323 Belvidere-av, a senior at West High School.

Barbara Timmins, 16, 690 Racine-av, a senior at St. Mary of the Springs.

Photos of Miss Shay, Miss Crider and Miss Timmins appear on page 14 of this issue, as well as those whose pictures had been previously published.

HBA Event To Be Held At Westgate Park July 26-27

The Hilltop's greatest community event — the annual Bean Dinner — will be held Tuesday and Wednesday of next week, July 26 and 27, at Westgate Park, with an expected attendance of some 50,000 persons.

Beginning with a doll buggy parade for youngsters at 1:30 p.m. Tuesday, the affair will carry on with features, games and contests slanted to interest persons of every age group, concluding with the final performance of the Hillbilly Frolics, scheduled for 10 p.m. the final day.

Plenty of Free Beans

Beans, crackers and coffee will be served free both days, between 5 and 7 p.m. Plagued in past years by a shortage of beans when the number of visitors exceeded expectations, the Bean Dinner Committee of the Hilltop Business Association, sponsoring organization, has ordered two tons of Great Northerns prepared for this year's event, according to C. E. "Chubby" Pendleton, chairman.

"This is far more than we've ever ordered before," he said, "and we feel sure that we'll be able to satisfy everyone's appetite."

One of the outstanding events of the two-day "stand" is the selection of a Bean Dinner Queen to reign over the festivities. Approximately 20 candidates will be in competition and judges will select the winner on the basis of charm, poise and neatness. All will be attired in street dresses. Bert Stille, local radio personality, will emcee the contest.

Dancers and present the winner with a loving cup at 8 p.m. Tuesday.

Hilligans to Be On Hand

Bob Napier and The Hilligans of radio station WRFD will present a musical program and the Hillbilly Frolics at 5:30, 7 and 10 both nights, and the Hilltop "Y" Indian Guides dancers will perform at 7:45 p.m. Wednesday.

On the midway, the Nolan Amusement Co. will have a ferris wheel, flying saucer, merry-go-round, "octopus," roller coaster and tilt-a-whirl in operation for youngsters and "young oldsters," as well as pony and jeep rides for the kiddies.

In addition to the doll buggy parade, many other features are planned for boys and girls, including a bicycle parade at 1:30 p.m. Wednesday and games and contests both days at 2 p.m.

On the athletic bill of fare will be boxing and wrestling matches, softball games and a tug-o-war.

Five games are scheduled in the Slo-Pitch League on the park diamonds, beginning at 6 p.m. Tuesday, and boxing bouts, with the Hilltop Athletic Club providing the contestants, will be staged at 7:30 p.m. Downtown Y.M.C.A. wrestlers will present an exhibition, beginning at 8:30 p.m.

A darning contest for young and old, male or female, will be held at 4 p.m. Wednesday, and at 5 p.m. the Little Leaguers will take over the softball diamonds for their regular schedule of games.

"Drink" to Cool Losers

Annually a source of much merriment, a tug-o-war between two 10-man teams representing the Hilltop Kiwanis Club and the Hilltop Lions Club will be held at 6:30 p.m. Wednesday. The losing squad customarily receives a dunking in the park lake as their "reward."

Numerous Hilltop business concerns will show their wares in the mammoth exhibit tent. Exhibitors include West Side Motors, Arco Electric, Rains Carpet Co., Value House, City Furniture, Westgate Electric, Hilltop Jewelers, West Hill Furniture, Mayer's Appliances, Westgate Plumbing, Hilltop Motors and Hilltop Record.

A highlight of the two-day affair will be the awarding of $500 in cash to visitors, beginning at 9 p.m. Wednesday at the bandstand. Top prize is $100; two will be for $50, six for $25, 10 for $10 and 10 for $5.

Members of the Hilltop Business Association have been distributing Bean Dinner coupons for the past several weeks and the winners will be selected from among those who have filled them out, deposited them in barrels provided for the purpose, and who are present Wednesday evening when the awards are made.

Visitors will also have access to the Tuberculosis Society mobile unit, which will be on the grounds both days. There will be no charge for X-rays.

All that's necessary to make this year's Bean Dinner the best ever, according to the workers, is the cooperation of the weather man—hot or cool, but by all means, let it be dry!

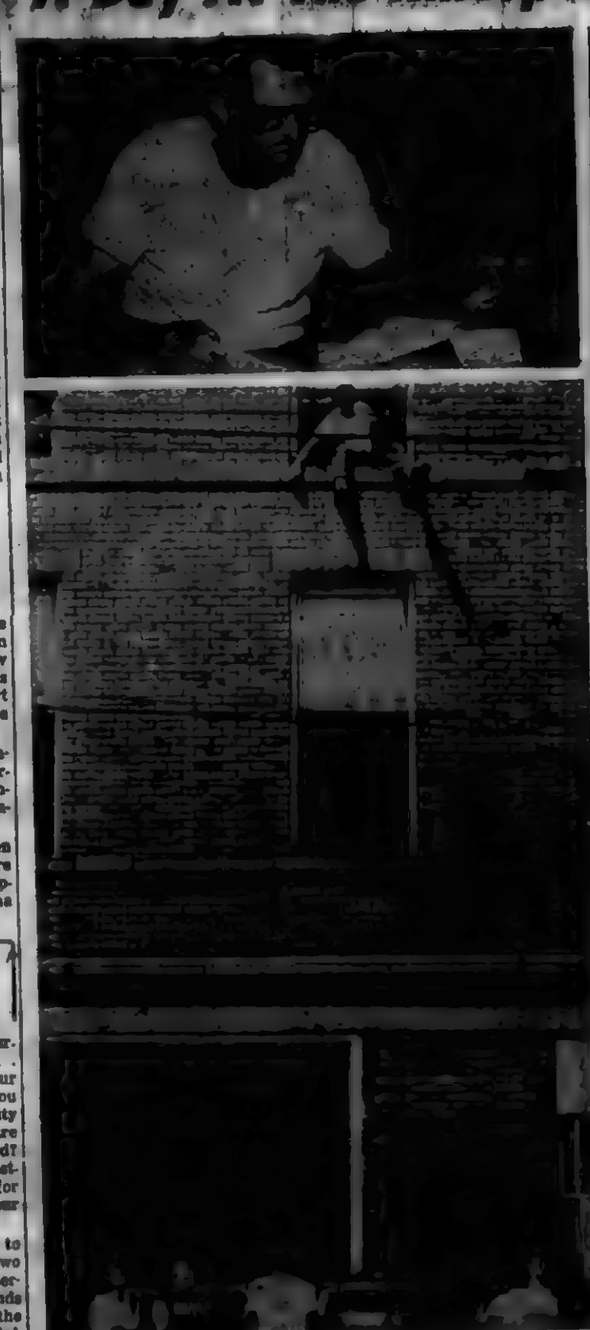
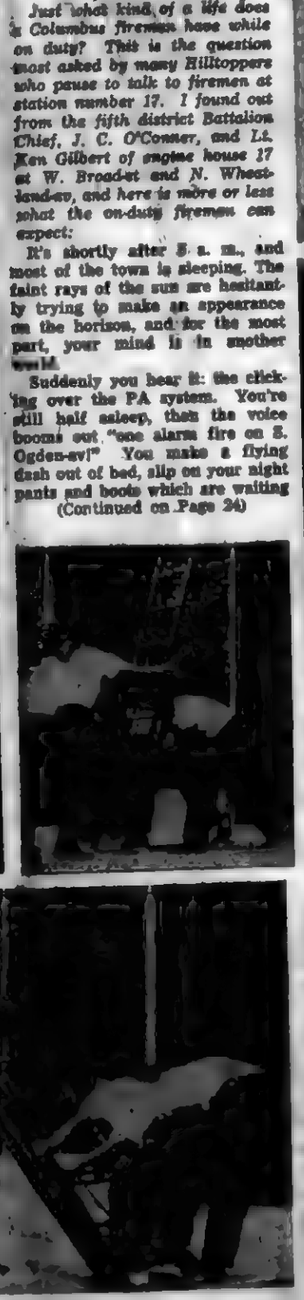
A Day At The Hilltop Fire House Proves To Be An Exciting Adventure



By Bill Botkin

Just what kind of a life does a Columbus fireman have while on duty? This is the question most asked by many Hilltoppers who pause to talk to firemen at station number 17. I found out from the fifth district Battalion Chief, J. C. O'Conner, and Lt. Ken Gilbert of engine house 17 at W. Broad-st and N. Wheatland-av, and here is more or less what the on-duty firemen can expect:



It's shortly after 5 a. m., and most of the town is sleeping. The faint rays of the sun are hesitantly trying to make an appearance on the horizon, and for the most part, your mind is in another world.

Suddenly you hear it: the clicking over the PA system. You're still half asleep, then the voice booms out "one alarm fire on S. Ogden-av!" You make a flying dash out of bed, slip on your night pants and boots which are waiting

(Continued on Page 24)

Hitting the hooks is a usual duty of Lt. Ken Gilbert, 447 S. Harris-av. Preparing to hit the life net is Bob Grashel, 347 Yearsley-in, with Lt. Gilbert, Gene Scelfo, 711 S. Highland-av; C. W. Liston, 46 Clarendon-av; Don Eckstein, 220 Guernsey-av; Gordon Baker, 171 N. Warren-av; and Dick Hart, 46 Midland-av, holding the net. The life net is used only as the last means of saving persons

SPEED is one of the prime essentials in putting up a ladder to save men and women in distress in a burning building. To get out the fire the ladder must be raised rapidly . . . no time can be lost. Shown in the numbered pictures above is the progress of raising the ladder. Shown, left to right, are Firemen Gene Scelfori, Bob Grashel, Dick Hart and Lt. Ken Gilbert. Last up is the man.

Knowing the pressure of the nozzle is important to insure adequate spray and spread of water upon a fire, Lt. Ken Gilbert is shown above working out a geometric formula on pressures. A fireman's bed is a scene of alertness even in sleep. The boots with his trousers are ready for a night call. In the lower picture Gene Scelfori demonstrates how the pole is used in the fire house.

Village Festival To Be Held On July 22, 23

Every year for at least 30 years the village of San Margherita, on Trabue-rd, has held a St. Margaret and St. Ann Festival for the benefit of St. Margaret of Cortona Church. This year is no exception.

On July 22 and 23 there won't be a dull minute in the town after this year's celebration gets under way. At 1:30 p. m. on Friday, July 22, activities will start, and there'll be no let-up until midnight. On Saturday, a ham and wiener dinner starting at 5 p. m. initiates an evening of fun which will last until midnight.

There will be fireworks both nights. For the children there will be pony rides, an electric train, fish pond and other entertainment.

There will be a fish fry on Friday night, a band concert by the Columbus Municipal Band, under the direction of Joseph Masdea, and other attractions for the grown-ups. A prize of $500 will be awarded some lucky person, and many other minor prizes will be given.

On Sunday there will be a Solemn Mass at 10:30 a. m. conducted by the new pastor, Father Ambrose Metzger, in commemoration of the feasts.

Following the mass there will be a two-hour procession on Trabue-rd with the statues of St. Margaret and St. Ann. The procession will start at the church, proceed to Hague-av, return to McKinley-av, and end at the church.

Trabue-rd To Be Closed

From 11:30 a. m. to 1:30 p. m. during the procession, Trabue-rd will be closed to traffic. Cars will have to detour around San Margherita by going on Fisher-rd from Hague-av or McKinley-av.

All-Stars Take First Set-Back At Chillicothe

The Hilltop YMCA Little Nines All-Star team suffered its first defeat of the season as it traveled to Chillicothe and was handed a 4-3 setback.

The Chillicothe nine scored three unearned runs in the first inning as the Hilltop team was handicapped by some shaky fielding. The scoring remained at 3-0 until the third inning when the local squad scored twice on singles by Saint, Wesley, Linzee, Bess and Hartranft. The score stood at 3-2 until the fifth inning when Hooper hit a home run for the winners.

The Hilltop team threatened to break the game open in the top of the seventh. Two walks, a single by Grabel and an error, produced one run before the last batter was called out on strikes with the bases loaded.

Terry Linzee started on the hill for the "Y" team and was the victim of three unearned runs. He pitched the first four innings and gave up only two hits as he struck out eight. Mike Casilen pitched the last two innings and was touched for two hits, one being Hooper's home run.

The "Y" team played terrific ball after the first inning and can well be proud of its performance. Chillicothe defeated our squad 19-0 last year, but didn't find the Hilltop any soft touch this year. A return game has been scheduled in Columbus for July 29.

Saturday at 2:30 p.m. the Hilltop All-Stars will play host to a squad of All-Stars from Uniontown, O.

Glenwood Girls Edge Lincoln

Glenwood edged Lincoln 22-21 in a south-west intermediate girls softball league game Tuesday, July 12, at Glenwood Recreation Center.

Lincoln loaded the bases in the first inning on a walk and two errors. The next batter, filed out to the shortstop and the runner on second was caught off base. The next batter filed out to the pitcher, retiring the side. Seven Glenwood runners crossed the plate in their half of the first.

After scoring three to Glenwood's four in the second, a Lincoln rally chalked up 14 runs in the third, while Glenwood could tally only four, giving Lincoln a 17-15 margin.

The lead changed hands again in the fourth when Lincoln failed to score and three came in for Glenwood, making the score 18-17.

In the bottom of the fifth, after Lincoln scored two, Glenwood loaded the bases, but could score only one before the side was retired.

In the sixth, and final inning, Glenwood tallied three to Lincoln's two, winning 22-21.

Sunshine forfeited to Glenwood Monday, July 11. This gives Glenwood a 2-0 lead in the three-team league. Lincoln and Sunshine each hold 0-1 records.

Glenwood will play Lincoln Thursday, July 21, beginning the second round of play.

You Are Not Alone, Poor Readers Find

Do you find yourself not being able to read all the newspapers, magazines, letters pamphlets, that you come in contact with every day? Many Columbus business men and teachers had this problem until they attended a special school in reading.

The first group, completing the course in the spring, increased its average reading speed by 122.5 per cent. Over 30 were enrolled in the first group.

Forty-five, including 18 Columbus area school teachers, were accepted for the second group.

Paul R. Langdon, of [illegible] Nashe-av, president of the Columbus Chapter of the National Office Management Association, reported that one group — just completing the special reading course — increased its average speed by 13% percent.

The group meets at Battelle Memorial Institute where Langdon is the controller. Every "student" meets one night a week for 16 weeks because the course is based on Harvard University reading films and selected readings.

Fred Kohl, training manager of the Farm Bureau Insurance Companies, uses the same basic materials to train employees. He was an instructor for the seminars sponsored by NOMA.

Plans are being made now to give the course again, starting in September.

Mike Mental Pitches No-Hitter For Cowboys

Mike Mental, showing some fine pitching form, tossed a no-hitter for the Cowboys as they blanked the Indians 18-0 in a Little Jet League contest at Glenwood Recreation Center, July 12.

Mental faced only three men in each inning, except for the last, as he fanned 13 batters. He gave up only one walk, which came in the final inning. The game was fairly even until the third inning. The Cowboys entered the bottom of the third leading 4-0. Here they turned on the heat to score 18 more runs. Homers by Terry Briggs and Mike Mental each drove in two runs.

Pat Purcell and Charles Worthen formed the battery for the Indians. For the winners it was 13 runs on 13 hits with no errors. The Indians had no runs, no hits, and four errors.

The Eagles downed the Cardinals 13-4 in another contest on July 13. Shelly Smith scattered eight hits for the Eagles' second victory in four starts. This put them into a tie for third place in the league with the Indians.

The pitching of Cardinals was the biggest reason for the loss. Jim Jordan gave up seven runs Tom Pennell, four, and Nick Miller, two. Nick Miller was the big gun for the Cards as he blasted three hits for four times at bat. He was walked his last time up. Shelly Smith and Gary Smith collected three hits apiece for the Eagles. For the Eagles, it was 13 runs, 13 hits, one error; for the Cards, four runs, eight hits, four errors.

The Cowboys and Sabers opened the second round of Little Jet League play at Glenwood July 14 as the Cowboys took a 5-3 decision.

The teams went scoreless in the third inning, and then Terry Briggs of the Cowboys [illegible] deep in center field to give the Cowboys a 1-0 lead. Mike Mental then singled, stole second and third, and was driven in on a single by his brother, Pat Mental.

In the bottom of the second inning Dave Dildine singled, Bill Karn doubled, and both players were driven in on a triple by Steve Galentine.

Both teams went scoreless until the top of the sixth when the Cowboys broke loose for three more runs to make the score 6-2. In the Sabers' half of the inning, Bill Karn homered with no [illegible] to make the score 6-3. The side was retired to leave the Cowboys ahead. It was five runs on six hits with one error for the Cowboys, and three runs, three hits, and four errors for the Sabers.

The Cardinals bested the Indians 9-8 in a muddy contest July 15. The game had to be called after four innings because of rain. In Little Jet League play, however, four innings constitutes a full game in case of rain or darkness.

The Indians took an early 2-0 lead in the first inning, and then the Cardinals came back in their half of the inning to knot the score at two all. Neither team scored in the second inning. In the top of the third, the Indians blasted across two more runs in their half of the inning to make the score 8-2.

The Cardinals then pushed across two more runs in their half of the inning to make the score 8-4. Nick Miller fanned three Indian batters in the top of the fourth. The Cardinals then knotted the score at eight all when Bill Maxwell stepped up to smack a homer deep in right field to give the Cardinals the game.

The Cardinals had nine runs on six hits and committed two errors. The Indians had eight runs on seven hits with one error.

Little Dodgers Remain Only Undefeated Hilltop Y Team

The Little Dodgers remained the only undefeated team in the Hilltop YMCA Little Mites Baseball League.

League leaders scored six runs on four hits in the first inning to conclude their scoring for the day. Bob Timmons started for the losers and was replaced by Mike Cantion in the second. Cantion held the Dodgers hitless for the last five innings. The Redlegs scored a single run in the first inning and three in the fourth. The final score was Dodgers 6 and Redlegs 4. Glen Rohrer went the distance for the win and Timmons was tabbed with the defeat.

The Little Cards took over undisputed second place as they beat the Little Braves 5-2. The score was 2-1 in favor of the Cards in the fifth inning, then the Cards cut loose for three runs in the sixth inning to sew up the game. Don Henne went the route for the winners. Ray Barnes was the losing hurler. Barnes scored both of the Braves' runs on a walk and a single, the only hit off Henne.

In the most exciting game thus far the Yanks edged the Cubs 2-1 in the only extra inning game of the season. The Cubs scored a run in the first inning which looked very big as Bob Saint held the Yanks hitless for the first five innings. The Yanks pushed across the tying run in the last half of the sixth inning after two were out on a single by Bob Ross, the winning pitcher. The Yanks scored the winning run in the last of the eighth on singles by Kagey and Waidelich.

In the other game played last week the Little Indians handed the Little Tigers their second straight loss by a 3-0 score. The Indians scored the only run they needed in the third inning. Levering, pitcher for the victors, struck out 16 of the 18 men he faced in gaining the victory. Hill was the losing pitcher for the Tigers.

MR. AND MRS. NEIL I. SEVERNS, 1717 Walsh-av, announce the engagement and approaching marriage of their daughter, Sue Ann, to Mr. Robert W. Southworth, son of Mr. and Mrs. William K. Southworth, 1587 Sullivant-av. Miss Severns was graduated from West High School and is now employed at the Ohio Bell Telephone Co. Mr. Southworth is also a graduate of West High School, attended Ohio State University and is associated with his father in business at Southworth's Poultry, 1510 Sullivant-av. The wedding will be an event of Sunday, Sept. 18, at 4 p. m. in Hilltonia Evangelical United Brethren Church.

From The

Top O' The Hill

By Betty Deft

Anytime, anywhere there is fun and excitement, trust a Hilltopper to be on hand! Did anyone recognize Elwood Davis, son of Mr. and Mrs. N. E. Davis of 206 N. Burgess-av, playing in the Marine Band during the opening of Walt Disney's Disneyland last Sunday? He is stationed in San Diego, Cal.

Rev. and Mrs. Anthony (of Warren Avenue Church of the Nazarene) with daughters, Marilyn and Pauline, will leave Aug. 2 for three weeks in Rev. Anthony's homeland, Nova Scotia.

Our own Esther Weakley who writes "In Passing," is also on vacation. Her note reads, "Heading for Bangor, Me., if we don't get lost in the Catskills or some place." . . . Mrs. Gertrude Hall, 1632 W. Mound-st, flew to Chattanooga, Tenn., yesterday to attend the three-day national convention of the National Secretaries' Association.

Seven paralyzed people would be made very happy by the gift of a parakeet. Margaret Lusk, 49 S. Terrace-av, Br. 4-2618, tells us that birds have been donated but that cages are harder to come by. Anyone, who would care to contribute a cage may call her for pick-up service.

Evelyn Cave of 2700 W. Broad-st has joined the staff of the Jo Lane Beauty Salon, 2457 Sullivant-av; her specialty is tinting and dyeing . . . Mr. and Mrs. Richard B. Kreemer (Martha Lou Mason), 1701 Eastbrook-dr, S, are parents of their second son, Michael Lee, born July 13 in Grant Hospital.

"And the big ones DIDN'T get away," is the report of Mr. and Mrs. Don Stout, 913 Wiltshire, and Mr. and Mrs. Don Novak, 904 Wiltshire. The foursome have just returned from a ten-day fishing trip in Canada.

Carl J. Schumann, Jr., 115 Demorest-av, entered Mt. Carmel Hospital on Saturday. Now visiting the Carl Schumanns is their daughter, Mrs. Hubert (Wilma) Wright of Erie, Mich. . . . Mr. and Mrs. Matthew M. Brenner and family, 821 S. Hague-av, will be moving to Hillards soon.

Returning vacationers, Mr. and Mrs. Robert Herbster, 144 N. Chase-av, with children, Barbara, Tom and Carol, spent one week in Torch Lake, Mich., and another week at Lake Penage, Estonia, Ontario. Twelve-year-old Tom caught a two-foot pike and his father's largest was three-foot long.

More successful fishermen: Lena Carroll, 73 S. Terrace-av spent a week at Bass Lake, Mich., with Mrs. Katherine Johnson and son, Robert of Union-av. . . . Mr. and Mrs. William Cantrell and son, Lloyd, of 3582 Trabue-rd, and Mr. and Mrs. H. D. Johnson and family, 4601 Dublin-rd, returned Friday after a week at Spurgeon Lake, Lindsay, Ontario, Canada.

Leaving Friday for an extended motor trip through the south are five Hilltop friends, Ann Manus, 659 S. Hague-av; Ada George, 99 Whitethorne-av; Phyllis Tayler, 1858 W. Mound-st; Anna Mary Hysell, 784 S. Harris-av, and Sharon Knight, 46 N. Oakley-av.

For those who scoff at religion, the Rev. Marcus L. Gravdal of Eau Claire, Wis., president of the International Young People's Luther League, has suggested this new version of the 23rd Psalm:

"Science is my shepherd, I shall not want; it makes me to lie down on foam rubber mattresses; it leads me on four-lane highways; it leadeth me into the psychiatrist's office for my ego's sake; Yea though I walk through the valley of the hydrogen bomb, I will not fear it, the jets and atomic bombs they comfort me. Thou preparest a table before me in the presence of the world's billion hungry people; thou anointest my head with home permanents; my alcoholic cup runneth over. Surely pensions and social security shall follow me all the days of my life and I shall dwell in the old folks' home—forever."

With Peg Warren:

. . . About The Hilltop

The eyes and ears of the world are on the Geneva conference; its unity and decisions will mold the pattern of peace and of man's future . . . Late Sunday evening, teenagers Frank and Eddie Wolf rounded up a prowler in our neighborhood and had him intact when the cruiser arrived . . . The Earl Brownlees have arrived home from a stay in Florida . . . The Dwight Beers are vacationing in Virginia, home of Mrs. Beer's parents. Beer is associated with White Castle . . . Mrs. Allyn Laird, Westgate teacher, is recuperating from a fall at her home . . . Get well wishes to Carl Umbacher, patient and longtime engineer at Mt. Carmel . . . The Johnny Steeles postcard us while on vacation in Virginia . . . Former Hilltoppers Peg Ford and family of Florida are guests of the Jack Zieglers.

Recently the Charles Minnehans became the proud parents of a baby boy (Mark Duane). Mrs. Minnehan is the former Dianne Populin, '54 West High grad and daughter of Mr. and Mrs. Bill Populin . . . Mrs. Irwin Briggs, who belies her 31 years, is recuperating from a major operation at Mt. Carmel. Mrs. Briggs is the mother of George and Mrs. Billie Moore of Cleveland . . . The W. R. Middendorfs and their 10-year-old daughter, formerly of the Hilltop, are new residents of the Brookshire Addition. Middendorf is the water safety director of the Red Cross.

Recently Robert Smith was promoted to corporal at Fort Hood, Tex., where he is a member of Co. D, 4th Tank Battalion, 1st Armored Division . . . P. Seidel, West High grad, has been awarded a four-year competitive scholarship at the Massachusetts Institute of Technology . . . Arthur Lamunch, Jr., is the newly appointed distributor for "Wonder Chair" in Franklin County . . . Doc Brady is back in the swing again at his office and has joined the six foursome playing his usual game of golf on Wednesday afternoon at Beacon Light.

BEANS THAT IS!

From Hainault Forest To The Hilltop With Phaseoluis Valgaris, Etc., Etc.

Bean dinners are one of the oldest traditions of the modern world. The man who popularized them and, incidentally, is credited with the invention of baked beans as we know them today, was an eccentric Englishman, Daniel Day Good, familiarly known as Good Day.

He was a maker of pumps and blocks at a place called Wapping Old Stairs. On the first Friday of July he used to gather his friends in Hainault forest and regale them on baked beans.

Long after his death in the early 17th century, the day was celebrated as "Mr. Good's Bean Feast." However, at later bean feasts, only one bean was served. This was hidden in a piece of cake. The one getting it was made king of the feast.

Beans themselves have been cultivated by man since before recorded history. The ancient Greeks thought beans begat insomnia and nightmares and even [redacted] ghosts to flee shuddering.

Pythagoras believed that certain souls became beans after death; Hippocrates thought they injured the sight; and Cicero claimed they corrupted the blood.

Early Beans 12 A. D.

Research shows that beans were cultivated in the western hemisphere long before the voyages of Columbus. Fifty pieces of beans have been found in Peruvian sepulchres dating back to the 12th century.

In the United States, Michigan produces 90 per cent of the beans. Bostonians are reputed to be the largest consumers. At 10 inches per bean pot, the average Bostonian eats more than two and one-half times his height in beans each year.

The French beans may not be better than the Boston baked type, but the French do have a greater variety of ways of preparing them.

One Alsatian recipe calls for a dismembered goose, a calf's foot and a half-pound of veal knuckles among other things.

The average American consumes nine pounds of beans per year. The average Hilltopper should get most of his share at the Hilltop Bean Dinner July 26-27.

Westgate Lantern Parade Planned

The arts and crafts classes at Westgate Playground have been making lanyards and bracelets this past week, but have been concentrating mostly on lanterns. The children have chosen "School Days" as their theme.

Leading the parade will be the 'Little Red School House' lantern, followed by an 'Arithmetic Book.'

Hats have been made out of newspaper and made into dunce caps. The children are looking forward to being host and hostesses to the other playgrounds.

The sectional lantern parade will be held at Westgate Park on Wednesday, July 20. Children will assemble at the playground at 7:30 p. m. and the parade will begin at 8 p. m. One person from every playground advisory board will serve as judge. The children will parade around the lake.

Camp Chase Plays Today

Camp Chase, American division champion of the Central Ohio Babe Ruth League, will oppose Jefferson School District winner in the first game of the Ohio Babe Ruth District 2 tournament today, Wednesday, July 20, at 5 p. m., at Grove City. Winner of that game will play North American Jets or Westside Pirates on Friday, July 22.

Camp Chase completed its American division schedule with a 6 to 1 record.

Boys Capture Man Suspected As Peeping Tom

Frank Wolfe, 18-year-old youth of 536 Townsend-av, and his 14-year-old brother, Ed, are credited with the capture of a man suspected of attempting to enter a house next door to their home Sunday night, July 17.

According to Frank, who is an employee of WLW television station, a 12-year-old girl, a neighbor of the Wolfe's, came over to their place that night, frightened and reported that she was alone in her home and someone was trying to enter the house. The younger boy, Ed, in hi. brother's absence, called the police.

Frank came home a few minutes later and on hearing the story went outside with his brother to look around.

They spotted a man a few houses away peering in the window of another home, and on approaching him asked what he was doing there. When the stranger ran the two boys chased and caught him, turning him over to the police who by that time had reached the Townsend-av address.

The suspect, a man who appeared to be about 27 years old, denied everything, in spite of the report of witnesses and in spite of the trampled ground under windows at the two houses.

Frank says he wasn't frightened at the time though he felt a little shaky after it was over. Frank and Ed are modest heroes to the neighbors and to their fellow employees.

League Ends First Round

All six teams saw action as the first round of the YMCA Intermediate Church Softball League came to a close.

Swim For A Day In Miami? Spang Says 'Let's Go, Gang!'

Playing hookey from a day's duties for a swim in the "ole swimmin' hole" was never like this!

Spang's Drug Store, Sullivant-av at Hague-av, is closed today; all the employes have gone for a swim. They are swimming in Miami, Fla.! "Spang" and his six employes boarded a plane last night for Miami. The group rented rooms at "The Castaways" and even rented a convertible to make the day's fun complete. They will fly back tonight and arrive in time to open the store in the morning.

The group includes the wonderful boss, S. C. Spangler, and employes, Rita Biegler, Nancy Russell, Marlene Schiller, Roger Thompson, Keith Wilson and Frank Fortkamp.

Rain Delays Church Leagues

By Bert Kerte

After a week's delay due to rain the Hilltop YMCA Junior Church Softball League started its second round of play.

Previously undefeated Glenwood Methodist fell victim to the West Jr. Hi-Y 18-6. The Hi-Y played with only eight men but completely outclassed the highly touted Glenwood team. Williams went the distance for the victory and Burke was the losing hurler.

Melvins Celebrate 50 Years Of Married Life On July 24

The wedding party of July 24, 1905, included, left to right, Oscar Melvin, brother of the bridegroom; newlyweds, Mr. and Mrs. Edwin O. Melvin, and sister of the bride, Miss Chloe Gomer. The bestman and maid of honor were married two years later and now live at 2919 W. Broad-st.

After a half century of married life, Mr. and Mrs. Edwin O. Melvin will celebrate their golden anniversary in Bermuda, Sunday.

* * *

Fifty years of married life, all of them spent on the Hilltop, will be celebrated by Mr. and Mrs. Edwin O. Melvin, 107 S. Warren-av, on Sunday, July 24. The couple left by plane early this morning for Bermuda, where they will celebrate the event with a dinner party in the Mid-Ocean Club.

The anniversary also marks a half-century of service to the community for Ed Melvin has been a pioneer and is still active in many of the civic projects and organizations which have made the Hilltop the community we know and enjoy today.

Melvin and his wife, the former Carrie M. Gomer, both natives of Jackson County, first met at a picnic in Wellston. On July 24, 1905, they were married in a West Side Methodist Church by the Rev. King.

Out of that meeting came another wedding. Ed's brother, Oscar, and Carrie's sister, Chloe, attendants at the wedding, were married in 1907, and have also called the Hilltop "home." They now live at 2919 W. Broad-st.

From the church the couple went directly to their new home at 31 S. Harris-av, where they lived until they built their residence at the S. Warren-av address.

Melvin, who is acknowledged as the man who is actually responsible for the annual bean dinner, has completed again this year a substantial share of the planning for this year's festival.

A charter member of the Hilltop Kiwanis Club, he is also a member of the Hilltop Business Association and of West Gate Lodge, F&AM. He has been for the past seven years an active member of the traffic commission.

His retirement in 1948 marked the end of 18 years of operation for Melvin's Hardware and Paint Store, W. Broad-st, at Wayne-av. Erlenbach has operated a hardware store at that address since.

Before then, he and his brother, Oscar, owned the Melvin Brothers Pattern Co., at 47 S. Scioto-st, now site of the State Office Building.

The couple has one son, George E., who lives at 2091 Yorkshire-rd, Arlington.

Be SURE To Be THERE

There is one thing that YOU won't want to miss . . . the 13th Annual Hilltop Bean Dinner on Tuesday and Wednesday, July 26 and 27.

The bean dinner is not only a tradition on the Hilltop where all Hilltoppers will gather for two days next week, but it is one of those expressions of civic pride one has in one's own community.

Our Hilltop is not a young community. Expressions of community spirit have been given for many years. Notably in 1909 when what was then called the Hilltop Business Men's Association sponsored what proved to be one of the best attended picnic outings of any community group in Columbus. The crowd grew every year.

Proudly, in 1936 the first "bean dinner" was held. After the changeover from HBMA to Hilltop Business Association, because of so many women joining the group, a fondness for Westgate Park and Harder Lake developed. All of the 11 bean dinners have been held there.

One gentleman of 75 moved away from the Hilltop in 1913 and has returned yearly to attend every Hilltop picnic and bean dinner. How is the spirit of Hilltoppers? need we ask when so many turned out last year. All I can say is: the staff of the Hilltop Record will be there to join with you in this happy festive occasion.

Good bean eating to you.

Protection For But A Few

Within the last few weeks it has become apparent that only a small segment of the Hilltop can be immunized against poliomyelitis this season, what with the delays in official approval of the vaccine and the limitations of its manufacture.

Therefore those precautions we have followed in previous years should be observed again in order that inroads of the disease may be kept at a minimum.

Best protection — and this goes for adults as well as children — is plenty of rest, a nutritious diet, careful cleanliness and avoiding new contacts, according to Dr. Ollie M. Goodloe of the Columbus Health Department.

A brief rest period in mid-morning and mid-afternoon is believed helpful in preventing undue fatigue. The same practice might wisely be followed following noonday and evening meals. Do not tolerate chilling. Swimming and other violent activity is best taken in the period of the day when the air still is warm. Cooling should be regulated, either by temperature or by use of a jacket or cloak, taking care to avoid chilling drafts or breezes.

Symptoms of early polio are a slight nausea, an increase in temperature, sore throat, stiff neck, difficulty in breathing, weakness in arms or legs and an unexpected tiredness. If any of these persist, it is best to call your physician, although it is no reason for panic.

Paralytic poliomyelitis is a horrible disease, but actually it is comparatively rare. Chances of your child contracting it are distinctly limited. Last year, for instance, we had only 128 cases reported in Columbus and three deaths attributable to it. In tuberculosis we had more than 10 times as many deaths and yet tuberculosis has come under such effective control here that it has fallen out of the list of the 10 leading causes of death.

Don't make any change in your summer plans because of the fear of polio, unless the area to be visited has a high incidence of polio, Dr. Goodloe advises. Intimate contact with outsiders is to be discouraged, but that does not include those encountered on local playgrounds, swimming pools, camps or in one's own neighborhood.

Another Bumper Harvest Ahead

One Man's Opinion

From THE EDITOR'S DESK

Three cheers are in order for Governor Frank Lausche and Mayor Jack Sensenbrenner today following commendable action taken on two separate measures affecting Columbus and Franklin County.

Gov Lausche showed his fine gubernatorial talent and recognition of the needs of the Franklin County Regional Planning Commission when he vetoed an act that would revise the rural zoning laws as enforced by the commission.

The act included a provision conferring on public utilities and railroads "the unlimited right to erect buildings and structures or use of their lands in any manner that they see fit irrespective of any plans established by public authorities in pursuance of law for the overall orderly development of particular areas or regions."

Though we are happy to note that the legislature, without objection, agreed to postpone indefinitely a vote on the governor's veto, we wonder why they did not just plain vote against the act. This would have precluded any further hope for those seeking favor of the legislators for their own ends.

Much Needed Garage Seen

Mayor Sensenbrenner achieved what several power factors in Columbus and many interested citizens failed to do—convince the state legislators that Columbus needs the 1200-car parking garage under the statehouse grounds.

The mayor spent several hours with some of the representatives of house and senate and succeeded in switching seven key votes needed to override Gov. Lausche's veto.

"I tried to show the paramount importance to the city of Columbus and the citizens of the state of Ohio for an underground garage, to the legislators," the mayor stated in an interview with this reporter.

Soon Columbus will be close to three-quarters of a million in population and the garage will prove one of the greatest booms to the city, the city administrator told the legislators.

Another point the mayor stressed was the value of the underground garage for use in civil defense. "The city must do all that it can to protect its citizens in the event of an enemy attack. I realize that those working in downtown Columbus would not be able to evacuate the city in time of emergency and need some place of protection," Mayor Sensenbrenner asserted.

He also stated that the underground parking garage will offer assistance in eliminating the traffic problem in downtown Columbus.

Religious Revival Needed

Opposition has been strong and effective against a special room in the state building for a prayer center or chapel. Yet, every day news comes out of Washington telling us about the new emphasis placed on God and religious faith by the heads of our great nation.

President Eisenhower has been said to have brought to the national government a new feeling of religious revival. His personal prayer at the time of his inauguration, the opening of cabinet meetings with a prayer, the establishment of a PRAYER ROOM IN THE CAPITOL, the inclusion of spiritual material in Voice of America broadcasts, the inclusion of the words "under God" in our pledge of allegiance — all these things have their influence in bringing about a spiritual awakening in the United States.

As a part of this new feeling, the Senate Banking and Currency Committee approved a House-passed bill requiring that the motto "In God We Trust" be printed on all paper currency. The motto is already on all U.S. coins. The bill allows five years to get the motto on all outstanding currency.

The nation turns to faith in God and a recognition of the power behind that faith. Where does this put the representatives of our state who oppose inclusion of these essential meditative practices and "places" in our governmental center?

Up $25 Million Over Last Year

The state of Ohio closed its fiscal year on June 30 with a cash balance in the state treasury of $323,915,763.86, according to State Auditor James A. Rhodes' weekly statement of receipts, disbursements and balances for the period of June 24 to June 30, 1955.

This year's cash balance on June 30 was almost 25 million dollars higher than it was on June 30, 1954. The state ended the previous year with a cash balance of $237,[illegible]

Woman For President?

More and more often we hear the supposition "Would you vote for a woman for president if she were a candidate?" More and more the answer is stated, "If she has the qualities which are demanded and is a better candidate in every way than any other on the ballot—yes!"

Some very interesting figures on the extent of female influence upon the government of these United States have been issued in Washington.

President Eisenhower has led the trend by appointing 85 women to top federal positions during the first two and one-half years of his administration. Seventeen feminine members of congress speak highly for the rising role of the nation's women in public life. Some 300 women occupy seats in the various state legislatures. Some 30 others are mayors of small cities or towns.

Notable among the Eisenhower contributions to these impressive statistics are the two women who serve as ambassadors to Italy and Switzerland. Never before have two female spokesmen for the United States occupied so important a position at the same time. Four others are judges of federal courts and are highly regarded by attorneys practicing before them.

Women have been highly successful in moving into top business careers. It looks as if the old rough and tumble arena of politics may be the next in line.

Who knows, a woman may see candidacy for president and succeed in the nearer future than we think.

Time To Stop It

The actual number of traffic fatalities over the three-day Fourth of July weekend this year was well below the probable figure based on the experience of previous years. Evidently drivers exercised greater caution than they did during the same holiday a year ago.

But there were still 348 deaths. Another such three-day weekend is coming up in September. The Safety Council of the Columbus Chmber of Commerce urges all drivers to prove once again that the statistical probability doesn't have to happen.

Take extra care over the coming holiday weekend. Want in practice care in driving daily. You'll live longer that way.

Women Again You Say

I was getting gas in a local service station the other day. A middle-aged woman driver cruised into the station and asked the attendant to fill it up.

The attendant checked the oil and asked the woman what weight oil she would like to have and what grade. The woman driver looked up . . . "You fellows know what kind of oil my car takes, how should I know, you take care of my car."

With that she rolled up the window of her car even on that hot day. The conversation was done as far as she was concerned.

HILL VIEW

Those who live where the sound of water
Beats on their ears like a tribal drum,
What can they know of the hushed, high stillness
Sweet in the hills from which I come?

Hills as silent as drifting petals,
Green and soft as a velvet floor.
Let coast folks have their sand and salt spray,
Nights alive with a wild, black roar.

Let their ears hold its thunder always
As close as sea-loud shells to their heads,
But give me a sheep bell clinking in moonlight
To lull hill people in peace-deep beds.

Wondering—The lady on television who got the $32,000, who will get to her first—an insurance company, tombstone company or furnace company. According to recent telephone advertising, the furnace and air-conditioning firms will win. You wouldn't believe how many people are interested in whether we are keeping cool at our house this summer. Next in line are the insurance companies—maybe they knew I had a birthday recently. Two jewelry establishments have selected me (lucky me) as the one (one of thousands) to send a diamond ring to. For a small fee, of course. And so I split an infinitive . . . Also wondering what the animals in the Zoo think of us . . . and if it's hot enough for you all.

We spent last week-end in a small town, so small it isn't on many maps. Small towns have always fascinated me. Much has been written about them, yet there are always new things to say about them, though people who live in them will tell you that absolutely nothing ever happens in them. The night was so quiet that none of us cliff-dwellers could sleep. The only sounds we heard were a couple of dogs barking in the distance and a whippoorwill and the owl that lives in a hollow tree back of the [illegible]. The owl seemed to be complaining about something. There wasn't a light anyplace, except a star or two and an occasional car passing through the town. It stormed in the evening and we could hear mothers calling the children in, and windows and doors being shut. It reminded me of the poem of Riley's, two lines of which are "Doors bang, and mothers' voices call, and high above it all the thunder grim reverberates." This little town has the typical white church and a grocery store and brand-new school building. The ladies of the church were having a supper in the church basement to raise money for new hymnals. You could smell the coffee all over town. Young people gathered outside and there were giggles and wolf whistles and shrill goodbyes as hot rods and family cars started for the ride home. Small towns are pretty much like they were when most of us lived in them. Automobiles, television, radio and other modern conveniences have not been able to change them much, thank goodness.

Signs of the times: Slogan of a diaper service is "Rock A Dry Baby" . . . Sign on the highway as you enter a small Illinois town: "We have lots of children but none to spare, so drive carefully." . . . Another sign near a town in Ohio: "No peddlers wanted. Our dogs have sharp teeth" . . . As you enter a town, a sign warns you to drive carefully. A sign as you leave the town says, "That wasn't so bad, was it?" . . . Near Newark we saw this sign on enterprising young merchant had painted over a stand at his front gate: "I am eight years old. My name is Jimmy and I sell lemonade and old magazines and fish worms. I went fishing."

From somewhere: An optimist laughs to forget; a pessimist forgets to laugh . . . It does a man no good to sit up and take notice if he keeps on sitting . . . You can always tell when a man is well informed. His views are pretty much like your own . . . Most people would like to tell the truth but they would rather be courteous.

Teen Troubles

By John Douglas, M.D. and Mary Douglas

Question: Why is it that girls just can't get dates unless they neck? At least, that's the way it is in our crowd.

Answer: Then there's something wrong with your crowd. Any girl who has to neck to get dates is admitting that she isn't attractive enough or fun enough or hasn't enough personality to be popular for any other reason.

Or, it may be that she is going out with the wrong kind of boys. There is a certain type of boy who thinks it makes him a man to demand a necking party from every date. He likes to brag about it later to the fellows.

On the other hand, many boys do it mainly because they believe the girls expect it. They're afraid the girls will call them "slow" if they don't act like real grown-up wolves.

Over and over, teen-age boys have said that the main thing they want on a date is fun. And it doesn't have to be the necking-party variety of fun, either.

Plan your dates so that you'll have lots of fun and then, when it's time to head for home, keep him moving until you get there. If he wants to park, you may find it necessary to use all the tact and charm you possess to prevent it.

Be your nicest, sweetest self, but keep him moving until he gets you home.

Believe me, if you're attractive enough and fun enough, plenty of the nice guys will be calling for dates—without necking.

College Trains Workers For Small Papers

A high school graduate from the Columbus area may have opportunity to train for community newspaper work in a one-year course at Defiance College, Defiance, O. The college has three linotype machines and presses to be used as "laboratory equipment" for the journalism class. Practice on the linotype will supplement training in news gathering and writing.

Students also will learn typewriting, accounting and oral and written English. One elective class will be included, such as shorthand, business mathematics or advertising.

An announcement from the college says that many weekly and small daily papers are short of help. The new course is being tailored to their needs, which are different from those of the metropolitan press. The student will be trained in business, editorial and mechanical departments — an all-round ability needed on the weekly paper.

The president of Defiance College, Kevin McCann, is a former publisher of weekly papers in the Chicago area. He is now at the White House as an assistant to President Dwight D. Eisenhower. He believes that work on community newspapers should be encouraged as one of the best opportunities for useful employment.

Information may be secured by writing to the admissions director at Defiance College, Defiance, O.

Dear Mr. Beierle,

In the last few days articles have been printed concerning the consolidation of Brown Township with Norwich Township schools.

There are always two sides to a question.

Brown Township has a modern four room building with auditorium and rest rooms, plenty large for the grade school pupils. For years Norwich Township had been glad to have the high school pupils as tuition students.

The people of Brown Township worked hard several years ago to get that building and now it's paid for, and those who have been long time residents of the township are not going to give it up graciously.

It's the folks who have moved into the township who are anxious to do away with it, although a few newcomers moved here for the purpose of educating their children in a small school. That school building is the only building Brown Township has for a community center.

How long would Norwich school officials consider leaving our building as it is? Only long enough for them to cash in on it for more schools in Hilliards.

In a recent article a spokesman stated Brown Township was a wealthy township and Norwich Township needed us.

Sure, that's the answer. Norwich Township wants the tax money for their use, for with the new housing projects there, of course they will need more room for "athletics, etc."

What seems so strange is: if they haven't room for nine new tuition students, how are they going to have room if they consolidate? This spokesman stated they had 60% of the voters on their petition, but it's a known fact some did not know what they really signed.

Some are residents here today and gone tomorrow. In fact, some have already moved.

Is it right they should help do away with something we, who are permanent residents, have helped to build?

Wake up, Brown Township! and fight for the township school we have been proud of for many years.

Dear Mr. Beierle,

We wish to express our gratitude and appreciation for your cooperation and interest in Barbara Sheets.

We have received several donations in response to your article. Thank you again.

TITHE
This is my Tithe. Let us not attempt to 'Tip' God for His benefits. Jesus said, "Bring ye all the tithes into the storehouse, and I will pour you out a blessing, that there shall not be room enough to receive it." Mal. 3:10. Jews and Christians agree that a tenth part of one's income is the accepted tithe. He said, to those who fail to give back a tenth part . . . "ye have robbed me in tithes and offerings."
"The Earth is the Lord's and the fullness thereof"; Psalms 24:11. May we write our tithing check freely. May we give back to the Lord a tenth of what He has so graciously and so abundantly given us. It is God's plan for financing His church. Christ approved it as the best way to carry on His work in the world. This is My Tithe.
You In The Church . . . The Church In You

Central Point TB X-Ray Program Ready

Two more days remain in the free chest X-ray program under way at Central Point, members of the Central Point Business Association stressed today.

The Christmas Seal X-ray cruiser will operate through this Friday evening near the J. C. Penney Co. The program began Tuesday. Operating hours are 3 to 9 p.m.

Employees of the 20 stores in the Central Point Association set an example for the public by queuing up for free chest checks at the beginning of the program.

All merchants in the association are cooperating with the Tuberculosis Society in supporting the anti-TB project, according to Edward T. Greenfield, president of the association.

Special window displays, posters, streamers and flyers are being used by all stores to promote the health service to Central Point customers.

A total of 1979 freeX-rays were taken at the Point when the Christmas Seal X-ray cruiser paid its first visit in 1953. Forty-nine were found with chest ailments needing medical help.

Each X-ray takes only a second. No undressing is needed, and results are confidential.

THEY SAID IT IN '49 AND THEY SAY IT TODAY

Hilltop Business Association Versus Housewives Who Really Cooks The Better Beans, Is Question

In 1949 a survey was taken as to the question of who cooks the better beans. Following the bean dinner that year every last bean was eaten from the pot! How many housewives can claim the same culinary achievement.

None-the-less, the survey taken revealed the following facts:

The men on the bean committee may think they have a good recipe for the Hilltop Bean Dinner, but some of our esteemed Hilltop housewives think differently. In fact, they've offered their own recipes for comparison.

As you probably know by now, the recipe that was used at the 1949 bean dinner was as follows: 100 pounds of white soup beans boiled well. Ten pounds of catsup, five large onions and a batch of ham hocks are added and everything is baked until well done. However, if you still prefer the home-baked variety, take a look at the recipes by our Hilltop women.

Remember this was in 1949 . .

Mrs. H. L. Hetterscheidt, 193 Midland-av, said she cooks her beans until partly done, then adds brown sugar, two or three small onions, tomatoes and bacon or ham, plus a little water. They are then baked until done.

Boston Beans Preferred

Mrs. Lawrence Irvin, 807 S. Roys-av, states that her family prefers the Boston type of baked beans.

For this dish, she soaks the beans overnight. The following day she places them in the oven with molasses, dry mustard, salt and pork chops or a piece of loin roast for seasoning. They then bake for three or four hours until done.

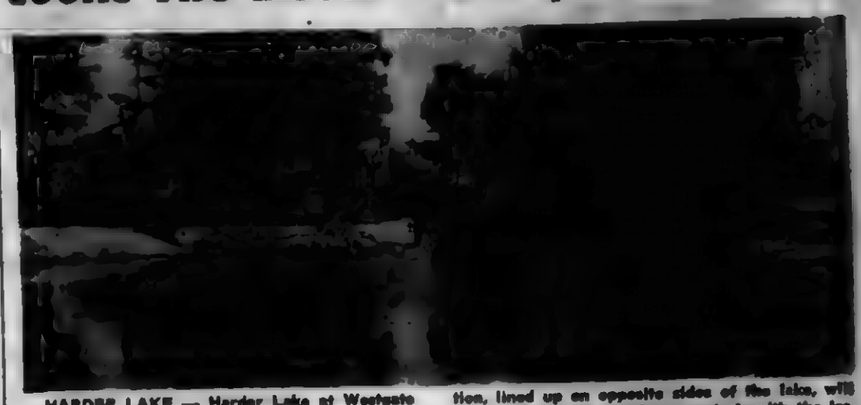
Mrs. Paul Kauderer, 94 N. Hague-av, cooks plain soup beans with a carrot grated through them and a piece of bacon for seasoning.

Mrs. Martha J. Nutter, 109 S. Terrace-av, likes them cooked with "some real good ham broth" and then seasoned with salt and pepper.

Mrs. Charles E. Parks, 69 Haldy-av, gives her recipe a little more specifically; for an ordinary casserole of beans use one-third cup brown sugar, one-quarter teaspoon dry mustard, a teaspoon of minced onions, and one-half to three-quarters cup catsup. Place bacon strips across the top and bake in a slow oven for a couple of hours.

Uses Marrow Beans

Marrow beans are used by Mrs. Fred W. Deubner, 172 S. Brinker-ac, for her recipe. She soaks them overnight and then drains them the next day. Chili sauce, catsup, onions and mustard are mixed in with the beans. Then brown sugar and bacon strips are placed on the top. She bakes them in a 425 degree oven for the first half hour and turns the oven down to bake them until the mixture is "gooey" and dark.



Mrs. Alan B. Cross, 286 S. Burgess-av, soaks her beans for three or four hours in warm water, then places ham in with the beans and puts them on the fire until they boil. They are seasoned to taste. A tablespoon of sugar is mixed in and a whole onion dropped in. They simmer and cook until the mixture is thick.

Mrs. James A. Fodey, 143 Powhatan-av, soaks marrow fat beans the night before. The following day she mixes in chili sauce, molasses and a teaspoon of mustard sauce. Fried bacon is chopped up and mixed with its grease into the beans. A few strips of raw bacon are placed over the top of the beans and then all placed in the oven.

Boil 'Em First

Mrs. George Trout, 1662 Hopkins-av, soaks a quart of beans overnight. Then she parboils them until the skins break. The beans are salted and a half-pound of bacon or fresh pork and a tablespoon of dry mustard dissolved in warm water is placed with the beans. Two tablespoons of molasses, two tablespoons of brown sugar and a little catsup is mixed in with

HARDER LAKE — Harder Lake at Westgate Park will become a battle-scene Wednesday evening for the Hilltop Lions Club and the Hilltop Kiwanis Club. Teams representing each organization, lined up on opposite sides of the lake, will hold their annual tug-of-war contest, with the losers being thoroughly dunked.

Hilltop Picnic At Buckeye Lake In 1909 Forerunner Of Today's Bean Dinner

Days of the first Hilltop picnic and succeeding ones are recalled with the approach of probably the biggest bean dinner on record when the bean dinner opens Tuesday and Wednesday, July 26-27 at Westgate Park when the beans will be served.

First Community Picnic

Forty-six years ago July 27, under Hilltop Business Man's Association sponsorship, the first community picnic was staged when the Hilltop was in its infancy.

L. M. Seiller, brother of M. W. Seiller, was then in business on the Hilltop. He and the late Wyatt L. Millikin, local hardware dealer, conceived the idea of bringing the entire community together at a picnic.

The first picnic was held at Buckeye Lake as were the next two. The problem of transportation for the crowd was solved by chartering two interurban cars. But the number increased to such an extent that two more cars were ordered out just before the day of the picnic.

Between 400 and 500 residents of the Hilltop met at Mound and High-sts where they boarded the picnic excursion for Buckeye Lake.

The Hilltop had a band of its own that also made the journey. Grant Long, officer, went along.

Second year found the picnic so popular that six cars were chartered and about 800 people spent the day at Buckeye Lake. The following year 1,200 people attended the big get-together and boarded the cars at Broad and Hague.

The first two picnics were successful in every way except financially. The deficit for the two years was taken care of by Mr. Seiller and Mr. Millikin. The third picnic was a financial success.

With the formation of the Hilltop Improvement Association in 1912, the picnic was sponsored by the association. It was held at Buckeye Lake again and for the fifth time in 1913 and 1914.

The Hilltop Record 41 years ago publicised the annual occasion in its columns. The story read:

Record Records Event

"One of the biggest events of the year will take place at Buckeye Lake on Wednesday, July 29, when the Hilltop has its annual picnic there.

"Great preparations have been made for all the former picnics but the Improvement Association has made the greatest ever for this one, with the desire that this be the biggest outing the Hilltop has ever had.

"Special cars will leave W. Broad-st and Hague-av at 8 a. m. bound directly for the lake. Round trip fare for adults is 50 cents, and for children, 25 cents. An elaborate program of races, games, and other forms of outing entertainment has been prepared. There is every assurance that everybody will enjoy himself.

"This is a fine chance for everyone to show his loyalty to the Hilltop. There should be an immense crowd attending and enjoying this outing. Let everyone show an unusual amount of enthusiasm and interest. Help make it a grand success. Let this outing be an indication of the growth, progressiveness and genial environment of the Hilltop.

"Preparations for the big Hilltop picnic, which will be held at Buckeye Lake Wednesday, July 29, are being made on a mammoth scale by the Improvement Association. All sorts of games and sports are on the program, besides the many attractions offered by the Park.

"As usual, the Hilltop Band will be out in full force, playing many pieces on the way to the Lake and more after they arrive there. All stores and shops on the Hilltop will be closed Wednesday and everyone will be given an opportunity to attend the outing. Members of the association state that they expect a crowd of from 700 to 1,000.

"It is hoped that all who can will make an effort to attend this picnic, the largest ever given by the Hilltop.

"Everyone ought to pack his or her lunch and join the crowd for the lake. A good time for all is assured. The spirit in which this picnic is attended will, in a great measure, indicate to the rest of the city the attitude of the Hilltop.

"Let the rest of Columbus see that the people of the Hilltop are the most congenial, neighborly, friendly and enthusiastic people in the city. So if attendance to the outing does not appeal to one as an excellent recreation, which it undoubtedly is, it certainly can not fail to be an indication of one's community pride and patriotism."

Picnic Dedication of Glenwood

In 1915 the Glenwood Shelter House was completed and for the first time the annual picnic was given at home. It was held in connection with the dedication of the new building.

Expenses of these picnics were meant to be defrayed by the advertising carried in the program issued the day of the event; however, this was often low and the Hilltop doctors "chipped in" to make up the deficit.

And so through the years has the Hilltop picnic continued.

Then in 1926 the first ox roast was held and credit for this idea goes to the late Fred L. Sulzberger, chairman of the committee for the Business Men's Association. Thousands of people gathered at Stravant-av and Binns-blvd for their old-fashioned barbecue sandwich.

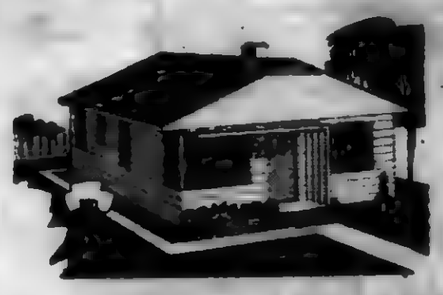
The meat was roasted in the oven by "Cap" Fagley of Columbus Fire Department and was pronounced as being "most delicious."

Then in August of 1927, another ox roast was held in Westgate. A greater crowd than ever before assembled on the grounds for a good time. It was followed by a moonlight dance.

In 1936 the first "bean dinner" was held at Westgate Park with Hilltoppers flocking to the outing to enjoy a menu of beans ala-carte . . . bread, crackers, and wieners were extra . . . the beans, of course, were free.

FORGOT TO COUNT THE TREES

In charge of the 1953 Annual Hilltop Bean Dinner program was Robert Case. Chosen for queen that year was Miss Pat Robinson, 256 S. Cypress-av. It was estimated that 50,000 attended the bean dinner in 1953. Someone apparently forgot to take into account the room used by the trees on the park grounds, an interested spectator said.



In 1953 reports indicated that 70,000 attended the annual fete. Miss Louise DeMastry, a 17-year-old brunette from West High, was chosen queen out of 15 contestants.

Whose Doll Is Cutest? Decision Isn't Easy!

Judges had their hands full at such events as doll parades at the 11th annual Bean Dinner program sponsored by the HBA in 1954. The kids were so cute. And besides the mothers were standing right there and watching. But everyone agreed that judges (left to right) Bob Schmidt, Al Stephens, and Jack Imler did a fine job of making the decisions. Mr. Fix-It Suggests

Recently a Hilltopper, Mrs. C.S. Toops, 514 Binns, asked Mr. Fix-It how to go about getting some work done on the alley behind her home.

The alley, Mrs. Toops stated, needed filling and fixing. She pointed out that heavy traffic caused by businesses nearby tore up the alley, making it full of holes. The alley had many low spots where water formed in large puddles.

Mr. Fix-It called CA. 1-2211 and spoke to Floyd C. Rodick, director of public service. Mr. Rodick pointed out that if a letter was sent to his office stating the problem and completely locating the street, alley and stating what the problem was, his office could take the proper action.

Mr. Rodick suggested calling Robert F. Werner, chief engineer, and getting further more detailed information. Mr. Werner assured Mr. Fix-It that if the problem were completely explained in a letter it could be processed quickly to satisfy both the resident and the city.

Mrs. Toops called Mr. Fix-It at the Record Monday and reported that city workers had already come to fix the alley behind her home as requested.

"If anyone has any problems in seeking repairs for street or other public works needs they should call CA. 1-2211, extension 254. A courteous young lady will take down the information. Ask any questions which it might be important for the city to know to take care of the problem, and give good service to residents," Mr. Werner said.

Yes . . . there are those who have lost their youngsters . . . those who just want to know where to go to get the beans . . . all these persons could do was to say to the 1954 bean guests . . . "just follow that line . . . it leads to the beans." Shown in a more quiet moment at the information booth in the bean dinner program last year are: Mrs. Evelyn Jones, Welcome Wagon supervisor; Jack Merriman of Seiller's Department Store; and C. H. "Doc" Campbell, executive secretary of the HBA, sponsors of the annual event.

Everyone came to the 1954 Hilltop Bean Dinner. Shown here is Mrs. Ethel Ginley, 656 Wedgewood-dr, paralized from the waist down but none-the-less cheerful. She enjoyed watching the bean dinner she said. She is receiving a free copy of the Hilltop Record from Gerald Willey, Record Circulation Manager. STAFF PHOTO

them. One onion is placed in the center of the dish and then all is baked for an hour and a half.

These recipes sound good don't they, but are the housewives right in assuming that they know more about cooking than the men, or will the beans at the Hilltop Bean Dinner beat them all? Next Tuesday and Wednesday will tell the tale.

Then too, there's always the person who prefers his beans in a bag or in a bean-shooter.

But, salway you look at it, most everybody likes beans. So come and enjoy a big plate of the old vegetable at the Hilltop Bean Dinner. If you don't we might have to ask "Where have you bean?"

From One Queen To Another

Bean Dinner queen Sally Thimmes is congratulated by Ella Marie Lichterman of Washington, D. C., who was 1939 Bean Dinner Queen. Miss Thimmes, a native Hilltopper, was crowned by Mayor Sensenbrenner, at the Annual Bean Dinner contest July 27, 1954.

The Christmas Seal X-ray Cruiser will be on hand at the annual Hilltop Bean Dinner to check your chest free. Get your X-ray Tuesday and Wednesday, July 26-27.

The Hilltop Bean Dinner will have an extra attraction this year when the Christmas Seal X-ray Cruiser makes its first appearance at this annual event.

The X-ray bus will operate from 2 to 9 p. m. on Tuesday and Wednesday, July 26 and 27, and will park near the Shelter House.

Tickets "admitting one" to the Christmas Seal X-ray Cruiser are being distributed by members of the Hilltop Businessmen's Association along with Bean Dinner coupons, according to C. E. Dietlehorst, chairman of the Bean Dinner.

All chest checks will be free, available to everyone over 15. No undressing is required, each X-ray takes but a second, and results are confidential.

Rip-Snortin' Affair

The 1949 Annual Hilltop Bean Dinner was a rip-snortin' affair, according to reports of those who participated in the festive program.

Franklin D. Sparks and John Rippert were in charge of the bean festival. Big news in 1949 was that the beans would be baked and they would be streamlined beans. Crackers, and coffee were just 10 cents. Jack Merriman was chairman of the program.

Bids were asked on the new Hilltop Library in 1949.

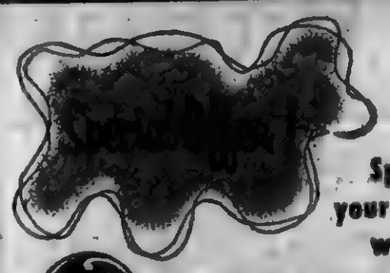
General committee for the bean dinner in 1949 were: Phil Stout, president of HBA; C. H. Campbell, secretary HBA; C. C. Hartley, Don Rice, Joe Goodwin, Ed Melvin, Myron Rodabaugh, Sam Alford, Jack Merriman, chairman; Joe Briggs, Elmer Hegenberger, Harold Erlenbach, Clarence Story.

The Hilltop Record showed movies of the bean dinner from the year before.

Crowds were estimated at 25,000 at the dinner. There were 18 firms who had exhibits in the bean tent. Carl "Pete" Hartley's orchestra played at the festivities.

dise went on the auction block in a big script auction at the bean dinner.

Ten years earlier, 1938, 26,000 were estimated in attendance at the annual bean dinner.



CLEAN UP LAKE FOR DINNER

Harder's Lake was cleaned up in preparation for the 1944 Annual Hilltop Bean Dinner. Through the efforts of the HBA final action was brought about to get the lake cleaned up and well stocked with fish.

The picnic was held a little late in 1944. Aug. 3 was the day of the program.

The Demos Snyder home, 4900 Avery-rd, fits snugly into a hillside. It is of log construction, although the exterior is panelled over with vertical dark-stained siding. A wisteria vine completely covers the screened porch at the left. The kitchen door opens onto the sun deck over the two-car garage. At the right is the picture window of the bed-sitting room.

Demos Snyder Log Home On Avery Road Reminiscent Of Ohio Pioneering Days

If you like antiques and glimpses into Ohio's pioneer history, you would love the rustic charm of the Demos Snyder's log home, 4900 Avery-rd, situated on a 5-acre triangular-shaped plot at the corner of Hayden Run-rd.

Demos Snyder, a projectionist for a downtown theatre, built the home in 1934. He employed Walter Schoby of Plain City, son of a veteran log house builder to assist him. Mr. and Mrs. Snyder lived at 154 S. Huron-av on the Hilltop at the time, and they used the house for a summer cottage until the war, when they rented it out.

In 1945 the Snyders started living here all year around. Snyder, who particularly enjoys the outdoor life, has 17 bee colonies, raises pheasants, and likes to garden. A broad lawn slopes down from the house to a pond, which was formed by damming up Hayden Run where it ran through the property, formerly part of what was known as Schrivers' Corners.

One enters the living room of the home through a screened porch completely covered by wisteria vines. The front door, of heavy rough lumber, swings back on large iron strap hinges. It may be barred from the inside by a large wooden piece resting on iron U-shaped loops.

Rough-hewn Logs Used

The logs of the home, covered on the exterior by vertical stained siding, are exposed on three of the living room walls. There is no ceiling, so the roof rafters may be seen. The heavy rough - hewn beams, 30 feet long, span the living room and extend out under the eaves of the porch. The logs are oak and sugar maple and came from Holcomb woods north of Amlin.

The fireplace, reminiscent of those in the pioneer home, was built of native stone found at the creek in front of the house. One's eyes may follow it up to the roof. A crane with an old iron pot on its arm swings over the hearth. A folding rocking chair which belonged to Mrs. Snyder's grandmother sits by the hearth.

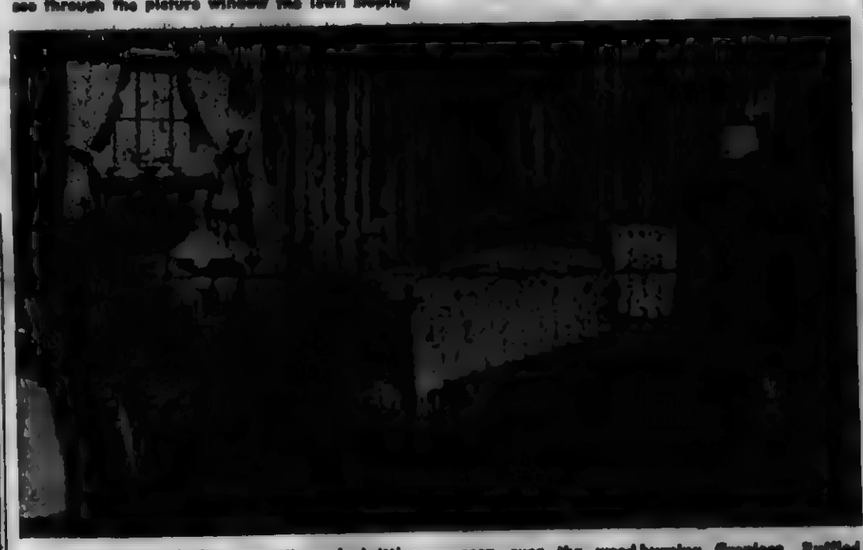
The Home of the Week



By Elsie Ireland Weaver

This view of the Snyders' living room shows the stairway of rough-hewn logs and one of the low-hanging beams which are 30 feet long, spanning the living room and adjoining porch. Note the plaster covered mortar between the logs and the heirloom Bibles on the table.

Opposite the beds in the master bed-sitting room is this attractive window setting. One may see through the picture window the lawn sloping down to the lake and the lake itself sparkling in the sun. The tables shown are family heirlooms.

In the master bedroom, really a bed-sitting room, the spaciousness is emphasized by the handsome wood panelling. The only wall decorations are Dennis Snyder's guns, one of which may be seen over the wood-burning fireplace. Ruffled curtains and bedspreads carry out the Colonial theme.

The fireplace in the living room extends to the roof. It is built of native stone picked up near Hayden Run Creek which crosses the property. Note the crane and iron pot, the open shelves and the low-hanging beams.

Home Of The Week—

(Continued From Preceding Page)

one side of the living room. A second-story storage room opens off the balcony.

Many of the pieces of furniture in the living room are heirlooms handed down from both sides of the family to the Snyders. A desk, two old Bibles with beautifully-embossed leather covers, and fine old pieces of glass and china in the corner cupboard and dark mahogany Hutch cabinet have been in the family many years. Numerous accessories on the open book shelves and mantel carry out the pioneer or Colonial theme.

Other living room furnishings are the dark grand piano, sofa upholstered in brown and two maple chairs done in brown cotton with gay colonial print.

On the floor is one large oval braided rug and matching smaller ovals.

Curtains are brown with large yellow roses.

Off the living room is the small but efficient kitchen with a door onto the spacious cement patio in the front of the house.

There is a full bathroom and a half bath, all wood panelled, which is convenient to both the tiny guest room and master bedroom.

The guest room is a quaint room with a dark Jenny Lind bed on which is spread a Colonial quilt.

Huge Master Bedroom

As different as the living room, and perhaps even more attractive because of its wood panelling is the huge master bedroom. The wood is knotty pine finished to resemble Colonial maple. Even the ceiling here is panelled!

Actually this bedroom is a bed-sitting room for it has an open brick fireplace a large picture window with a lovely view of lawn and lake, and comfortable chairs in which to sit and contemplate the beauties of nature.

The twin walnut beds with their brown and white spreads silhouetted against the panelling look like a scene from a true Colonial home.

Here again the furniture is mostly heirlooms — walnut chest, drop-leaf table and lamp-tables.

The draperies are the same brown and white print as is found in the bedspreads and chaircovers, while the rug repeats the brown color scheme ingredient and adds gray.

A Fireman's Life Is None Too Glamorous

(Continued from Page 1)

of the foot of your bed.

You run for the pole and hit the trap door around the pole with your foot. The doors swing up, tripping a micro switch, which in turn feeds the juice to a single light fixture in the middle of the room. You grab the pole, clutching it for dear life, your feet hit the rubber shock absorbing pad at the bottom, step back from the hole so that Bob Gruhsel or Gene Scollieri don't come down on your shoulders, run for your assigned truck, don your fire coat, and you hear Gruhsel fire up the big Seagrave hook and ladder truck.

The three push buttons hanging by each engine are pushed, and three electric motors pull three big doors up and out of the way. It has been a scant 30 seconds since the clicking on the PA system.

Out To the Fire

Then your truck pulls into the street, and the screaming of the siren suddenly brings you to your senses. You realize that the fire, regardless of how big or small it is, can prove fatal to you and your comrades. You've got a job to do, and you realize this. Suddenly you realize that this one might be a false alarm, robbing you of your valuable sleep, but you push on.

The big rig rounds the corner, and you can see it now: the smoke is pouring out of a building. The sirens are shut off, the spots are played on the scene, the motors are idling fast, and you start hunting the nearest fire plug. You spot it, just a few yards away.

C. W. Linton, Don Eckstein, and Gordon Baker grab hoses, connect them and head for the smoke-filled basement, looking like Martians with their gas masks on and the eerie light playing about them. They shove flashlights into the smokey darkness, but they don't need their lights, for there is the fire: rags and papers in a stairwell, ignited by spontaneous combustion. The colorful flames illuminate the whole basement. Dick Hart and Baker run back to the trucks to get hooks to pull the inferno out into the center of the room so it will not ignite the stairwell.

Water is played on the blazing mess, and in a few short minutes, the fire is under control, then completely out. You and Scollieri along with I.A. Gilbert check around for something that might be live with sparks, and ready to break into flames after you leave. You don't find any, so you go back to the trucks, climb aboard, remove your fire coat, wait for the lieutenant to finish his report, and head for the engine house.

It's close to 6 a. m. now, and you realize that after you go over the engines, it will be time for the routine day to begin, and you won't have much chance to get that well-earned rest until after lunch, if not later.

Extra Duties

Then a group of school children come in, and Gilbert tells you to explain what happens from the time the fire is discovered, right through the time the men get back to the house. Poor Gilbert, you are glad you don't have his job, having all these forms to fill out as part of his daily report.

So you explain to the children that when the phone call is made by the discoverer of the fire, the dispatcher on the fourth floor of City Hall speaks into the mike in front of him for a specific company to go to an address, and that is heard all over the city between 7 a. m. and 8 p. m., and then to the individual houses between 8 p. m. and 7 a. m.

You tell them that when an alarm box is sounded, you count the gongs to tell which box is being used, and that sometimes you get the call over the short wave radios in the trucks.

You further state that the officer in charge of the individual apparatus is in charge of the fire until the battalion chief arrives. The battalion chief is in charge of everything after he arrives.

Then after they leave, you finish up your work, and then go to schooling sessions back in the mess hall, in preparation for the big tests next month. That will be your chances to get a promotion, and even possibly become an officer.

After the schooling session is over, you are more or less free to do whatever you want as long as you stay on the grounds.

But all your exhausted body tells you is you need sleep, just sleep.

(EDITOR'S NOTE: The people are real in this story, the fire house is located on the Hilltop. Only the incident is fictional. It is an incident which could and has taken place quite often.)

Highlights Of 12th Bean Dinner

Deemed most lovely by the panel of three experts, Miss Nancy Horn, 17, 440 S. Ogden-av, a senior at West High School, sponsored by Stephens Pharmacy, holds her bouquet of roses and wears her coveted crown.

Shown above are the judges of the Hilltop Bean Dinner Queen contest. Left to right: Nita Hutch, Chet Long and Dr. Bob Davis, 2230 W. Broad-st, comparing notes after judging 19 contestants. All agreed on Miss Nancy Horn, sponsored by Stephens Pharmacy.

Eat and eat well was the slogan of thousands of Hilltoppers and friends as they downed a ton of beans at the 12th Annual Hilltop Bean dinner during the first day. Shown above are just a few of the hungry visitors to the fabulous Hilltop event.

Two bare chested contestants in the boxing program were Dynamite Phil Clifton vs Tiger Butch Weaver. The bout ended in a draw. Al George was referee. What the boys lacked in skill they made up in a most enthusiastic fight.

Taking top honors in the doll buggy parade were three winners. Shown left to right: Connie Spencer, 4, 606 Woodbury-av, most original carriage, daughter of Mr. and Mrs. Robert N. Spencer; most comic buggy, Rita Conrad, 5, daughter of Mr. and Mrs. Herry Conrad, 1443 Thomas-av; and the best decorated prize went to Kathy Basil, 4, daughter of Mr. and Mrs. Robert E. Basil, 291 S. Algonquin-av.

Thousands Attend Opening Day Bean Dinner Festival

Nancy Horn Is Queen Of The Hilltop

Climaxing the first day of the 12th Annual Hilltop Bean Dinner Festival on Tuesday was the crowning of Miss Nancy Horn as "Bean Queen."

Out of 19 contestants who appeared at the program, three judges finally decided on the excellent merits of Miss Horn. She is 17 and a senior at West High School. Sponsored by Stephens Pharmacy, Miss Horn, 440 S. Ogden-av, was given a bouquet of roses and crowned in glory as one of the most lovely queens of all.

A panel of experts gave their decision only after a long discussion since the other 18 lovelies made the choice very difficult, they said. On the panel were Chet Long, Dr. Bob Davis, 2230 W. Broad-st, and Nina Hutch.

Eatin', Playin' Everywhere

Everywhere one went at the annual program there was not a disgruntled look. Everyone had smiles on their faces and mothers watched as their youngsters rode the many rides provided by Nolan Amusement Co.

It seemed as though everything would stop from 6 to 7 p.m. when the beans were served on Tuesday, but far from the truth. With cups of beans in hand, festival [illegible] walked here and there to see the many events taking place all at once on the grounds.

Many displays were ready for visitors in the huge tent along one edge of Westgate Park. Folks watched television; tested the opening and closing of the latest refrigerators; looked into the new cars, and marveled at their sales schemes; picked up the little box which said "Westinghouse" as they drew their fingernail down the plastic strip; many studied the pictures on display taken through the year by the Hilltop Record; and still others looked into the cut-a-way plumbing exhibits.

Many Events Too

The doll buggy parade at the old shelter house was the scene of many gaily decorated carriages. Games and contests in the park oval brought shouts of jubilation from youngsters as they dashed

LETTERS TO THE EDITOR

Dear Editor,

I have just finished reading your issue of July 20, and particularly have found the reprinted parody of the 23rd psalm which appears in your "Top O' The Hill" column is extremely poor taste.

My objection is not necessarily to the corruption of the 23rd psalm but to the myopia of Reverend Crowhill and of your columnist in their attitude of these things which have made our pursuit of "The Good Life" a more pleasurable and safer one. The logic is sophomoric to say the least when one writes, "For those who need it religion . . . ," and then endorses the meddling of science as a measure of proof that those who believe or subscribe to scientific research and progress are wrong in doing so, and [illegible]

In an example, I find that among the things tabulated, sin was mentioned, one is a convenience, one is a problem, and one is a luxury. The six necessities: four-base high-voltage psychiatry, the hydrogen bomb, jets, the atomic bomb, penicillin, and social security, and the old golfer' bonus. The luxury: alcohol. What's the point of this vague and nebulous and obviously unbalanced list? Are your columnists faced with the problems of filling space, or are they merely flippantly parodying their betters?

Very truly yours,
Myron Bankhardt

Dear Mr. Editor:

Communism is causing its bitterness heard in all parts of the world including our own nation.

It is found in the political, educational, financial and religious fields.

Perhaps the best evidence of the trend toward Communism is the system of bureaucracy which is the opening wedge for the entering of Communism.

The guiding principle of bureaucracy is selfishness. The bureaucrat seeks only his personal interest and advancement. In his selfish ambition, he forgets the interest and welfare of the other fellows. He seeks only such things which, as he thinks, will bring personal favor and popularity so that he may perpetuate himself in office.

No matter if found in the most remote parts of the world, the influence of bureaucracy finally reaches the individual in our country.

While this is true, even though we might say to be unendurable, yet it is there. But we get its blighting influences when it is close to us. We feel it stronger if it comes from our own country, stronger still if found in our state, but strongest of all if it comes from our city.

A wise man once said, "The world is in a stage and the people are the actors."

This picture is not complete. It lacks an audience. Here, then, is the picture. Our city is the stage, the officials who manage the various departments of our municipality are the actors, and the people are the audience. No matter what action the actors may take, whether in the interests of the audience or in their own selfish interest, the people pay the expenses.

All goes well as long as actors and audience work in harmony. But if bureaucracy enters the picture, dissatisfaction and trouble begin.

It behooves the audience to watch for the bureaucrats and oust them at the first opportunity.

Dear Mr. Eskardo:

During the past few weeks, as you knew, thousands of civic leaders in the Franklin County area have been cooperating in the fight against Arthritis — The Crippler! The duties voluntarily assumed by these people have been many and varied—ALL have been important.

It would certainly be an impossible task to have a charitable fund-raising campaign of the type we have just conducted without the cooperation of the publicity people. Because of the stories and pictures in the newspapers — because of radio announcements, panel discussions and interviews — and because of television's unique power to reach into the home of the average family, the population of central Ohio certainly knew that an Arthritis and Rheumatism Foundation fund-raising drive was on! It is gratifying to know that the men and women working in the various media of advertising and publicity were sufficiently interested in our efforts to give us the great amount of help they did.

As General Campaign Chairman of the 1955 Arthritis and Rheumatism Foundation fund-raising drive, it gives me a great deal of personal pleasure to thank you for your particular part in publicizing this worthwhile work. The service which the Franklin County Chapter will be able to render to the 57,000 arthritics in this area will be greater because of your splendid cooperation. Thanks again for a job well done.

Sincerely yours,
Charlie Hill

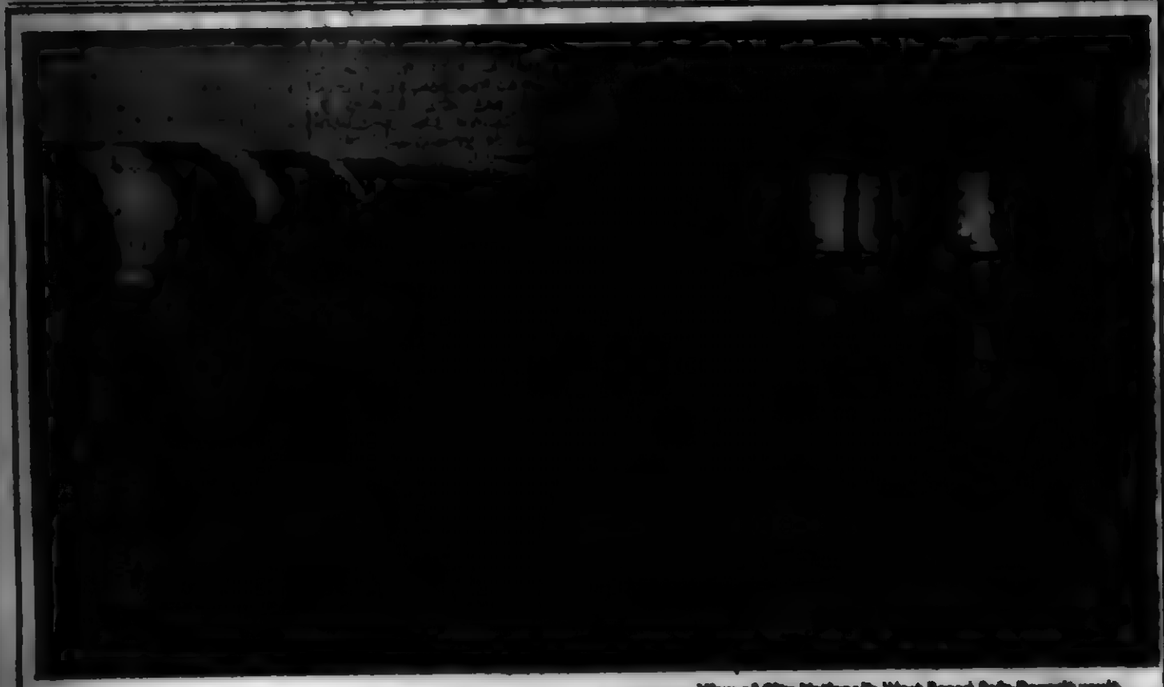
Kiwanis Clubs Support 'Fiesta' To Aid Boys

It will be Cuba time on Aug. 12, at Jet Stadium. The 11 clubs in the Eighth Kiwanis District are cooperating to promote the sale of tickets for the Jets-Havana game with the proceeds to be used to send approximately 140 boys to the Big Brothers' Camp.

These are boys who would not otherwise be able to enjoy the advantages of camping, and they are being selected through the joint auspices of the Kiwanis Clubs and the Big Brothers' Association.



Since the Cubans will provide the opposition for the Jets on "fiesta night," the public is invited to come prepared with sombreros, serapes, noisemakers and anything else that will add to the color of the occasion.

Tickets have been distributed and are available from all Kiwanis members.

Laziness explains more failures than ignorance, but the combination is catastrophic.

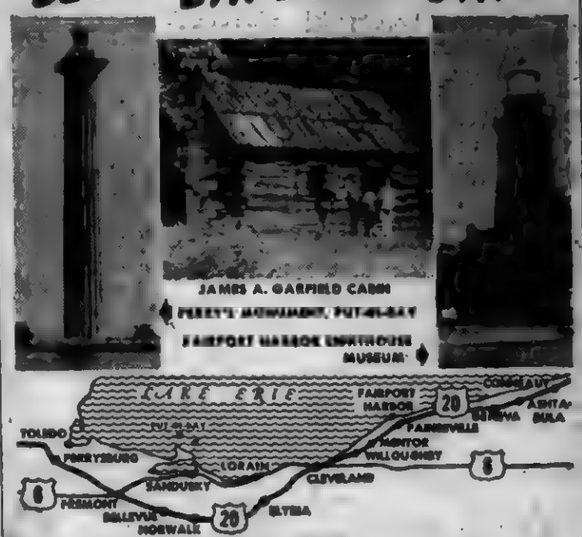
FISHING IS FINE

For just about the fastest fishing found anywhere, Division of Wildlife officials are urging Ohio fishermen to take advantage of the white bass fishing in the Bass Islands area of Lake Erie. This fishing should be at its peak for at least several weeks.



NO CHANCE

"Are you unmarried?" inquired the census man.

"Oh, dear, no," said the little lady, blushing. "I've never even been married."

If you agree with everything the editor writes, you have no more sense than the editor.

LET'S EXPLORE OHIO

In early America, civilization rode the beaver clear to Oregon and California, and the Ohio shore of Lake Erie was a starting point on this international push westward.

It was the rich fur trade, based on beaver skins, that led the French westward through Canada and the British westward through what is now the eastern United States. As the beaver diminished north of Lake Erie, La Salle, who held a fur trade monopoly at his trading post above the Lachine rapids of The St. Lawrence River, launched his famed explorations southward.

Today as one drives across Ohio along Routes 20 or 6, which follow closely the Lake Trail of the Indians, it is difficult to believe that three centuries ago this populous country was known only to the Indians who hunted here and that two European nations would fight bitterly over its possession in the French and Indian War.

La Salle, probably the first white man to see Ohio, left Montreal with a party in seven canoes on July 6, 1669. Two and a half months later, they landed on the Ohio shore of Lake Erie and struck inland to a small Iroquois Indian village toward the head of the Grand River valley, possibly not far from the present city of Warren, Ohio. There he met Jolliet. Some of La Salle's party established headquarters near the mouth of the Chagrin River and spent the winter in a cabin below the city of Willoughby.

La Salle, however, went overland, probably to the Mahoning River and on down the Beaver and the Ohio River as far as the present site of Louisville, Kentucky, and returned by somewhat the same route. Ten years later, he was to build his 45-ton Griffin in the Niagara River and sail this ship along the Ohio shore, up the Detroit River and through Lake Huron to the Mackinaw Straits.

British fur traders in their dealings with the Iroquois Indians, penetrated the northern Ohio Country in scattered parties who travelled the Lake Trail of the Indians, but it was not until 127 years later that Moses Cleaveland and his Connecticut Land Company advance party established the city of Cleveland and started the wave of migration of settlers from the eastern Colonies that eventually populated the lands of the Northwest Territory.

The century-old Matthewson at Fairport Harbor, now a museum, stands on the Lake shore where La Salle probably trod on his first expedition to the Ohio Country. At Mentor is President James A. Garfield's home and a reproduction of the log cabin where he was born. This property, a State museum under the jurisdiction of the Ohio Historical Society, today is one of the popular tourist attractions on Route 20.

Vacation Time Is Fun Time If You Try To Live Carefully

It is hard to believe, but it is true, that more persons drown in July than are killed in any one type of traffic accident. Most of the victims are under the age of 45. A surprising number of them were wading. They stepped into a hole, fell and submerged.

Swim or bathe, even wade, only at locations where lifeguards are available. Each party should include two good swimmers. It is a good idea to have one of these swimmers ashore while the other is in the water.

Boating Tips

Boaters must remember that the boat tips easily. Stay low in the boat. If it is necessary to move, grasp some part of the boat while you move. If the boat is disabled, or overturns, STAY WITH THE BOAT! Your plight will be noticed sooner . . . and you can remain afloat far longer than you can swim.

Each boat should have a buoyant cushion, life vest or life preserver for each person in the craft. It is a good idea to take such aids along on a swimming party too.

The most frequent traffic accident will be a collision between vehicles. Keep ample space between your car and the one in front. At least six times the length of your car on an open road.

Signal your turns at least 500 feet before you reach the spot where you want to turn. Honor turn signals of others, by reducing speed or changing your course so the other driver knows that you are aware of what he intends to do.

You may avoid considerable discomfort and a prominent type of accident if you wait until you can see that the road is clear ahead before trying to go around another car. Many sideswipe collisions result from improper passing. At least one-quarter of a mile is needed to overtake and pass a car on the open road.

Many of July's pedestrian injuries would never occur if persons walked on the left as the signs warn them to do.

Careful—Children at Play

Motorists must remember that pedestrians will be numerous near recreation parks and playgrounds. For the next three months youth will be scattered through communities instead of being concentrated around schools.

Keep speed below legal limits in all areas but particularly in residence districts. Special caution is needed near shopping centers. You would be surprised by the number of persons walking just a few hundred feet from such locations.

Ohio's accident record to date is a little better than the national experience, and quite a little better than a year ago. "We are saving around 20 lives a month in the state," Henri Marc, president of the Ohio State Safety Council, told us, "but we can save twice that number if we just take a little more time, to get where we are going, and use a little more discretion in what we do. Help save two lives a day—one could be yours."

Astons Vacation In Washington And Virginia

Mr. and Mrs. John L. Aston, 503 S. Harris-av and Mrs. Francis P. Long, 1260 Thornwood-pl, recently returned from a vacation to Washington, D. C., where they visited with Mr. Aston's niece, Mrs. William Russell and family of Chevy Chase, Md. They also visited Mrs. Earle Knott, Jr. and Mrs. John Sims, both formerly of the Hilltop.

From Washington, D. C. they drove to Williamsburg, Va., and spent two days there visiting the restored areas of Colonial Williamsburg. Their vacation was concluded at Virginia Beach where they participated in the activities of this resort.

On their return trip to Columbus they stopped in Buena Vista, Va., to visit the Rev. and Mrs. S. Talmadge McGann, former pastor of Hillcrest Baptist Church.

Nature Can Bring Disaster To Best-Laid Holiday Plans

Chiggers, sun and poison ivy can ruin even the most expensive, well planned vacation. And the three factors can throw you out of good operating condition for weeks after as well.

Keep in mind a few simple rules of caution to make the holidays one to be remembered, not regretted.

Chiggers, also known as "red bug," are tiny mites found in fields, woods, along stream banks—almost any place where there's uncultivated greenery. You can't see them easily, but you can sure feel them. They burrow under the skin, causing red, irritating welts. If you're thinking of going down a pretty, narrow path overhung with weeds, just recollect the old camping song:

"There was a little chigger
And he wasn't any bigger
Than the point of a very small pin,
But the bump that he raises
Just itches like the blazes,
And that's where the rub comes in."

It'll also help to keep your skin covered with clothing. Consult your druggist for insect-repellents, too, specifying chiggers.

Chiggers are bad enough, but too much sun is worse. Even those who have been sunburned before often forget their beetish skin and painful tenderness. Here's how to go about getting your tan the easy way this year:

Don't lay out in the bright sun (from 10 a.m. to 3 p.m.) any longer than 20 minutes the first day.

Don't depend on oils and lotions to prevent sunburns.

Take extra care to shield the skin when around sand or water, since these substances give added reflection of the sun's rays.

Take your time developing a tan, because it may be weeks before you can stand unlimited sunlight if you've burned yourself the first day. The average brunette skin can be sufficiently browned in a week; persons with light or blonde skin take a little longer.

Complications of sunburn are serious, and may be disastrous to the gal who's interested in beauty. Sunburn complications may do such ugly things to your skin as causing increased thickness, freckles, dryness, roughness, cracks. Sunlight also may be the beginning or aggravation of dermatologic conditions.

Society News Deadlines Set

The Hilltop Record society department is endeavoring to provide an enlarged and improved service to its many readers. In order to accomplish this and insure that weddings, engagements, club notes, and women's activities receive the attention in Record columns they so richly deserve, it has become necessary to restate sub mission deadlines for contributors.

Pictures which contributors desire to appear on these pages must arrive at the Record office by not later than 9 a.m. Monday for publication in the same week's paper.

Church notices and news of church activities must arrive not later than 9 a.m. Tuesday.

Deadline for the arrival of news of clubs and other women's activities has been set as 10 a.m. Tuesday.

Because of space and time limitation, only those contributors who meet these deadlines can be assured of fullest consideration for publication.

Ideally, wedding and engagement pictures submitted for publication should be glossy prints not larger than 5x7 inches. If pictures are larger and their owners will not permit them to be trimmed, a special engraving fee must be charged. Otherwise, the service is free.

By Pauline Howell
BR. 9-3786

With increasing popularity as the summer progresses, swimming is the favorite sport at Westgate Manor. This is all because there is a pool within the Manor provided for the tenants' use by the management. Highlight of the pool's season will be a visit by Olympic swimming stars.

Returning from Carnegie, Pa., last week were Mrs. Steve Shank and her two children, Maurene and Steve. Their two weeks were spent at Mrs. Shank's former home.

With Peg Warren:
About The Hilltop

Will you have it rare, medium or well done? While Russian farmers are studying our agriculture methods, Kathi Norris of Newark, GE television star in New York, made history flipping the first atomburgers and down in the rugged mountains of Tennessee, Mrs. Emory Harrison, farm wife and mother of 18 boys, like the cave woman, cooks the evening meal over firewood.

This summer, Master Robbie Stewart Van Orders has been vacationing with his grandparents, the Bob Van Orders . . . During their stay in Pasadena, the Floyd Martins had a first row seat watching Hollywood directors shooting a picture directly across the street from where they lived.

Our vote goes to Patty Sherlock, latest entry in the Central Ohio Bathing Beauty contest at Buckeye Lake. Patty is a clerk in Ray Schaefer's office at the Court House . . . Donald E. Bright, US Marine who has been stationed in Hawaii, is back in "civvies" again and is now associated with Westinghouse . . . Get well wishes to Neil Severns, a recent heart victim. Neil is a member of the Grotto band and a patient at University Hospital.

Agnes Seidel, clerk in the Bureau of Natural Resources, broke her leg at Buckeye lake; she is now recuperating at home . . . The Billy Pickelsimers are knitting tiny garments.

William Seibert of Painesville has joined the faculty at West High. Back in their college days, both Mr. and Mrs. William Seibert were student teachers at West . . . Newly elected officers of the Senior Hesperian Club are Mrs. Norman Edbing, first vice president and Mrs. Curtis G. Wilcox, treasurer . . . Thursday evening, Mrs. W. G. Pemberton will be hostess to members of Guild 9 of St. Ann's at a dinner party in her home . . . Sgt. Robert Gibson is due home from Japan . . . The Charity Newsies will hold its annual stag outing at Beulah Park Sunday, July 31. Serving on the committee are Bill Krause, Lee Weigand and Warren (Scoot) Boyd.

Growing Hilltop To Have Increased Transit Services

Re-routing of the Hague-av and W. Mound-st bus lines have been approved by the City Traffic Commission, according to Edward A. Pelliser, vice president of the Columbus Transit Company.

The service which is expected to be included within three weeks should give Hilltoppers better service and faster transportation.

Commissioners approved the Hague-av route to serve the area between Mound-st and Valleyview. A loop from Hague-av, extending west to Wiltshire-blvd, then on to Sullivant-av and east to Hague-av and returning to Valleyview.

Changes of the Mound-st route will take the buses along Mound-st to Binns-blvd, north to Sullivant-av, west to Huron-av, north to Wicklow-rd, west to Demorest-rd, south on Demorest-rd to Sullivant-av east on Sullivant-av to Binns-blvd, and then continuing on its present route.

around seeking first place in the events.

Bob Napier and The Hilligans of radio station WRFD presented the first session of musical antics and the Hillbilly Frolics presented an interesting program delighting many young and old.

Four baseball games were in practice all afternoon climaxing their efforts in the Slo-Pitch League softball games in the evening.

Most energetic sport were those engaged in boxing. From the tot to toddler, from youngster to youth, all battled away seeking a decision, most came up with a draw.

Wrestling too offered a highlight to the evenings entertainment. Following the enthusiastic program offered to everyone, at 10 p.m. happy, tired, parents and youngsters left the park in a cloud of dust, thinking only of returning on Wednesday for the final day of a most memorable festival.

Kids To Fish Again At Ohio State Fair

Kiddies' fishing at the state fair this year is again being sponsored by the Ohio Division of Wildlife, Department of Natural Resources. In announcing the kiddies' fishing, Charles A. Dambach, chief of the division of wildlife, said children up to and including 13 years of age will be permitted to fish for periods of one hour. Fishing will continue throughout the eight days of the fair, except Sunday morning, beginning at 9 a.m. and continuing until 5 p.m. There will be no fishing during the lunch period each day (12 noon to 1 p.m.).

As in the past, the division of wildlife will furnish all equipment necessary for fishing, including poles, bait, etc. For those children who expect to remain on the grounds for some time after fishing, their fish will be wrapped and kept on ice. Fish so wrapped must be called for before 5:30 each day.

It is hoped, said Dambach, that the fishing this year will be educational for the children as well as entertaining for the viewers. Division of Wildlife field men will be on hand to assist the youngsters and to tell them how to identify the various kinds of fish and how to bait their hooks. The children, however, will be expected to bait their own hooks and land their own fish.

In preliminary planning for the 1955 state fair, division of wildlife officials had hoped to be able to teach the youthful anglers the proper use of fly-casting, bait-casting and spinning tackle. It was felt, however, that due to the condition of the lake on the fairgrounds, the kinds of fish necessary for the success of a program of this kind might not survive. Considerable expense would also have been involved in re-designing the area for the safety of both participants and spectators.

The master plan for expansion of the state fairgrounds may possibly include a new lake, somewhere north of 17th avenue. If and when this becomes a reality, the division of wildlife will be able to put forth an extensive educational program for Ohio's future fishermen.

Two Events At Bean Dinner

With a right to the chin and a left to the shoulder the boxers exhibited excellent skill as they fought Tuesday night at the Hilltop Bean Dinner Boxing Fete. Wearing T-shirts shown above battling it out are Billy Weaver vs Harry Collins. The fight was a draw.

With every good bean eater was the desire to know the condition of their physical wellbeing. Shown above are two young ladies questioning the operator of the TB chest X-Ray cruiser at the park. Cubs Take Dodgers 3-0

The previously undefeated Dodgers went down to defeat at the hands of the Cubs 3-0 in the Hilltop YMCA Little Nine Baseball League.

Bob Saint held the powerful Dodgers to only three hits as his teammates went on to get to loser Glen Rohrer for four safeties. Singles by D. Rohrer, Grove, and a walk, and a double by Saint sewed up the game as the Cubs scored all their runs in the last of the fifth.

The Cards kept up their pace as they defeated the Redlegs 6-0 and climbed into a tie with the Dodgers for first place. Don Henne held the Redlegs to one hit and struck out 13 batters. He also led the attack against losing hurler Bob Timmons with a double and a home run.

In the closest game of the week the Tigers handed the Yanks a 5-4 set back. Hill started on the mound for the Tigers and received credit for the win, but he needed help from Terry Linson in the fifth inning as the Yanks put together four hits to score two runs. Thornton was tabbed with the defeat.

The Indians dealt the winless Braves another defeat by the score of 9-4. The game was tied up at 4-4 after three innings, but the Indians scored three in the fourth and two in the fifth to hand the Braves their fifth set back. Levering was the winner with the loss going to Barnes.

32 Years 'At Same Old Stand'

A TRADITION—Otis Houbler, left, and Bud Frester, right, "on the job," in Frester's Market, 1339 W. Broad-st, are a familiar sight to many West Siders.

As community business men know very well, a local merchant must really earn the respect and cooperation of his neighbors to stay in business for any length of time. There can be little doubt of the opinion West Siders have of Bud Frester; he has been doing business at the same old stand for the past 32 years.

Formerly known as Lower's Market, Frester worked in the store when his stepfather owned it and has been operating it himself since Lower's death. He and his wife, Bertha May, live at 40 Algonquin-av and the couple has one son, Karl.

Otis Houbler has also worked at the market for the past 32 years. He and his wife are residents of 427 S. Burgess-av.

Frester attributes his enviable business record to "The patronage and friendly cooperation of the residents of the West Side."

A Cowboy and Indian Day will be held this Thursday, July 28, at Glenwood Recreation Center. All children and their parents are invited to attend. There will be games, contests, and prizes for all participants and winners. The ceremony begins at 7 p. m.

The children are making Indian head dresses in their craft classes, along with other articles, representative of the cowboy and Indian era, that will be used during the special event.

Many of the children have been busily working on a table display of a "Fort Apache" and a "Cherokee Camp", which will be on display.

The children working on the "Fort Apache" are Mary Jo Blackburn, Sarah DeVore, Phyllis Bergman, Paul Vencill, Jim Bentz, Danny Echols, and Jo Liston. Those working on "Cherokee Camp" are Cynthia Echols, Linda Humphry, Tom Liston, Mike Shaffer, Fred Miller, and Ruth Wheeler.

No Time For Petty Politics

Most men will give their lives and blood for their country, for love and for their children. Soon the choice of qualified administrators will be given to voters when they select the tState Board of Education.

It might be so easy to go off the deep end and think of only the political advantages in such a position. One might think, "Where would this position lead . . . how much political pull would it give me . . . how much personal gain can I get out of it?" These and other reasons may cause a person to seek the office.

If any ONE or more of these reasons is the cause for any man (?) seeking candidacy to the office, then he is far from desirable in the position.

These are years of education. If a man has not completed high school nowadays he has little to recommend him for employment. If he has not completed some college he could not even hope to go high up the ladder of success in this highly educated society and mechanized world in which we live.

Education makes a people easy to lead, but difficult to drive; easy to govern, but impossible to enslabe. If a man has the highest interests of the growing youth of our great state in mind and is interested in giving Ohio one of the best educational programs in the nation—THEN HE IS THE MAN FOR THE JOB.

Voters must choose carefully whom they want as a candidate for the Nov. 8 election. Emerson pointed out in his essays, "What greater gift can we offer the republic than to teach and instruct our youth?" Surely this is the aim of our society. To have an informed people who will be able to vote wisely, live wisely and justly.

Nothing comes by chance, for, in all the wide universe, there is absolutely no such thing as chance. We bring whatever comes. If we are not satisfied we are at fault.

In the 12th congressional district of Franklin County voters will have an opportunity to choose a person vitally interested in education to be on the board. Who that man will be remains to be seen.

Some districts in Ohio will not be so fortunate as to have men of high education available to serve on the board. In a university city and county it is much easier to find one who will serve.

It must also be remembered that just because a man has a good education he may not appreciate it. He may not have used it wisely and may therefore fail to see its true value. On the other hand, he may have used it too fully and failed to recognize the humility which must go along with a good education.

The State Board of Education will set the over-all policy of the public school system in Ohio. It could become dictatorial if it got out of hand, and destroy the autonomy of the local school district.

With 23 top men chosen to lead the state educational program only the finest schools should evolve in Ohio. Ohio has fine schools and the best men should now be serving the school boards in each community. To maintain this effective and highly progressive educational system in the state the voters must study the candidates who have their candidacy in on Aug. 10 and be "ready to vote on Nov. 8."

IF OHIO IS FOUND WANTING IN YEARS TO COME BECAUSE OF INADEQUATE SCHOOLS THE BURDEN WILL LIE ONLY ON TE VOTERS' SHOULDERS. The choice of the voters for men to head the State Board of Education must be a good one.

Our children deserve and demand the best in education. We can give it to them through our thorough and thoughtful analysis of candidates. Look them over well.

Don't Trigger Disaster

One Man's Opinion

From THE EDITOR'S DESK

Is the Hilltop missing a bet by not getting behind the proposal made by one of its members to perpetuate the Sullivant Avenue Airport?

Recently Gomer Jones proposed to the City of Columbus that they purchase the airstrip and use it as a municipal feeder strip. Throughout the nation large cities are realizing the need for feeder air strips in various areas of their cities.

Jones said that he wanted to sell the field to the city because of what the future might bring in encroachment onto the property. He also said the field could be forced out by housing developments not necessarily by mutual purchasing interest on the part of the airport owner and subdivider.

If Jones wanted to, he could sell the entire landing strip and get a fine price for it from some realter. He is too vitally interested in the future of aviation to allow an airfield which has proven its worth time and again to be swallowed up by housing. Future needs would prove that it should have been held open, but the field would no longer be there then.

He asked that the Hilltop Business Association help him put the point across to the city. With their help, he stated, the city might purchase the field.

The air traffic needs for small airfields out away from major city airports are needed. Jones has letters indicating the growing need from Chicago's Midway Airport, Maitland Airstrip in Milwaukee, Detroit City Airport and Lunken Airport in Cincinnati.

According to the letters the need for private, business or civil use is growing tremendously. Since 1944 the increase was steady as shown from 6,461 in Cincinnati to 39,422 in 1953.

Through the financial assets and income of the fields are not jumping by leaps and bounds there has been a steady increase in use and income at the fields.

Because of this we feel that all the Hilltop should get behind preserving the Sullivant Avenue Airport. The best way to do that is to seek city ownership.

World Mutual Trust and Faith

How apropos that the nations of the world meet on "the summit" in Geneva to discuss world problems. Let's sincerely pray that success crown their meeting . . . that now after it is all over good relations between nations may grow.

The major challenge tackled at the Geneva meeting was disarmament which has worldwide appeal. The word is a misnomer, to be sure. Arms control, arms limitation, arms reduction are all more realistic terms for the goals that can be seen or even imagined for this generation.

"Operation Summit" has given the first signs to the world of mutual trust and faith and must never be looked down upon. Never in history could the successful conclusion of a meeting have meant so much. Never has man been menaced by a single weapon as the H-Bomb. Never before has the cost of armaments borne so heavily on so many people in so many countries.

Conclusively, never before has the opportunity for the good of mankind been held on a pinnacle with only diplomatic relations and good common sense stabilizing the air about it.

Mutual security could mean salvation for the world. If the plan proposed, of limited arms with international inspection to maintain or insure compliance is upheld, a better world must evolve.

God has guided the men at the summit. May their works end in a lasting peace or at least mutual trust and faith.

For the Good of Schools

The voters will pass upon the proposed $100 million bond issue on the November ballot, one-half of which is earmarked for the purpose of resolving critical school building problems in financially distressed districts, providing State university facilities, and other capital improvements which may be needed urgently. The bonds will be retired from the proceeds of an extra one cent per pack tax on the sale of cigarettes.

Appreciative of the services rendered by Ohioans in the Korean War, the Legislature authorized submission to the voters of a proposal to pay Korean veterans a bonus up to $400. This should meet with approval by everyone.

It was hard enough for the boys to fight a war which was confusingly unintelligible in the beginning. It is not so difficult to fight a war when we are threatened, but it is more difficult when some far off land is threatened. The young lads, who so nobly upheld the honor and faith of America in the UN and in the freedom loving men all over the globe, are to be congratulated.

Sheriff Cleans Jail

When a man is confined to a jail it is supposed he will find a Gideon Bible, a clean cell and courteous officials.

It seems in a North Carolina jail lurid reading matter was to be found in some of the jail cells. The sheriff lately has banned from the cells, comic books featuring sex and violence "and the kind of stuff that gets so many people into trouble."

From now on, the sheriff said, "the prisoners will have something to read they can profit by."

"And that," he added, "means the Bible. If they read that, it'll help them."

It Costs Money

The rapid growth in school population has been of considerable importance in increasing total outlays for education. Between autumn 1949 and autumn 1959, the number of persons between the ages of 5 to 17 who were in school increased by about 12 percent while a 6 percent increase in the population generally.

Education expenditures by state governments however, rose somewhat faster than school population, and outlays per student increased from $317 in 1929 to $143 in 1954, a gain of 22 percent.

In Columbus

In 1954 there were 19,177 babies born in Columbus. Ninety were not born in hospitals.

In Russia

We like the story that's making the rounds concerning the man who lived in the Russian zone of Germany. He was arrested for having foreign matches in his possession.

The judge said to him, "Foreign matches have been found in your possession. What have you to say for yourself?"

"Well, your Honor," stammered the prisoner, "it is true that I use foreign matches — but only to light government matches!"

Along the Great Lakes

A Green Bay man who is a great believer in efficiency hung up a sign in his office one day last week.

It read: "Do it now."

Within 24 hours, the cashier had bolted with the contents of the safe, his stenographer eloped with his eldest son, and the office boy threw the ink bottle into the electric fan.

Signs . . . Bah!

In Passing

By Esther Weakley

SUNDIAL

The boy he upon the hill, grew tall
And propped a shoe hammock fast against the sky
He got a blade of grass between his teeth
And whistled, and listened to it for July.

The day had lunged him in other men.
Somewhere, a bell rang, he heard the clock.
The boy crumbled the sunlight on his nose
And with a yawn, watched it be two o'clock.

Mail — From a well - known writer: I keep sick. That's the price us geniuses pay — we always get one thing or another. "Those people are always sick" (Quoting the man in the street.) "You people of the higher mental type are the hardest hit." (My doctor.) "That kind hangs on forever." (From all sides.) We should worry. Nature takes it out of our bodies and puts it into our brains. We are incredibly more sensitive than other people. They said of Heinrich Heine, ill for years, "What other people feel as pin pricks, were daggers to him." . . . This writer should speak for herself — she is a genius; I ain't. The worst that ever happens to me is poison ivy! . . . From a Columbus school teacher: Everybody thinks we teachers have it easy in the summer. They should follow me around one day. I'm "helping" in a girls' camp this summer. We rise and shine at 5:30; after breakfast at 6, I supervise the making of a lot of beds; help write letters home; put salve and other medication on assorted bumps, chigger bites, cuts, scratches; supervise the laundry; see that ears are clean and hair is brushed and settle arguments; hike; swim and read stories. Now I know how the old woman felt who lived in the shoe. I love it but my REAL vacation will start the Monday after Labor Day . . . From a vacationing friend: I'm down here in the mountains, eating too much, seeing too many snakes and getting myself exposed to a southern accent.

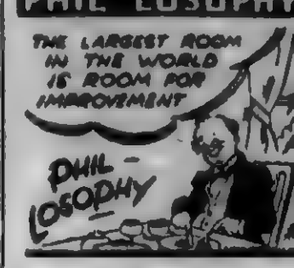
Teen Troubles

By John Douglas, M.D. and Mary Douglas

Question: I don't believe parents are always right. What do you think?

Answer: All human beings make mistakes. Even parents. However, the thing for a son or daughter to remember is this: A parent's judgment comes from a wider experience than his child can possibly have.

Parents know all the mistakes that are so easy to make — and the painful consequences that usually follow. Parents have already made these mistakes. Or they have watched others make them. And, believe me, they only want to help you avoid them while you're having fun.



If you really feel that your parents are too strict — or that they are unreasonable — try talking it over with them. But before you do, be sure to make a list of questions to be discussed and answered. For example:

1. Is the matter really important? Or is everybody just trying to have his own way — for he heck of it?

2. Is the parents' objection based upon calm, sound reasoning and concern for their child's welfare? Or is it simply that they want to show who's boss?

3. Is there really some potential danger in the thing the child wishes to do? If so, what is it? Discuss it. Bring everything out into the open. In this way, parents and child can come to a better understanding of each other's motives and problems. They can become friends and allies. They can work together — instead of against each other — to achieve the thing they all want: the child's happiness.

A Good Example Is Worth A Thousand Arguments
Youngsters learn readily from observation. Hence it is well to start your boys to the YMCA at an early age. YMCA boys usually attend Sunday School and Church. And as they attain their teen years they want to associate with girls under similar environments. You find very little delinquency among this group.

By Harry Grashel

The three top contenders for the first round title, Westway Post VFW, Hilltop Kiwanis and Grashel's Burgess and Broad Mobilgas continued to dominate play in the Hilltop YMCA Old-Timers Softball League.

Westway Post VFW dumped Glenwood Methodist 13 to 8 as Bendetti and Ryan led the attack. Blythe, Buckiew and Hayborn hit hard for Glenwood.

Hilltop Kiwanis Club blasted Westgate E.U.B. 15 to 6 with Nash, Best and Johnson each tallying three runs for Kiwanis while Venins scored three for Westgate E.U.B.

Grashel's Burgess and Broad Mobilgas had an easy time with Hillcrest Baptist, scoring at will to win 15 to 8. E. Grashel, Liston and Jones were the top sluggers for the Flying Red Horse team with Roth and Gurina starring for Hillcrest.

West Park Methodist had a fast 45 minute game with Northway Post VFW with the Methodist winning 8 to 5. Laughlin and Brownfield supplied the West Park punch with Cochran, McGuire and Hoffman leading the VFW hit parade.

Hilltop Lions reversed a first round decision by thumping Diamond Milk 23 to 14. Strickler, Edgar and Case were outstanding for the Lions. Judy, Kiarman and Price starred for the Milkmen.

Next Friday evening at Westgate Park, Westway Post VFW and Grashel's Mobilgas meet in a postponed game that may decide the first round championship.

Cowboys, Sabers Lead Little Jets At Glenwood

Bill Karn gave up only two hits as the Sabres romped over the Indians 12-0 in a Little Jet League contest at Glenwood Recreation Center on July 18.

The Sabres took a first inning, 8-0, lead, and then failed to score in the second and third innings. The fourth inning, however, proved to be disastrous for the Indians as the Sabres pushed across seven more runs.

The final statistics are Sabres, 12 runs, seven hits, no errors, Indians, no runs, two hits, and five errors.

The Cowboys continued their winning ways by walloping the Eagles, 15-0. Mike Mental of the Cowboys also pitched a two hitter.

Pat Mental, Jerry Jaynes, and Terry Briggs were big guns for the Cowboys as they all had a field day at bat.

It was 15 runs on 11 hits with no errors for the Cowboys, and no runs on two hits and five errors for the Eagles.

The Indians smeared by the Eagles 12-11 in another contest July 20. The Eagles took a first inning lead of 3-2, and held it until the third inning when the Indians blasted home seven more runs to go ahead, 9-3. In the Eagles' half of the fourth inning, however, they brought the score up to 9-7.

It was three up and three down for the Indians in the fifth while the Eagles forged ahead 11-9. The Eagles failed to score in the sixth inning. The Indians tied the game up on a double by Eddy Diedrich which sent two men across the plate. Bill Whitis then smacked a clean double in right field, sending Deidrich home and giving the Indians the ball game.

It was 12 runs on eight hits with six errors for the Indians, and 11 runs on nine hits with five errors for the Eagles.

Harold White was the sparkplug for the Eagles as he collected four hits for four times at bat. Pat Purcell, Eddy Deidrich, and Dick Dildine each collected two hits apiece for the Indians.

Avondale Takes Hillcrest Baptist

In last weeks activity in the YMCA Intermediate Church Softball League only one of the three games was completed with the other two ending in ties.

Avondale EUB defeated the luckless Hillcrest Baptist Nine 8-5. Hillcrest rallied for four runs in the last of the seventh, but this wasn't quite enough. Potter was the winning pitcher and Kunz the loser.

The Thomas Avenue Church of Christ and the DeMolay team ended up in a 14-14 deadlock after the regulation seven innings. West Park Methodist and Westgate EUB ended up with a 7-7 tie after eight innings of play. Both of these games will be continued from the point at which they were called off at a later date.

West Park Methodist Beat West Junior Hi-Y

Two slugfests took place in the Hilltop YMCA Junior Church Softball League last week. West Park Methodist beat the West Junior Hi-Y team 19-14. In the other game Glenwood Methodist retaliated from their defeat two weeks ago as they trounced Hillcrest Baptist 23-14.

Williams got credit for the West Park win while C. Williams suffered the setback. Tittle was the winner for Glenwood and Reynolds was the loser.

Team Blue Noses Nosed Out 19-13

The Glenwood Recreation Center Blue Noses were out-slugged Friday, July 22, on the Glenwood diamond, 19-13, by Sullivant Gardens in an intermediate boys softball contest.

The game was a sluggers battle all the way. The Sullivant Gardens hitters were able to get 15 hits, while the Blue Noses were able to gather only 10. The Blue Noses now have a record of one win and one loss.

The junior team was forced to forfeit.

Serepta Marsh Is Pioneer In Education

By Gilbert F. Dodds

One of the pioneer women educators of Central Ohio and Franklin County was Serepta Marsh, the first principal of the Worthington Female Seminary. The seminary building, located on High-st in Worthington near the business center, is still in a good state of preservation and is easily recognized by its brilliant red brick front and Colonial three-story portico.

Before Serepta Marsh came to Worthington she conducted a private school for girls at Chillicothe. While at this school she found time to visit her sister, Mrs. Maltaby, in Worthington and discovered that the people in the area were very much aware of and interested in the real value of education. As a result of her findings, she decided to close her Chillicothe school and open a school for girls in Worthington.

Miss Marsh began teaching in a one-room flat on a side street in Worthington, but the off-location was not sufficient to keep her from public recognition. The success of the one-room school for girls was voiced throughout the village until the local Masonic fraternity, realizing the value of the teacher's ability and leadership, rented her the lower floor of their building. The move enlarged the enrollment of the school and added to the success of Miss Marsh's efforts. She continued the school in this location for almost two years.

During this period (1835), the Rev. Jacob Young, a presiding elder in the Methodist Episcopal Church, was assigned to the Franklin County district. He felt that a great need existed for a female seminary in the area. When he finally visited Worthington he found the people there keenly interested in his project. There he also found Serepta Marsh who was conducting her own school in the Masonic building.

He promptly told her about his plans for a female seminary and asked her to take over its supervision. Since she was a Methodist she easily obtained the endorsement of the Methodist Conference at Xenia to supervise the Worthington school. Shortly thereafter the Worthington Female Seminary was granted a charter by the State Legislature.

Several years later, Miss Marsh married the Rev. Henry Maker and terminated her service as principal of the seminary.

The building continued as a seminary for many years, but largely because of the co-educational program at Ohio Wesleyan University, less than 13 miles distant, the school was discontinued. Today it is used as an apartment.

The exterior of the W. W. Kendall home, 4765 Hayden Falls-rd, combines buff-colored stucco and creamy Glenmont cut limestone. The eaves are painted brown. The awning type aluminum windows throughout the house have marble sills. Red geraniums in the planter in front, and white and pink petunias on the side of the house add extra color accents. B TAFT Photos

In the Kendall living room walls and bark-textured carpeting are Sahara brown while the furniture lends accents of green, gray and deep red. At left, on the wall, is one of the increasingly popular illuminated Kodachrome pictures. At right is the front door and a guest closet with louvered doors.

Outstanding feature of the all-electric kitchen is the ceiling of fellow translucent plastic panels with neon bar lights above. The effect is one of sunlight from overhead. From left to right the appliances are refrigerator, range, electric dishwasher, hot water tank in corner, sode-cover, washer and dryer.

W. W. Kendall Home Has Many Unusual And Modern Features

The home of W. W. Kendall and family, 4765 Hayden Falls-blvd, is a compact and efficent modern style home with lots of space devoted to family living.

Former Hilltoppers, the Kendalls lived at 172 S. Roys-av. The head of the household is employed in the loan office of the Huntington Bank in downtown Columbus. He finds the commuting distance to the home just off Dublin-rd and not far south of the Dublin community not too much of a daily drive. When he arrives at the compact one-floor plan house he finds lots of space in which to relax.

Son David, 16, who will be a senior at Hilliards High School next year and Mrs. Kendall, too, have ample space in which to entertain either formally in the pleasant living room, or more informally in the "family room", which steals the heart of every visitor. The Kendalls' daughter, Sally, is Mrs. Edward Thomas and lives at 2078 Sullivant-av.

In the living room, which one enters as one steps over the threshold of the front door, the smooth walls are painted Sahara brown. By way of contrast the carpeting is bark-textured but in the same color. The sofa is light green and has the same geometric pattern in satiny threads as the gray chair near it. A comfortable red plastic upholstered chair with matching ottoman, mahogany coffee table, TV set, and a green occasional chair which the Kendalls had in their first home completes the living room furnishings.

The whole south side of the living room is an unusual fireplace of cut limestone. Limestone slabs form the raised hearth for the corner fire well and there are narrow what-not shelves fashioned of the same limestone in lieu of a mantel shelf.

Living room ceiling lines follow the lines of the gable which may be seen in the exterior view of the home.

Sliding glass panels may be opened to provide glimpses into the adjoining family room or may be closed and covered with draw drapes to exclude the sound of the living room television from the family room or give it complete privacy.

The room which the family practically "lives in" is panelled in butternut-finished white pine. In the dining area of the room the furniture is bleached maple which gleams with a soft glow. Across the room, well-lit with five windows and a back door to the outside, is a group of lounging furniture consisting of sandalwood upholstered sofa, light coffee table and end tables with Formica tops, and a butterscotch-colored plastic-covered lounge chair.

Draperies in the family room are brown, coral and gray.

The floor here is cork tile with darker brown cork inserts in the pattern.

On the mantel shelf is a frosted panel which may be removed to make a mantel planter. Or, if left on, it may be lighted from below and shows to good advantage the plate and candlesticks sitting on the mantel. Mrs. Kendall planned this innovation.

A large storage room is situated at one end of the family room and is closed off from it by double, louvered doors.

The all-electric kitchen is small and efficiently arranged but the feature which appeals most to all visitors is the yellow plastic (Corelux) translucent ceiling lighted with flourescent bulbs above the panels, which Kendall designed and helped install. The effect is that of sunlight night and day. Floors are of yellow and brown jaspe linoleum.

A small den is panelled in dark Philippine mahogany and has gay roses blooming on beige draperies at the window. The floor is cork tile.

Each of the two bedrooms has bleached mahogany furniture. The woodwork, including the louvered double door closets, is of birch.

The master bedroom has light green walls, and with beds with white chenille bedspreads. Deep red roses and green fern fronds decorate the white draperies.

David's bedroom has the same Sahara brown walls as the living room and masculine - type plaid cotton draperies.

The bath is unusual in that the floor has the same gray ceramic tile as the walls. Above the partly-tiled walls is a cool blue-gray paint. Gray terry cloth fashions the draperies, and the blue rugs and gray porcelain fixtures help make the bathroom outstanding.

The Home of the Week

By Elsie Ireland Weaver

The "Family Room" of the Kendall home is admittedly the most popular room in the house. Here the family reads, relaxes, eats, entertains informally and may group around the open fireplace on cold winter nights. Note the draw draperies on the left; they may be drawn across glass panels which close off the room from view of the living room.

Opposite the picture window in the living room is the huge Glenmont limestone free-standing fireplace. Entrance may be gained to the bedroom hall by going behind the fireplace on the right and just visible in this picture. Opening onto the hall is a closet and the utility room, both contained within the fireplace "block."

Size of Coal Bin Very Important

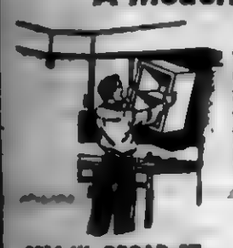
If you are using coal or coke for fuel, it is desirable that your coal bin be large enough to hold the entire winter's supply of fuel. The coal bin should also be conveniently located so that it may be loaded from the outside. It is easy to determine the size of the coal bin you need when you know that a ton of anthracite coal will require about 40 cubic feet of space. If you are using a stoker to fire your furnace, it is wise to have the coal bin directly in line and in front of the furnace. In this way stoker may be fed directly from this storage space. This is particularly useful if you want to use a bin-fed type of stoker.

Hand-Fired Heater Can Have Automatic Control

Three out of four centrally-heated homes in the United States have no automatic control of the fire, says the Plumbing and Heating Industries Bureau. Modern motor-operated draft controls make many of the advantages of automatic heating available to the owner of a hand-fired heating plant. Automatic draft controls are available in a complete package consisting of damper motor, transformer, thermostat, limit control, wire, and the necessary pulleys and chain.

Garden Chrysanthemums Require Early Attention

There are few showier plants than the garden chrysanthemum. Those growing in the perennial borders should be uncovered and divided as soon as they start into growth. Each shoot will make a good flowering plant, but, like all perennials, a rich soil is necessary. Old clumps are divided and rearranged for best results.



Dining Set Designs More Varied Now

The new dining tables and chairs, offered in a greater variety of designs and materials, usually are adaptable to more than one purpose. Removed from the dining room, a chair will fit nicely as an occasional piece in the living room, while a dining table also may perform double duty as a room divider.

Some tables have tops that raise to dining height or lower for cocktail use. There is a trend toward over-sized tables that back up sofas for room division, and also more numerous are oval tops which give the dining group a sense of intimacy.

Designers also have produced interesting and highly functional dining storage units, equally suitable to the environment of a combined living-dining area or a room used only for dining. Providing maximum storage space, these pieces can be found in all the popular veneers and in the whole range of furniture styles from 18th Century to casual modern and ranch designs.

New Low Rates For Insurance Planned Locally

New low auto insurance rates started this week for most Ohio policyholders of one leading auto insurance company. Two new rating plans for members of State Farm Mutual Automobile Insurance Company were announced by the company. Local agents here for State Farm Mutual are: Wilbur E. Thompson, Howard McGannon and Warren Schrage who is district manager.

Biggest savings will go to pleasure cars with no male operator under age 25 and to older models, Schrage stated. Rates for liability coverage will now be figured under a new four-group plan, based on age of male drivers and pleasure or business use of car.

A new "Step Down Plan" for comprehensive and collision insurance drops these rates twice, once when the car is two model years old and again when it is four model years old. Thus, the "Step Down Plan" cuts rates immediately for 1962 and 1963 models, and even more substantially for 1961 and older cars. In addition, there are slight reductions on most 1964 and 1965 models, depending on territory and [illegible].

"Although State Farm Mutual has been operating full scale in Ohio only since last year, more than 10,000 Ohio motorists are insured with the company, Schrage stated. Nation-wide, State Farm Mutual has led all other companies for thirteen years in number of cars insured, he insisted.

For pleasure cars with no male operator under age 25, there are substanial reductions on liability insurance throughout the state. Better than 60% of all car owners fall into this class. Rates are increased for family cars with an occasional (not principal) male driver under 25, and for business use cars. Where the male owner or male principal operator is under 25, the increase is substantial, except for husbands age 21-24 living with spouse. The age of female principal operators does not affect rates, the local manager pointed out.

For commercial vehicles, liability rates have been adjusted slightly, up or down, while all other commercial rates are unchanged.

Liability is the coverage that protects motorists when they are legally liable for injury or damages caused to others. Comprehensive pays for loss of or damage to an insured car from almost any cause except collision or upset, while collision pays for collision or upset, Schrage stated.

Offices of Norman R. Haight, Ohio state director of agency operations, are at 1433 Grandview-av. State Farm Mutual and its life and fire insurance affiliates are represented in this area by Wilbur E. Thompson and Howard McGannon.

Schrage stated that the new low rates are designed to make sure that each car owner pays only the amount necessary to protect other car owners like himself. They are part, he said, of the company's plan to pass savings back to members in the form of low insurance rates.

"Unlike many insurance companies, State Farm Mutual figures its own rates independently. These rates are based on the accident records of State Farm policyholders only and not from the accident experience of other insurance companies," the local manager viewed.

State Farm Mutual is known as the "careful driver insurance company." Since it began business in 1922 it has specialized in insuring the average careful driver and avoided those known to be reckless and irresponsible, he concluded.

Y All-Stars Won Two Games And Suffered Only One Setback

The Hilltop YMCA All-Stars won two games last week while suffering one setback. The All-Star squad handed Westington and the Westgate All-Stars identical 12-1 defeats. The lone loss was suffered Saturday afternoon at the hands of a powerful squad from Allensville.

In the Westinghouse game the "Y" squad scored four runs in the second inning without the aid of a hit. They scored in every inning after that except the fifth. Joe Ditrick led the 12 hit attack with a pair of doubles.

Mike Cantlon started on the mound and gave up no runs and one hit in four innings. Jim Thornton finished up and gave up the lone Westinghouse tally on two hits in the two innings which he worked. Cantlon received credit for the win.

The "Y" All-Stars pounded out 20 hits in their win over the Westgate All-Stars. The Hilltop "Y" squad broke up the scoreless tie in the third inning as they scored four runs on four hits. Tom Hartranft led the hitting parade with a perfect evening with three for three. Joe Ditrick, Bob Ross, Cal English, Don Heane and Ray Barnes each garnered two hits.

Terry Linson pitched the first four innings and allowed one run on one hit. Jim Thornton pitched the last two frames and struck out four of the men he faced and allowed the only other hit. Linson was credited with the win.

Last Saturday the local squad played host to a team from Allensville. The game was a real thriller as the home team played good ball but were defeated in the tenth inning by a 7-4 score.

Allensville scored two runs in the second inning to take an early lead, but the game youngsters from the Hilltop jumped right back with two tallies in the bottom of the same frame. The visitors scored single runs in the third and fifth innings but the hosts came back with two runs in the bottom of the fifth. The score remained tied until the tenth when the visitors sewed up the game with three runs. Hartranft, Saint and English each collected two of the "Y" hits.

Today the "Y" All-Stars played a return game with the Westgate All-Stars at the Bean Dinner. Saturday the squad will play host to a good squad from Chillicothe which handed our team a 4-3 setback three weeks ago.

Glenwood Baseballers Take Twin Win Bill

The Glenwood Recreation Center baseballers were victorious on two occasions over the weekend.

In the Saturday amateur league, the Lon Wright coached outfit downed McFarland Insurance by a score of 13-4. Paul Thompson handled the pitching chores to receive credit for the victory.

In a game played Sunday at London, O., Glenwood scored a 9-1 victory over the London Merchants. Don Davis was the winning pitcher.

Wildcats Drop 23-17 Decision To Eagles

The Blue Eagles handed the New Rome Wildcats a 23-17 defeat Wednesday, July 20, at Glenwood Recreation Center. This throws the four team south-west district senior girls softball league into a four way tie for first place. Each team holds a 1-1 record.

The Blue Eagles led 17-5 going into the fifth inning, when a Wildcat rally brought across 13 runs to the Blue Eagles' two, shortening their lead to 19-18. The Eagles outscored the Wildcats 4-2 in the sixth, and the Wilcats were unable to score in the seventh, giving the Eagles a 23-17 victory.

This week, the Wildcats will play Schiller, while the Blue Eagles will meet Livingston.

Civic Minded Men Plan Hilltop YMCA Enrollment Campaign

"Join the Hilltop YMCA, learn good sportsmanship, play together with other fine young boys, gain new friendships for years and years," echoed the new Hilltop Y building now being planned. This could well be the slogan of the Hilltop Membership Enrollment program getting underway soon. Shown are some of the fine civic-minded men who will help their Hilltop "Y" grow. Seated is Harry Dailey, general chairman of the enrollment; next Ed Planck, assistant general chairman. Looking on from left to right: Ray Anderson, membership enrollment committeeman of the Hilltop Y board; Jack Imler, also committeeman; Jim Goudy, John Kuhn, and C. W. Gundlaugher, enrollment area chairmen; and Stan Alford of Y board of management. Membership Committee Enrollment chairman not shown are Al Stephens, Bill Barnhard and Wilbur Hessler. Kick-off meeting is planned for Sept. 7. STAFF Photo

Two Tons Of Beans, None Left After Hilltop's Gigantic Bean Dinner

Although there was no shortage of beans this year the two tons purchased for the 1955 Hilltop Bean Dinner, were consumed down to the very last bean.

C. E. Distelhorst, general chairman, said that despite the fact that more beans were prepared for this year's affair than ever before, the supply of beans and the appetites of the merrymakers were evenly matched.

Local exhibitors were pleased with the new type of tent and were able to present their displays in a more attractive manner.

The friendly cooperation and hard work of many individuals and organizations were responsible for the success of the affair, Distelhorst said. An especial vote of thanks should go to the Hilltop Business Association, sponsors of the event; the Hilltop Welcome Wagon Newcomers Club and the Westgate Garden Club, he added.

The small-fry happily participated in the events of the two-day festival. Winners of the games and contests were:

90th Festival Is Staged At Good Shepherd

The annual summer festival was held for the 90th time at the Convent of the Good Shepherd, W. Broad-st at Sandusky-st, last Saturday evening. The event is staged each year under the auspices of a group of business men and women.

The festival is the only source of income for the upkeep and remodeling of the convent and all proceeds are used for this purpose, according to Lee Magee, general chairman.

Judge Dana F. Reynolds served as honorary chairman.

Membership Efforts To Start Soon

"We are out to break all records in 'Y' membership enrollment," said Harry Dailey, 1955 General enrollment chairman of the Hilltop Y, "we expect that this year we will go well over the top of 2,287 members brought in last year. The goal this year is 2,634."

In a meeting held at the Colony Restaurant on Friday, July 29, Dailey was introduced as chairman of the enrollment program by Sam Alford, Hilltop YMCA Membership committee chairman. Present were the industrial and business division chairman and several members of the membership committee.

Step Toward New Y

Dailey said as an introduction to the enrollment program, "It is remarkable the way the Hilltop is so closely knit and works together. This membership program will be another step in realizing a first class 'Y' here on the Hilltop," he pointed out. "I sincerely hope that we can get out and far exceed the goals set."

Negro-College industrial relations manager, Westinghouse, will serve as the 1955 general chairman for the Hilltop YMCA enrollment. Dailey has a vast background experience in YMCA work. Before being transferred from Mansfield to the Columbus plant he was very active in Y membership enrollments and financial campaigns in Mansfield.

Dailey and the members of the Hilltop YMCA membership enrollment committee are securing the adequate key personnel which will be in charge of this year's enrollment effort.

Edgar Planck, manager of West Side Motors, will serve as the assistant general chairman and will be basically responsible for the business and industrial entities.

Sept. 19-28 has been set as the membership enrollment week and approximately 300 workers will solicit every business, industry and home in the Hilltop area giving them an opportunity to again renew or become a new member of the Hilltop YMCA.

"Due to the expanded YMCA program," Edgar Planck, assistant general enrollment chairman said, "workers seeking memberships this year will have something extra to offer prospective members of the 'Y'. There are added facilities, many programs, and the proposed Hilltop Y Building now on

Amount Taken In Burglary Unknown

Burglary of the Big Bear Super Market, 2835 W. Broad-st, which took place between closing time Saturday night and Monday morning was reported to have netted the thieves close to $15,000. This is completely erroneous, stated Lawrence Mack, store superintendent.

Though two heavy safes, which builders of the safes said were difficult if not impossible to drill holes into, were broken open through the use of drills, only an undetermined amount of money was taken, Mack asserted.

Small holes were drilled next to the combination, thus disengaging the locking mechanisms inside, police revealed. The burglars then pried the doors off the inner money chests where the money was kept. A third safe was not touched by the thieves.

There were no signs of forced entry in a preliminary check of the building. Police theorized the burglars may have used a key or secreted themselves inside the store before closing time Saturday night.

Earl Gamerdinger, 25, 837 Thomas-av, assistant store manager, discovered the burglary when he reported for work Monday morning. Cash drawers from the safes' money chests were strewn over the office floor.

The burglars used several eight by 12 inch manila envelopes and a phone book to cover part of the front plate glass window while they worked on the safes.

Det. Lt. Stacy Hall, head of the burglary squad, said police and store officials were awaiting the report of police photographers and fingerprint experts to gain a thorough examination of the two safes in the office before they could learn just how much was taken.

Several store aprons were found in the office and police believe they may have been used to wipe fingerprints and muffle sounds.

Long-Time Residents Plan Retirement Move To Florida

A farewell party was held Tuesday evening, July 26, for Mr. and Mrs. Robert "Les" Clark, 3209 Leap-rd, at the home of Mr. and Mrs. Guy B. Myers, 142 S. Westmoor-av.

The Clarks, residents of the West Side of Columbus for many years, will be leaving soon for their new home in Florida, at 90 E. 45th-st, Hialeah.

Mr. Clark is retiring soon, after 30 years service with the Columbus Show Case Co., as foreman of the Packing Dept.

They have been active members of Camp Chase Post 96, American Legion and Auxiliary, for 26 years; charter members of the 37th Division, First World War Association; charter members of Courage, Inc. and members of the board; and members of Friendly Pages Hobby Club.

Mrs. Clark has been a member of the Philathea Class, West Park Methodist Church, for 40 years.

At the party on Tuesday evening, each one present assembled a page for a scrap book, with articles and pictures which reminded him of some incident in his association with Les and Grace.

Since Tuesday was Mrs. Clark's birthday, each one presented her with a birthday card for the scrap book. The group also presented Mr. and Mrs. Clark with a gift, as well as additional personal gifts.

In addition to the guests of honor and the host and hostess, friends attending the affair were, Mrs. M. H. Austin, Mrs. Raymond Boord, Mrs. William Boothe, Mr. and Mrs. Ernest H. Brown, Mrs. Clark Finneran, Mr. and Mrs. Ver-

It Ain't The Weight, It's The Way That You Throw It Around!

They lost with a big splash and why not . . . there were 1,975 pounds of flesh that just got off balance and fell with a tremendous splash into Harder Lake at Westgate Park during the Bean Festival tug-o-war between the Hilltop Lions (losers) and the Hilltop Kiwanis Club (winners). It really was not the weight in this case that counted. The Kiwanians weighed in at a total of 1,740 pounds, or 235 pounds less than the Lions. Shown above are the Lions as they roared into the pond as the crowd looked on in awe! On the Hilltop Lions Club team were Pinkey Higgins, captain; John Dickson, Al Dailey, Ron Jones, Bill Board, Chuck Noll, Dave Haueisen, Bill Liepenberger, Harold Greene, Ivy Schmidt and Don Rumley. On the Hilltop Kiwanis Club team were Al Stephens, Don Bast, Ed Ongaro, Howard Lloyd, Orvie Lehman, Roy Kistner, Bill Jones, Ray McVay and Bob Darrow. Referees were Judge Ralph Smith and Judge A. The team is managed and coached by Lee Wright.

Leaders Win In Y Old Timers Loop

In the regularly scheduled games last Tuesday evening as part of the Bean Dinner entertainment, the league leaders, Westway Post V.F.W., Hilltop Kiwanis and Grashel's Mobilgas Service had easy games to hold their positions in the second round of play.

Westway Post, V.F.W., blasted a 17 to 2 win over the Northway Post V.F.W. Les Click and Roland Wolford led the Westway hitters. Click with three safeties and Wolford with a triple and a home run. Adams and Stokes showed well for Northway.

Hilltop Kiwanis topped Hillcrest Baptist 17 to 11 as Chuck Ditrick, Wendell Glass and Ed Johnson scored three times each for the Kiwanians. Jack Swicegood, Lefty Gurins, James and Charles McIsturff scored two each for Hillcrest.

Grashel's Mobilgas won over a scrappy Hilltop Lions team 15 to 8 but it took a seven run rally in the sixth to turn the trick. Gilger, Bob Phillips, Strickler and Myers led the Lions while Bill Liston, Jerry Spears and Charley Corcoran hit hard for the service station team.

West Park Methodist clubbed out a 13 to 7 victory over Westgate EUB in a game that was very close until West Park exploded for five runs in the sixth inning to ice matters. C. Dillie homered for West Park with B. Dillie blasting a triple. Rickel, Reeves, Kistner, Horn and Ross led the way for Westgate.

Glenwood Methodist's bats were as hot as the weather, pounding out a 20 to 9 conquest of Diamond Milk. Every member of the Methodist team hit hard and often and could do no wrong while the Milkmen had one of those nights when everything they attempted backfired.

Westgate Park Has Grand Play House Set Up

The arts and crafts class at Westgate playground has been busy doing the summer project, a doll house. To date the walls have been papered and painted and most of the furniture constructed. The group's pride is the miniature grand piano which was made from cardboard and toothpicks. The keyboard is yet to be painted.

Tuesday, Aug. 20, children from Westgate Park will go to Indian Village Camp for the day. They will leave the playground at 8:30 a. m. and return at 5:30 p. m. Children must bring their own lunches. Milk will be furnished by the city recreation department.

Children are also asked to bring their bathing suits as the swimming pool at the camp will be available. A full day of activities has been planned: hiking, swimming, games, crafts and stories.

Any child wishing to go should sign up at the park as there are still openings left.

Cards In First Place In Little Nine Baseball

By Bert Kerte

The Cards took over first place in the Hilltop YMCA Little Nine Baseball League as they handed the Cubs a 12-8 setback.

Don Hemme led the Cardinal attack with three hits and a walk. The victors took an early 11-1 lead after three innings. The Cubs threatened to tie the score as they rallied for two runs in the fifth and five more tallies in the sixth. Saint collected three hits for the Cubs and Grove got two safeties. Hemme got the win and Saint was charged with the defeat.

The Tigers handed the Indians their second straight defeat 4-1, to move into a tie for second place. Bill Hill went the route as his teammates gave him a three run lead in the first inning. Glen Rohrer was the victim of the Tiger attack.

In the other game played last week the winless Braves really cut loose as they pounded the Redlegs to the tune of 11-2. The Braves took an early 1-0 lead in the first inning on a single by Joe Anderson, a walk and a double by Joe Ditrick. Miller received the victory while the loss went to Timmons.

The other game scheduled was postponed due to rain and will be played tomorrow afternoon.

Intermediate Church Softball

Rain caused cancellation of the two games scheduled in the Hilltop YMCA Intermediate Church Softball League. In the only game played the West Park Methodist team defeated Avondale EUB 12-2.

West Park scored in every inning after jumping out in front 3-0 in the first inning. Breckenridge went the distance for the victory and Potter was tabbed with the loss.

Holton Playground Softballers Lose 6-3

The Glenwood Recreation Center junior softballers took the measure of Holton playground by a score of 6 to 3 Tuesday, July 29, on the Glenwood diamond.

The Glenwood team was able to collect only two hits, but these put together with five errors were costly to the visitors.

Eddie Diedrich handled the mound duties for the Glenwood team and gave up four hits and walked five.

Glenwood now has a record of one win and one loss.

Women buy four out of every five neckties sold during the year, just about all of those sold around Christmas.

Hilltop Library Is Oasis During Hot Summer Days

Air conditioning at the Hilltop Branch Library makes it a cool, comfortable place to spend some of these hot days, browsing among the new magazines and books.

Projecting our interests beyond the vacation period into busy fall activities is a new book edited by Harriet Hawes, titled McCall's Complete Book of Bazaars. Complete information is given on organization of committees, best time and place, theme, soliciting, pricing and selling, and dozens of other problems confronting any group setting out to fill its treasury. An excellent book for the ways and means chairman to know about.

"The Missing Macleans" by Geoffrey Hoare is a fascinating new biography guaranteed to keep interest at top-notch on the hottest days. The Maclean family has been much in the news in the early 1950's.

First was the disappearance behind the iron curtain of the British diplomats Donald Maclean and Guy Burgess. A few months later, in 1952, Donald Maclean's wife and children had likewise vanished under the very eyes of the secret police of three nations.

The author, a foreign correspondent for the London News Chronicle, offers his own conjectures about the unsolved mysteries with their tangled motives.

The library is open daily from 9 to 5:30 and Saturday from 9 until 9. Winter hours will be resumed Sept. 12.

Mr. and Mrs. James Kelly are playing host this week to Mr. and Mrs. Keith Lynch from the Kelly's former home, Morgantown, W. Va.

Westgate Manor residents were given the opportunity to have a free chest X-ray when the Christmas Seal X-Ray Cruiser visited there for two days last week.

The popular "Welcome Wagon" lady in this area, Mrs. Verda Courtney, with her family have moved out of the Manor on Savannah-dr.

The latest addition to the Westgate Manor Shopping Center is Imperial Sales, with Roy E. Erickson as manager.

Spending a week at her parents' home at Indian Lake were Mrs. Delores Lisk and her son, Prior to this her father, Walter Howells, was at his home there, but he is now back on the job in Columbus and living with his daughter.

Mr. and Mrs. David Smith recently had a baby girl whom they named Pamela Gail. This was their fourth child and third girl.

It was announced by John C. Dailey, the manager of the Westgate Manor Branch of Howard's Cleaners that they had leased the building adjacent to their present location. In the back of this new addition will be a cleaning plant sufficient to handle all of their business. Kay's Gift Shop will occupy the front part of the store and will be open for business Sept. 1. Tentative plans indicate that this will be replaced about the first of the year by a fast service laundry.

Hilltop Library Is Oasis During Hot Summer Days

Air conditioning at the Hilltop Branch Library makes it a cool, comfortable place to spend some of these hot days, browsing among the new magazines and books.

Projecting our interests beyond the vacation period into busy fall activities is a new book edited by Harriet Hawes, titled McCall's Complete Book of Bazaars. Complete information is given on organization of committees, best time and place, theme, soliciting, pricing and selling, and dozens of other problems confronting any group setting out to fill its treasury. An excellent book for the ways and means chairman to know about.

"The Missing Macleans" by Geoffrey Hoare is a fascinating new biography guaranteed to keep interest at top notch on the hottest days. The Maclean family has been much in the news in the early [illegible]'s.

First was the disappearance behind the iron curtain of the British diplomats Donald Maclean and Guy Burgess. A few months later, in 1952, Donald Maclean's wife and children had likewise vanished under the very eyes of the secret police of three nations.

The author, a foreign correspondent for the London News Chronicle, offers his own conjectures about the unsolved mysteries with their tangled motives.

The library is open daily from 9 to 5:30 and Saturday from 9 until 9. Winter hours will be resumed Sept. 12.

John Burroughs To Hold Open House; 90 Attend Zoo Trip

Next week will be the last week at your playgrounds, the end of another mighty pleasant season with your youngsters. They have all been so cooperative, we feel like thanking you, their parents.

On the evening of August 9, Tuesday, Mrs. Klein is offering you an open house, so come in and see the display of crafts made in the classes the past eight weeks. We would like to meet you and have you tell us what we might have done better this summer.

The Zoo trip was a tremendous project this year with over 90 participants and only one bus for the transportation. But our gracious Mrs. Lanier planned three round trips and all had a couple of hours up there. Due to an error in the counting and a couple of girls pulling away from the crowd and missing the last bus, an extra trip by one of the parents was made necessary.

The soft ballers weren't so happy this past week in losing a game to an older team at Southwood, but we have been playing a young team this season, about 20 as interested youngsters as you ever saw.

Teen Troubles

By John Douglas, M.D. and Mary Douglas

By JOHN DOUGLAS, M. D. and MARY DOUGLAS

Question: How do you know w'en a boy is the right one for you?

Answer: You have to be rather mature, emotionally, before you can begin to decide this. Even then, it isn't easy.

First of all, there should be a real understanding of any sympathy with each other's ideals and general outlook. That is, your value should be similar. Then you will find it easier to agree on what is important and what is not important.

You should feel sympathy with each other's life goals. What is it that the two of you want from life? Are your goals too different?

And you should agree on the importance of religion and morality. All of these are fundamental and essential for the sucess of any partnership.

Second, it is good to have similar backgrounds. This makes it much easier to understand and sympathize with each other's point of view.

Third, there should be a similarity in tastes and habits—so that you can always have fun together, even when you are not "making love"

Fourth, each of you should find yourself thinking in terms of "we", not as "I" and what "I" want.

Fifth, you must be able to depend absolutely on what he says. In other words, he should be stable and dependable. If he is not, he is not the right one for any girl.

Question: How do you go about making decisions? And how do you know when you've made the right one. . . .?

Answer: Ask yourself these questions before you make a decision:

1. Will I be able to feel at ease about my actions later . . .?

Will I be happy tomorrow because of this decision . . .?

or

Will I be ashamed or ill at ease because of it . . .?

2. Will the result of my actions (my decision) leave others at ease with themselves and with me . . .?

or

Will my actions (decision) build a barrier between us . . .?

3. Am I taking advantage of someone else's weakness or lack of knowledge . . .?

4. How will my plans (decision) influence myself, my family and my friends . . .?

Cowboys, Sabers Represent Glenwood In Little Jet League Tournament Play

The Sabers, behind the one hit pitching of Bill Karn, trounced the Eagles 17 to 2 in a Little Jet League game at Glenwood Recreation Center, July 26.

The game looked as if it would be a close one in the first two innings when the score was tied 2-2. However, the Sabers virtually walked away from the Eagles in the top of the third inning. Dave Dildine and Eddy Diedrich were the sparkplugs for the Sabers, the former getting three doubles in four trips to the plate, and Diedrich gathering two homers in three trips to bat.

Bill Karn, showing his usual pitching form, fanned eight men in the four inning game. It was 17 runs on 12 hits with two errors for the Sabers, and two runs on one hit with two errors for the Eagles.

The Eagles downed the Cardinals 19 to 4 in the last Little Jet League game of the season at Glenwood, July 20 on the Glenwood diamond.

The Eagles rolled up seven runs in the first inning, and the Cardinals scored four runs in the top of the second on a bases-loaded homer by Jim Jordan. The Eagles went on to score 10 more runs in the bottom of the second and two more in the third inning.

This win gave the Eagles undisputed possession of third place in the league. The game statistics are as follows: Eagles, 19 runs, seven hits, four errors; Cardinals, four runs, two hits, five errors.

The Cowboys and Sabers, being the first and second place teams, will represent Glenwood in the city-wide Little Jet League tournament.

Final League Standings

Cowboys	8	0	1.000
Sabers	7	2	.777
Eagles	4	5	.444

The Home of the Week

By Elsie Ireland Weaver

Harley Broom, Photographer

In the living room an extra wide picture window gives a view of woods surrounding the home, and occasional glimpses through the trees reveal rolling countryside not unlike the Blue Ridge mountains of Virginia. Beneath the window may be seen the baseboard heating unit.

PLACING HEAT OUTLETS

If you're planning a new home put the heating outlets beneath windows and on outside walls.

Harry M. Montoney Builds Home In Woods

This view of the living room shows the Indiana sandstone mantel with raised hearth, metal curtain-type fire screen, and brass andirons and accessories. One of the walls is sand-colored; the others are light blue. The carpeting is beige with carved leaf pattern. The sofa is cocoa-colored and the chair shown is gold. The occasional chair, part of which is shown at left of mantel, is done in rich red. The ottoman is also red.

Ex-Hilltoppers Plan, Build It

The red brick home in wooday setting at the corner of Norton and Johnson-rds, in West Franklin County, is the attractive home of Mr. and Mrs. Montoney and daughter, Carol, 17. Montoney built the home "with his own two hands," as Mrs. Montoney puts it. She says, however, he did have help with the concrete slab roof and had a plastering contractor do the walls.

Montoney, with his brother, Edward, operate the Montoney Heating and Piping Co., recently located at 3641 Alkire-rd.

Another daughter, Patsy, is Mrs. Walter Justus, and she lives with her family at 773 S. Burgess-av.

The Montoneys moved from their Hilltop home, 325 S. Warren-av, in June, 1952, but just recently put the finishing touches on their big home-building project. They had to clear the land of numerous trees, stumps and brush, just like pioneer Ohioans did before they could start building the house.

The cement patio is situated in the rear of the house and may be used for barbecues in spring and winter, or cool relaxing in the shade on hot summer afternoons and evenings.

After entering the home by the front door, guests may have their wraps hung in a closet in the entrance hall, that has sliding mirror-faced double doors. A turn to the right and one is in the comfortable, colorful living room.

The Montoney living room has three cool light blue walls and one of warm sand color. The unusual ceiling is the white-painted underneath side of the concrete slab roof. Carpeting here is beige, with carved, self-colored leaf pattern.

The draperies at the double glass picture window have a tropical print in light blue, green, yellow and splashes of red. They frame a lovely view of rolling country-side and of some of the four acres of woods of hickory, oak and walnut trees belonging to the family. In fact, each window in the house gives glimpses of the cool green woods.

The mantel, with its raised hearth, is constructed of Indiana sandstone. Its warm color is picked up in the cocoa fringe-decorated sofa and matching chair.

A gold-upholstered chair, three occasional chairs in rich dark red, and floral-pattern rocking chair add touches of delightful color. The red and gold are repeated in sofa pillows.

The end tables and the piano, which Carol plays, are in mahogany, as is the television set.

A large wall section of glass block on the north side of the room enables some of the plentiful daylight in the living room to penetrate to the utility and laundry room in the very heart of the house.

In the long "leg" of the "I"-shaped house are the kitchen with dining area, a small bath tiled in green and outfitted with glassed-in shower stall, the den and two-car garage.

In the dining area of the kitchen there is a chrome dinette set trimmed in beige and rose. Walls are gray and rose-colored plastic tile covers the wall areas between the natural-finished birch cupboards and gray counter tops. Floors in kitchen and den beyond are gleaming brown and cream jaspe rubber tile.

An unusual feature of the Montoney's kitchen is the presence of an electrically-cooled drinking fountain. It finds favor any time of day with family and guests.

The den is extremely popular with the family. It has three cool green walls and one which is pine-panelled and has a sandstone fireplace. To conserve floor space in the small room, the brass fireplace accessories have been hung on a brass strip fastened to the mantel face.

In the den a three-piece green plastic-coated sectional sofa is placed in single chair and love seat arrangement. A desk with attached shelves was custom-made as one piece of furniture.

The bedroom wing of the home contains the master bedroom, with deep pink walls, pink rugs, mahogany furniture, and rose-decorated draperies, a bath and Carol's room.

Carol's bedroom has cocoa-colored walls, bleached oak furniture and yellow oval rugs. The twin beds have green chenille spreads. A boudoir chair in yellow and dark green brightens a corner of this typically girlish room.

The bathroom is strikingly beautiful, with pale pink tile trimmed in wine-colored half-tile border and pink paint above. The mandarin red rubber tile floor is especially attractive. Gray-blue fixtures and pink rugs completes the color scheme.

Natural-finished birch fashions the many cupboards in the kitchen. Rose plastic tile covers the wall areas between the cupboard and gray counter tops. Walls are gray here and in the dining area to the left out of camera range. Curtains are striped in beige, gray, rose and green.

NEED TIME TO DRY

Freshly-washed tile floors will mark if stepped on before thoroughly dry. Bathrooms and kitchen floors may be done sectionally if necessary, leaving lanes open for walking in and out.

Odd Furniture Pieces Can Be Made Useful

Marred and dented chairs, tables and odd pieces of furniture that seem to fit nowhere can frequently be made into new and attractive household additions. Repair them, if necessary; sand the surface smooth and apply enamel undercoat. Over this, flow on a coating of colorful enamel.

If the design of the piece is good, your final coat can contrast with the wall against which it will stand. This will give it emphasis. If it is useful, but not as beautiful as you might wish, camouflage its shortcomings to match its background.

How To Avoid Smudge In Using Finishing Nails

Wire finishing nails often make a carpenter's fingers dirty when he is nailing trim. The smudges are transferred to the trim and take time to sand off. One way to prevent this is to put a handful of sawdust with the nails in the pocket of the carpenter's apron. The sawdust keeps the nails and fingers clean.

A youngster had reached the age when he liked to show off to his mates his knowledge of big words.

"I'll bet you," he said to the neighborhood toughie, "that you don't know what 'expectorate' means."

"Aw sure I do," said the other lad. "It's the slang word for 'spit'."

Cowboys, Sabers Represent Glenwood In Little Jet League Tournament Play

The Sabers, behind the one hit pitching of Bill Karn, trounced the Eagles 17 to 2 in a Little Jet League game at Glenwood Recreation Center, July 26.

The game looked as if it would be a close one in the first two innings when the score was tied 2-2. However, the Sabers virtually walked away from the Eagles in the top of the third inning. Dave Dildine and Eddy Diedrich were the sparkplugs for the Sabers, the former getting three doubles in four trips to the plate, and Diedrich gathering two homers in three trips to bat.

Bill Karn, showing his usual pitching form, fanned eight men in the four inning game. It was 17 runs on 12 hits with two errors for the Sabers, and two runs on one hit with two errors for the Eagles.

The Eagles downed the Cardinals 19 to 4 in the last Little Jet League game of the season at Glenwood, July 20 on the Glenwood diamond.

The Eagles rolled up seven runs in the first inning, and the Cardinals scored four runs in the top of the second on a bases-loaded homer by Jim Jordan. The Eagles went on to score 10 more runs in the bottom of the second and two more in the third inning.

This win gave the Eagles undisputed possession of third place in the league. The game statistics are as follows: Eagles, 19 runs, seven hits, four errors; Cardinals, four runs, two hits, five errors.

The Cowboys and Sabers, being the first and second place teams, will represent Glenwood in the city-wide Little Jet League tournament.

Cowboys	8	0	1.000
Sabers	7	2	.777

The Harry M. Montoney home, 2980 Norton-rd, is constructed of wire-cut brick in shades of red and red-purple. The flat roof is of Flexicore concrete slabs with a coating of pitch and gravel. All the window and door sashes are aluminum; all window sills are of red marble. The U-shaped home was designed and built by Montoney.—STAFF Photos

The Home of the Week

By Elsie Ireland Weaver

Harley Broom, Photographer

In the living room an extra wide picture window gives a view of woods surrounding the house, and occasional glimpses through the trees reveal rolling countryside not unlike the Blue Ridge mountains of Virginia. Beneath the window may be seen the baseboard heating unit.

PLACING HEAT OUTLETS

If you're planning a new home put the heating outlets beneath windows and on outside walls.

Harry M. Montoney Builds Home In Woods

This view of the living room shows the Indiana sandstone mantel with raised hearth, metal curtain-type fire screen, and brass andirons and accessories. One of the walls is sand-colored; the others are light blue. The carpeting is beige with carved leaf pattern. The sofa is cocoa-colored and the chair shown is gold. The occasional chair, part of which is shown at left of mantel, is done in rich red. The ottoman is also red.

Ex-Hilltoppers Plan, Build It

The red brick home in woodsy setting at the corner of Norton and Johnson-rds, in West Franklin County, is the attractive home of Mr. and Mrs. Montoney and daughter, Carol, 17. Montoney built the home "with his own two hands," as Mrs. Montoney puts it. She says, however, he did have help with the concrete slab roof and had a plastering contractor do the walls.

Montoney, with his brother, Edward, operate the Montoney Heating and Piping Co., recently located at 3641 Alkire-rd.

Another daughter, Patsy, is Mrs. Walter Justus, and she lives with her family at 773 S. Burgess-av.

The Montoneys moved from their Hilltop home, 325 S. Warren-av, in June, 1952, but just recently put the finishing touches on their big home-building project. They had to clear the land of numerous trees, stumps and brush, just like pioneer Ohioans did before they could start building the house.

The cement patio is situated in the rear of the house and may be used for barbecues in spring and winter, or cool relaxing in the shade on hot summer afternoons and evenings.

After entering the home by the front door, guests may have their wraps hung in a closet in the entrance hall, that has sliding mirror-faced double doors. A turn to the right and one is in the comfortable, colorful living room.

The Montoney living room has three cool light blue walls and one of warm sand color. The unusual ceiling is the white-painted underneath side of the concrete slab roof. Carpeting here is beige, with carved, self-colored leaf pattern.

The draperies at the double glass picture window have a tropical print in light blue, green, yellow and splashes of red. They frame a lovely view of rolling country-side and of some of the four acres of woods of hickory, oak and walnut trees belonging to the family. In fact, each window in the house gives glimpses of the cool green woods.

The mantel, with its raised hearth, is constructed of Indiana sandstone. Its warm color is picked up in the cocoa fringe-decorated sofa and matching chair.

A gold-upholstered chair, three occasional chairs in rich dark red, and floral-pattern rocking chair add touches of delightful color. The red and gold are repeated in sofa pillows.

The end tables and the piano, which Carol plays, are in mahogany, as is the television set.

A large wall section of glass block on the north side of the room enables some of the plentiful daylight in the living room to penetrate to the utility and laundry room in the very heart of the house.

In the long "leg" of the "J"-shaped house are the kitchen with dining area, a small bath tiled in green and outfitted with glassed-in shower stall, the den and two-car garage.

In the dining area of the kitchen there is a chrome dinette set trimmed in beige and rose. Walls are gray and rose-colored plastic tile covers the wall areas between the natural-finished birch cupboards and gray counter tops. Floors in kitchen and den beyond are gleaming brown and cream jaspe rubber tile.

An unusual feature of the Montoney's kitchen is the presence of an electrically-cooled drinking fountain. It finds favor any time of day with family and guests.

The den is extremely popular with the family. It has three cool green walls and one which is pine-panelled and has a sandstone fireplace. To conserve floor space in the small room, the brass fireplace accessories have been hung on a brass strip fastened to the mantel face.

In the den a three-piece green plastic-coated sectional sofa is placed in single chair and love seat arrangement. A desk with attached shelves was custom-made as one piece of furniture.

The bedroom wing of the home contains the master bedroom, with deep pink walls, pink rugs, mahogany furniture, and rose-decorated draperies, a bath and Carol's room.

Carol's bedroom has cocoa-colored walls, bleached oak furniture and yellow oval rugs. The twin beds have green chenille spreads. A boudoir chair in yellow and dark green brightens a corner of this typically girlish room.

The bathroom is strikingly beautiful, with pale pink tile trimmed in wine-colored half-tile border and pink paint above. The mandarin red rubber tile floor is especially attractive. Gray-blue fixtures and pink rugs complete the color scheme.

Natural-finished birch fashions the many cupboards in the kitchen. Rose plastic tile covers the wall areas between the cupboard and gray counter tops. Walls are gray here and in the dining area to the left out of camera range. Curtains are striped in beige, gray, rose and green.

Odd Furniture Pieces Can Be Made Useful

Marred and dented chairs, tables and odd pieces of furniture that seem to fit nowhere can frequently be made into new and attractive household additions. Repair them, if necessary; sand the surface smooth and apply enamel undercoat. Over this, flow on a coating of colorful enamel.

If the design of the piece is good, your final coat can contrast with the wall against which it will stand. This will give it emphasis. If it is useful, but not as beautiful as you might wish, camouflage its shortcomings to match its background.

How To Avoid Smudge In Using Finishing Nails

Wire finishing nails often make a carpenter's fingers dirty when he is nailing trim. The smudges are transferred to the trim and take time to sand off. One way to prevent this is to put a handful of sawdust with the nails in the pocket of the carpenter's apron. The sawdust keeps the nails and fingers clean.

A youngster had reached the age when he liked to show off to his mates his knowledge of big words.

"I'll bet you," he said to the neighborhood toughie, "that you don't know what 'expectorate' means."

"Aw sure I do," said the other lad. "It's the slang word for 'spit'."

NEED TIME TO DRY

Freshly-washed tile floors will mark if stepped on before thoroughly dry. Bathrooms and kitchen floors may be done sectionally if necessary, leaving lanes open for walking in and out.

Death Blow To Annexation

The 101st general Assembly dealt a blow which could well mean the end of successful annexation for cities like Columbus. The new law is couched in the major school re-districting act so quietly that at first glance the unwary metropolitan community might not notice it.

Most of the new act is fair and just and tends to serve an excellent purpose for equitable adjustment of assets in outlying school areas. But the rub comes when as was pointed out by George C. Beery, superintendent of county schools and secretary of the Franklin County Citizen's Committee, "if a city like Columbus were to annex any part of the new districts it would not be able to give city school services to the newly annexed peoples."

One of the major reasons for annexation where residents sign petitions to join a city is the opportunity to give their children better schools.

According to the act of re-districting, if any portion of a school district, under the new program, were annexed, the school tax money would remain in the original school district in which the area belongs. All other money for tax purposes would go to the annexing body.

In effect this says that by 1955 figures, Columbus will pay $15,563 each year for each pupil enrolled in its schools for their education. Grove City will pay $6,673; Urbancrest will pay $2,210; Pleasant will pay $5,652; Georgesville will pay $10,205; Franklin Local will pay $16,673; and Prairie will pay $8,878. The only local school district where it would pay to remain, according to present statistics is in the Franklin local. But the Franklin local will be broken up and spread around to assist some of the less wealthy districts and so its valuation per pupil will not remain high.

Did the Ohio State Legislature give adequate consideration to what they were doing when they enacted this program? It seems as though it will be ruinous to annexation.

Perhaps they were against some of the annexation programs as embarked upon by the city; perhaps they were ignorant of what the act was going to do with its "fringe" results!

One fringe result is that the lower school tax rate in Columbus would never be available to the annexed residents unless the entire district were taken into Columbus.

In illustration: Columbus 1955 school tax rate is $14.61 mills per thousand dollars of property valuation. The school tax rates for Grove City is $14.60; Urbancrest is $10; Pleasant is $13.80; Georgesville is $21.40; Franklin Local is $14.10 and Prairie is $15.70. These figures might prove valuable in negotiating an annexation program for Columbus, but all this is nullified by the legislative act of re-districting the schools and inserting the clause which says they may not be broken.

To end on a positive note: This paper realizes that this clause was inserted into the act to protect the tax dollars of the school districts as re-formulated. If this were not done a large municipality would take out the tax blood and leave the rest of the school district which was being supported, high and dry without tax funds school-wise.

Somewhere there should be a middle ground. We are anxious to find out just what it is. We ask our readers to deligently study the problem and help us arrive at an intelligent conclusion for all of our readers. Your letters are invited on this question.

Voters ought to have sense enough not to be influenced by false issues raised by candidates who are afraid of real facts.

After all, the republic is not going to the dogs, regardless of what happens to be the outcome of the political races

WASHINGTON BLIZZARD!

In Passing

PLEASE

I listened most attentively
That night beside the sea.
When we two waxed confidential
About what used to be.

You told me of your many loves
(You've had experience)
But every love affair became
Of little consequence.

Your details were of interest—
Absorbing, if all true—
A trail of scars on many hearts.
But what, my dear, of you?

When you spend other nights like this
(And you will, beyond a doubt)
In your moments of confession
I hope that I'm left out!

It's true but true—the best part of any vacation jaunt is getting back home again. What the Weakleys saw during our week ranged from West Point, Vassar and Hyde Park, to Sing Sing Prison (from the outside) and two bad accidents. Sad but true—all of the cars involved in the wrecks were Ohio cars. We also saw old houses in Massachusetts and Connecticut that were built long before the Revolutionary War. One such house was being remodeled so the descendant of the builder could move in. The carpenters allowed us to look through the house and said that surprisingly little will have to be done to make it a comfortable home. Weeds, wasps and weather have taken it over for the last ten or twenty years. And in Connecticut we saw a small town that had a "village green," and they called it that, too. I always thought a village green was something in a song. The Poconos and Catskills are all I had heard they were, and for nothing else would we have stood almost an hour in the hot sun—but we did to watch the drilling at West Point, and it was thrilling.

One Man's Opinion

From
THE EDITOR'S DESK

We were overjoyed at the Hilltop Bean Dinner this year. It was one of the most complete programs of fun and frolic seen on the Hilltop in many-a-year.

There were several things that the Hilltop Business Association would do well to look into:

Danger lurked on the bandstand. A young boy doing a man's job as electrician with the sound equipment refused to put tape on bare "hot" wires which protruded over the back edge of the bandstand.

The youngster kept telling the boys and girls standing at the rear of the platform not to touch the wires . . . meanwhile on a screw driver in his pocket hung several rolls of electricians tape.

Thank God no one was injured or burned. It might pay to look into the matter so that it does not happen again.

The second major problem existed in the lack of waste containers.

Everywhere that this reporter looked for trash cans there were none to be found. There was one by the Y motion picture tent and one or two at the shelter house.

Looking about the picnic grounds one could see mounds of neatly piled bean cups . . . the people wanted to be neat, but no one provided for the waste paper.

Harder Lake is now filled with waste paper cups. Little boys and girls set them sailing. Many of them would never have sailed to litter the bottom of the pond if trash containers had been available.

Let's see if the HBA cannot get these kinks out of the bean dinner for next year. Otherwise the whole affair was not bad at all.

Good Luck, Rev. Dean

Last week the Rev. J. L. Dean, pastor of the Hilltop Community Church, left for South America. His mission will be good will and for betterment of inter church relations.

Hilltoppers can be proud of the work done by this Christian centered man who has long been a bulwark on the Hilltop. The work done by these Christian leaders can and is a major impetus to world peace.

President Eisenhower has recognized the need for prayer and a good moral life for our nation as well as for the men who hold high offices and guide the nation. In fact the President insists upon a high religious code of ethics for the men he chooses for high governmental callings.

The work of Pastor Dean may be but a small cry in the desert. We may be thankful for these small crys and hopeful that they may be heard and heeded by the masses.

Living a Christian life is exemplified by ministers on the Hilltop who unrelentingly pursue the high calling of the faith.

Not Really Two-Faced

Hilltoppers reading the Franklin County News this week will surely notice that the editorial carried by the News is in conflict with that carried by the Hilltop Record. This was done for a purpose.

Residents of the county, outside of Columbus, will receive a wonderful benefit from the re-districting move. For that reason we did not stress the prospect of a problem of annexation too greatly.

Whereas in the Record, in Columbus, we wrote about the problems of annexation. This would be paramount to Record readers since what is annexed to the Hilltop is important to us. The school re-districting would not affect Record readers in any other way.

In Memoriam

CORDELL HULL was an outstanding public servant. He had simple dignity, political discernment, common sense, and fair-mindedness. But probably what the nation will remember best of this man is the deep founded integrity.

Four accomplishments will always remind us of this truly great man: his work in the creation of the United Nations, setting up a nonpartisan foreign policy in World War II, promulgation of the good neighbor policy toward Latin America, and writing the Reciprocal Trade Agreements program for tariff reductions and freer world trade.

May his life stand as a symbol to all present and future American politicians and statesmen. Truly, here was a great man.

Don't Be a Cynic

DON'T BE A CYNIC about the results of the Summit Conference. We have a great President with an infinite talent for understanding and coping with world relations.

"I have been searching my heart and mind for something that I could say here that could convince everyone of the great sincerity of the United States in approaching this problem of disarmament," the president frankly told the delegation at the Summit.

With an attitude of complete sincerity the President went into the foray and in the minds of most thinking Americans has come out victorious.

Many a cynic will have to believe that no good will come from these meetings.

Many will draw pictures of the "new Kremlin" with smiling faces. Many another will point to the false fronts of the past and say this is being repeated today.

We say . . . bloodshed has not and will not bring world peace . . . war and hatred among nations has never brought about better understanding . . . but . . . an abiding faith in the inner goodness of man will bring about the fulfillment of what we seek.

Idealistic? Why sure, so was Christ, Mohammed, Gahndi, Buddha . . . and the world they have helped to bring about is a GOOD world.

Let's all pitch in and help make their dreams come true.

HOW? Follow your faith to the fullest. Get behind the heads of state . . . not as a mere follower, but as an interested participant. If they fail to live up to the highest code of ethical officialdom write them and dress them down . . . if they live up to the code, write them and tell them you appreciate their actions.

After all . . . its up to you!

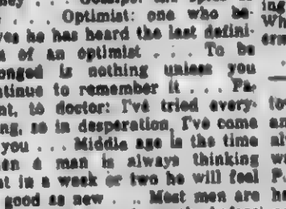
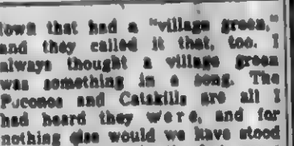
YOU'RE AN EXPERT IF YOU CAN TELL 'EM WITHOUT A 'SCORECARD'

An expert at a football game doesn't need a scorecard to identify the players. He can recognize them by certain characteristics and mannerisms. If you are not an expert, you can purchase a scorecard and tell who the athletes are by numbers.



However, there are no "scorecards" available when you are in the process of purchasing carpeting. You must depend upon the integrity of the dealer and decide whether his reputation warrants the trust you must place in him.



That we have given true value for every dollar spent with us during the 20 years we have been in the rug and carpet business exclusively is proved by the many customers who have returned to make additional purchases, or who have recommended us to others.

Whatever your rug problem may be, we invite you to pay us a visit. Be assured we shall advise you honestly.

Hilltop Y Little Nine Are 1 And 1

By Bert Korte

The Hilltop YMCA Little Nine All-Stars won one and lost one in last weeks activity. The "Y" team beat the Westgate All-Stars 15-1 and lost to Chillicothe 6-2.

The local boys jumped all over the Westgate Stars as they scored 11 runs in the second frame. Two singles by Bob Wesley and a single and a home run with the bases loaded by Terry Linson featured the 11 run outburst. Linson also had a home run in the fourth inning with a man on. Jim Thornton connected for the third round tripper of the evening.

Ray Barnes, Tom Hartranft, Cal English and Glen Rohrer each connected for two safeties while Linson got three hits. The seventeen hits was just three short of the record number the "Y" representatives got in their last game with the same team.

Terry Linson went the distance and pitched a good game.

Modern Machinery Clears Way For New Million Dollar Hilltonia Junior High

Bull dozers and tractors of the largest kind are scooping away at the field at the corner of Highland and Mound in preparation for Hilltonia High School.

The tremendous equipment has almost completely leveled off the site of the new school and foundation construction work is expected to begin soon.

Ground clearing operations began this month on the million dollar school to be built at 2345 W. Harrison.

First bid was let to Kramer and Sagura, Inc., which will handle construction of the foundation. The cost of the first phase of the building being handled under the present school bond is $99,988.

The second phase of the building or superstructure is expected to be completed by 1956.

Hilltonia Junior High School will house from 900 to 1000 pupils, stated Novice C. Fawcett, superintendent of schools. Dan A. Carmichael, architect, is handling the plans and specifications for the building under the direction of Edward Kromer, school architect.

Summers Fifth Teen Dance Planned Friday

This summer's fifth teen dance will be held Friday, Aug. 12, at Westgate Park.

The Hilltop Community Council voted last May to sponsor this series of dances as its contribution to summer fun for the young people of the Hilltop.

Jill Ogden of the Y-Teens will be chairman of this week's "Dancing in the Dark" and will be assisted by Elsie Martin, Rozzie Russell, Bobbie Lou Baesman, Janet Young, and Holly Hunt. Bill Spratley and Mark Rector of the Hi Y of the Hilltop YMCA will be in charge of the boys' activities.

Floyd Love, in charge of entertainment, reports the return engagement of the "Willows," a boys' singing group that made such a hit at the last dance, and Judy Lloyd popular young singer from West High.

Adults who will assist the young people at the dance will be Mr. and Mrs. Bill Burns, president of the HCC, Mr. and Mrs. Bert Korte of the Hilltop YMCA staff, Chuck and Marilyn Moore of Glenwood Recreation Center, Mrs. H. C. Booth of the Council, and Jane Owen of the YWCA.

Carl Hartley and his orchestra will play for dancing from 8:30 to 11:15 p. m. Admission charge, 50 cents.

Rites Set For Rev. Miller, Crash Victim

Rev. David Bernard Miller

Death took its toll early Saturday morning of a young man whose life was dedicated to the ministry. The Rev. David Bernard Miller, 23, was at the beginning of a career of service to his fellowman.

A credit to his community, his school and his church, the Rev. Mr. Miller will be remembered for contributions he made to each.

He was the victim of a Missouri highway accident which also claimed the lives of a father and a year-old baby, and injured eight others, including his wife, Carolyn, 20.

The Rev. Mr. Miller was dead on arrival at St. Elizabeth's Hospital in Hannibal, Mo., and his wife was hospitalized there for serious head injuries. She will be released from the hospital in time to fly to Columbus for the services on Thursday.

The Rev. Mr. Miller was a 1951 graduate of West High School where he was sports editor for the school paper and played in the band. He also wrote sports news for the Hilltop Record and for Columbus daily papers.

He had assumed the duties of his first pastorate, the Oregon Church of the Nazarene, Oregon, Mo., on June 5. He had received

Greene Named Editor Of Pomeroy Daily Sentinel

Reynold E. Greene, 766 Josephine-av, was named editor of the Pomeroy-Middleport Daily Sentinel this week by C. F. Weimer, president of the Ohio Valley Sentinel Inc.

Greene has served as editor of the Hartley Publishing Co. papers in Columbus for several years and later was employed by J. Curtis Allen Photography Studios. He expects that he will move his family to Pomeroy within a few weeks.

Youth Council Plans Vesper Service, Aug. 21

The Hilltop Inter-Church Youth Council will sponsor a community-wide vesper service to be held on West High athletic field Sunday, Aug. 21 at 7 p.m.

The youth groups of all Hilltop churches are participating, with each responsible for a particular part in the service.

Dr. Gene Stone, general secretary of International Christian Endeavor will be the speaker. A massed Youth Choir composed of young people from all the churches of the community will sing under the direction of Mrs. Edith White, director of vocal music at West High School.

A rehearsal of this choir will be held at Hillcrest Baptist Church at 4 p.m. of the same day.

The public is invited and all churches now holding evening services are asked to dispense with their program for this evening and join in this community service.

Members of DeMolay To Attend Conclave

Several members of Columbus Chapter, Order of DeMolay, will attend the 30th annual conclave at Cleveland, Aug. 12, 13, 14.

Those planning to attend are Glyndon Davis, Jim Kindig, Dave Gurley, Harold Martin, Dale Wilson, Bill Weakley, Dick Poor, Jim Whitt, Larry Williams.

Phil Edwards, Neal Webb, Russell Shonting, Gary Grube, Bill Brannan, Dave Guyton, Creston Reese, Tom Maish, Dave Mason, Jay Swisher, Charles Strickler, Don Hooper, "Dad" Curt Jackson, "Dad" Eugene McGurer, and Chuck Lence.

The week-end affair will be held at the Hotel Cleveland and will include council meetings, banquets, a variety show and entertainment.

Don Hooper, PMC of Columbus Chapter, will campaign for the office of State Senior Councilor.

Shorter Line Lets One Bus Do Job Of Two

One bus will do the work of two on a Hilltop transit line according to Edward A. Pellisser, vice president of the Columbus Transit Company.

The Hague-av line will be rerouted to serve the area between Mound-st and Valleyview. A loop from Hague-av, extending west to Wiltshire-blvd, then on to Sullivant-av, and east to Hague-av and returning to Valleyview, will make up the new route.

One bus instead of two will operate between Harris and Dibble-avs and between Wiltshire-rd and W. Mound-st every 20 minutes between 9:30 and 11 p.m.

The new routes are shorter, and take less time, the transit official said. Since each run takes less time, fewer buses will be needed to meet the schedule. On the Hague-av line, it took 18 minutes on the old run one way, now it will take 10 minutes, so only one bus is needed to keep on a 20-minute round-trip schedule, Pellisser stated.

Changes on the Mound-st route will take the buses along Mound-st to Binns-blvd, north to Sullivant-av, west to Huron-av, north to Wicklow, west to Demorest-rd, south on Demorest-rd to Sullivant-av, east on Sullivant-av to Binns-blvd, and then continuing on its present route.

Many Exhibits Of Cattle, Horses Planned Aug. 17

The Forty-Second Annual Franklin County Fair is set to open Wednesday, Aug. 17, at the fairgrounds in Hilliards. About 7,000 people are expected to visit the fair on the opening day, according to Harold Hart, secretary of the Franklin County Agricultural Society, sponsoring organization.

At a pre-fair banquet held by the society, Monday, Aug. 8, in the fairground dining hall, almost 100 men gathered to set wheels in motion for the opening day.

Probate Judge Roscoe Walker, speaker at the meeting, pointed out how the Franklin County Fair throughout the years has been one of the prime factors in offering the people of the county a chance to gather to study farm mechanization and better agricultural methods, to enjoy each other's company and to see developments which could improve their mode of living.

Wednesday Morning's Activities

Wednesday is County Commissioners' Day and the commissioners will attend all exhibits and special events.

Highlighting the opening day will be Junior Fair activities, which get under way at 8 a.m. with the judging of Junior Fair swine in a show ring in the grove. Bleachers there will seat many spectators.

Junior Fair Swine Showmanship contests and display of Meat Type Hog Class will follow in the same location.

Judging of Open Class Beef Cattle will take place in the cattle show tent, which is adjacent to the new Junior Fair cattle barn.

Wednesday Afternoon

One of the high spots of interest of the entire fair will be dedication ceremonies at the new Junior Fair cattle barn at 1:20 p.m. Details of this ceremony are given under the picture of the new building in this issue of the Franklin County News.

Thursday afternoon's Junior Fair activities include judging and showing of dairy cattle.

A special free attraction at the grandstand at 2 p.m. will be an obedience dog show to be presented by trainers and dogs from Pilot Dogs, Inc., of Columbus.

Other youth activities will take place in the Activities Tent continuously.

Commercial displays, too, will have continuous activities.

Wednesday Evening

The opening night will see the first harness racing of the fair speed program, five races with purses up to $1000.

Indian Village Being Operated As Day Camp

The Columbus Recreation Department is operating its Indian Village Camp as a day camp this summer. Plans to open it as a full time camp had to be curtailed, due to the budget reductions the department received.

A used school bus was purchased by the recreation department, and children from several neighboring playgrounds are taken to camp every day. Approximately 65 children a day have been taking advantage of this opportunity.

Facilities being used at the camp located on the west bank of the Scioto River at Griggs Dam, include a large recreation hall, swimming pool, council ring, and a dining hall.

The children are picked up at the playground at 9 a.m. and return to the playground at 4:30 p.m. Each child brings his own lunch, but milk is furnished by the recreation department.

Included in the daily program is a nature hike, crafts, group games, and two periods of swimming.

Children from the Hilltop playgrounds, Westgate, Holton, Glenwood, and Haunts, attend camp Tuesday, Aug. 9.

Children from Sunshine and Sullivant Gardens will go to camp on Friday, Aug. 12.

Karns playground attended camp Monday, Aug. 8, Lincoln, Schiller, and Southview children took part in the program Wednesday, Aug. 10. Southeast Lions and Livingston will go to camp Thursday, Aug. 11.

Vacations Are Hard Things to Give Up

Back at the old stand again after a relaxing period up on the French River and frank to admit that vacations are hard things to give up. Seems they have a way of making a fellow want just a few more days.

And what a time to be away from the hot city! . . . not to say that Old Sol didn't bear down brightly even up in the northwoods, but in any event there was always a very fine cool and refreshing breeze . . . and believe it or not just a couple weeks ago we had a big open fire in our cabin fireplace for nearly the whole day and it was very comforting!

But when we returned on Sunday we were greeted by cooler weather down this way and we are claiming some credit for bringing the polar Canadian air from the north.

• • •

Notes Along the Way: It is small world indeed and most anywhere one is likely to run into a Hilltopper as was the case when we pulled into the [illegible] at Dorilia, Ontario, about a month ago and to pull up along Ohio license 13 PW and inside to be greeted by Paul Wichterman and son, Jimmy, enroute to the Lift-a-Latch Lodge on up the way . . . No word from PW since but knowing him to be the old fisherman he is we trust he got his limit . . . And then a couple weeks ago Jack and Virginia Mitchell and daughter, Trina, were up for a few days. Jack landed an 11 pound northern pike and was proudly hoarding it home with him for a big fish dinner, only to arrive at North Bay on the boat and learn that the transmission on his car had gone out and with a holiday coming up they were forced to lay over four more days before he was able to return home . . . net result was that some North Bay folks ate Jack's fine fish and their two pecks of blueberries spoiled . . . Ask the Mitchells anything about North Bay and they can probably give you the answer . . . The Dr. R. J. Millers will be heading down this way again

Herb Deems Marks Quarter Of Century With Hilltop First Federal

August 10 is an important day on the calendar of Herbert G. Deems, for it was on that date 25 years ago that he became affiliated with the Hilltop Building & Loan Association, forerunner of the present day First Federal Savings & Loan Association.

During this quarter of a century he has served the institution as secretary, and was named manager of the Hilltop office in 1935 when the name was changed to First Federal after it was granted a federal charter. A downtown office was also established at that time and later one in Bexley. He was elected to the board of directors in 1946.

Herb, as he is called by his thousands of friends, has witnessed a steady growth of the organization since it maintained offices at 13 S. Wayne-av. Moving to larger quarters at 3369 W. Broad-st in 1925, the Hilltop office of First Federal Savings & Loan Association occupied its present elaborate building at Broad-st. and Warren-av. just a year ago.

Herbert G. Deems at his desk at First Federal Savings & Loan Association STAFF Photo

But his knowledge of the Hilltop area goes back much farther. Born at 71 S. Wheatland-av, he recalls the farm land which covered most of the present-day Hilltop and the fact that he had but 12 customers when he was a carrier for a downtown newspaper.

"Of course the Broad-st. hill is in the same old place, but the groaning interurban cars of the Columbus, Loudon & Springfield Traction Co. as they fought against gravity in climbing it are gone," he said.

Herb graduated from West High School with the class of 1913, of which he was vice-president. He admits that his only fling at journalism was during his senior year when he was business manager of the Occident.

After leaving high school, he worked for a year to save enough money to see him through two years at Ohio State University. He then matriculated at the Columbus Office Training School, earning enough cash to keep him going by mowing lawns, shoveling snow, carrying a paper route, and picking up whatever odd jobs he could secure.

His first full-fledged position was in the revenue accounting department of the Ohio Bell Telephone Co., where, after three years, he became chief clerk. Later he joined the West Side Lumber Co. as head of their cost department as well as assistant general manager.

Herb has taken an active part in civic and fraternal affairs. He was president of the Hilltop Business Association in 1930 and headed the Hilltop Kiwanis Club in 1946. He is particularly proud of his Kiwanis pin signifying 10 years of perfect attendance. Always active in youth work, he has been a member of the Hilltop YMCA board of directors since it was formed about seven years ago. He is a Mason, affiliated with the West Gate Lodge, and past patron of Robert Morris Chapter No. 372, Order of Eastern Star. Serving as a member of all boards of the Hoge Memorial Church at various times, Herb was Sunday school superintendent there for 25 years.

During World War II he served as secretary of Draft Board No. 12.

Herb and wife, Meta, who reside at their home at 26 S. Algonquin, have a son, Ralph, of Galion, O., where he is assistant treasurer and chief accountant for the Hercules Steel Products Co. A granddaughter, 10-year-old Barbara Lee, is their pride and joy.

Though Herb admits to having enjoyed the many facets of life in which he has taken an active part, he says the greatest satisfaction is derived from his everyday work at First Federal.

"We've helped thousands of people acquire homes over the years, but there is still nothing that gives me quite as much satisfaction as those moments during which papers are turned over to one of our customers marked 'payment received in full.' I fully appreciate how much toil and sweat went in to their purchase and rejoice with them in their happiness."

Retire? Herb has no thoughts of that yet. After all, he says he's still only a young man! His friends will go along with his thoughts in this matter—at least insofar as his energy is concerned. August 10 just marks the FIRST 25 years with First Federal, Herb declares.

Set Oct. 22 as Date for Kiwanis Auction Sale

Everything but the proverbial kitchen sink (and there may even be a few of those) will go under the hammer of the auctioneer on the evening of Oct. 22, when the West Franklin Kiwanis Club will hold an auction sale.

The affair, expected to become an annual event, will be held at the Prairie Township School. Proceeds will be used by the Kiwanis club for its various activities, which includes aid to underprivileged children, youth camp funds, etc.

According to Clarence Latham, chairman of the auction committee, the entire area will be solicited for contributions to the sale.

"We'll take anything which has any resale value whatsoever," he said, "and there are probably many merchants in our area who will welcome the advertising value of their contribution, whether it be an article or a service. A lot of folks have things around the house that will help to swell the list to be auctioned. It is our hope that the sale will be useful and a lot of fun, as well as make it possible for our club to do more for the community which we serve."

Mr. Latham said that details concerning the solicitation and collection of contributions would be announced in the near future. Plans are also being made to serve dinner and refreshments at the affair.

For Better Vision At Home and Work

According to recent studies two out of three adults wear glasses, yet one out of every three workers in business and industry are handicapped by sub normal vision. Why? Because they do not have the proper lens correction for their working distance and consequently even tho they wear glasses their vision is not right for their particular job.

There are important differences in visual requirements for different jobs. When you seek visual care you should explain your requirements in detail so that you get the correction that serves your exact needs. With the aid of modern science almost everyone can have vision that is up to par or better for his job and for his recreation off the job.

Little Nine End In Three-Way Tie

By Bert Kerle

The Hilltop YMCA Little Nine Baseball League ended up in a three-way tie for first place as the season ended for the youngsters. The Tigers outslugged the Cards in the most important game of the week, 14-9.

The Cards jumped out in front 8-3 in the first two innings with the aid of only two hits. The Tigers came back with six runs in the third inning. Terry Linson collected two of the five hits for the winners. Bill Hill started on the mound for the Tigers and received credit for the win while the loss went to Morris of the Cards.

The Dodgers sent the league into a three-way tie as they defeated the Yanks 7-1. The victors scored three runs in the first inning which proved to be enough to win the game. The big blast of the inning was a double by Bailey, who also connected for a double in the fifth inning to drive in three of his team's runs. Rigby went the distance for the Dodgers and gave up only a single to Thornton, the loser for the Yanks.

The Redlegs knocked the Indians out of a tie for first as they edged the losers 7-6. The Redlegs scored two runs in the first on a double by Timmons and a triple by Cantlon. Levering hit a grand slam home run in the fifth inning to tie the score at 6-6. The winners tallied the clinching marker in the seventh inning on a double by Wertz and single by Timmons. Cantlon went the distance for the victory and Levering was charged with the defeat. Levering got two singles, a triple and a home run and Cantlon collected a triple and three walks.

The Cubs turned back the Braves 8-4 in the other regularly scheduled game. The Cubs took an early 4-0 lead after three innings. The Cubs took an early 4-0 lead after three innings. Saint was the winner and Barnes the loser. Barnes, Ricketts, Ditrick and Miller each got two hits for the Braves.

In a make-up game the Yanks defeated the Indians 5-4. The Indians scored four runs in the first four innings, only to be tied by the Yanks who scored four in the bottom of the fourth. Doubles by Thornton and English were the big blows in the Yanks' rally. The Yanks scored the winning tally on a [illegible] to Graves and a single by Thornton.

Playoffs were held on Monday and Tuesday, but the results won't be available until next week.

IT HAPPENED IN FRANKLIN COUNTY

Michael Sullivant Was An Organizer Of Ohio State Fair

By Gilbert F. Budde

Michael Lucas Sullivant was the second of four children of Lucas Sullivant, a Virginian, and Sarah Starling Sullivant. He was born in 1807 in the frontier village of Franklinton which his father had founded. Here young Sullivant, a boy of sturdy physique, grew to manhood and inherited his father's tenacity of purpose. Realizing his natural abilities, his father sent him to Ohio University at Athens and subsequently to Center College, Kentucky.

The death of Lucas Sullivant in 1823 made it necessary for Michael to assume, almost immediately, a large part of the management of the productive farm which his father had cultivated. At that time farming was not a remunerative business and there was but small demand for farm products.

Consequently Michael decided that the best plan was to feed his corn, hay and roughage to the livestock. He soon became a pioneer in the large scale "stall-feeding" of cattle and hogs.

In addition, he introduced new methods and machinery on his farms and was the first to buy and put into operation in Franklin County a power threshing machine and McCormack reaper.

Michael Sullivant was interested in the improvement of all kinds of farm stock and was the originator and financial supporter of "The Ohio Importing Company" which imported the breed of cattle, mules and horses which suited the wants and requirements of Franklin County farmers.

In 1854 Sullivant sold his Franklin County holdings and moved to Illinois where he died in 1879.

Sullivant was one of the original organizers of the Ohio State Fair and served as a president of the fair board for several years. The value of his contributions to the development of early agriculture in Franklin County and in central Ohio cannot be estimated.

The old Michael Sullivant homestead, built in 1836, was located on the Hilltop on W. Broad-st near Hague-av, and was razed in 1949 to make way for a new U.S. Post Office building (Don Casto, builder). It was the oldest house in the Hilltop vicinity at the time of its demolition.

A picture of the house may be found on page 20 of the Franklin County Historical Society's Homestead annual, October, 1950.

Three Close Games Featured In 'Y' Old Timers League

By Merry Grashel

Three close games featured the weeks activities in the Hilltop YMCA Old-Timers Softball League.

In a Major upset, Glenwood Methodist won a thriller over Grashel's Mobilgas by a 6 to 4 count with pitcher Russ Alban winning his own game with a three run homer in the 4th inning. Hutchinson, Hayoron and Alban hit safely twice each for Glenwood while Herold and Frank Grashel each had two safeties for the Mobilgas team.

Hillcrest Baptist put up a great battle before losing to West Park Methodist 6 to 5. A four run 7th inning rally featuring Bill Kuhn's long home run scoring B. Dillie, Eberhard and C. Dillie ahead of him turned the tide. Lefty Gurina, Charley McInturff and Frank Massey were the leading swatters for Hillcrest as Cortland Roth pitched excellent ball.

Westway Post VFW stopped Diamond Milk Co. 11 to 5 as Ross and Benndetti gathered 4 hits and Hartman and Ryan three each for Westway. Judy, Klarman and Holt had two hits each to lead the "Diamond Joe" attack.

In another upset, Northway Post VFW dropped Westgate EUB 20 to 18 in a 9 inning struggle. Adams and Stokes each had five safe blows with team-mates Brobst and Cochran getting four each for Northway. Reeves, D. Horne, Surrell and G. Smith each had four safeties for Westgate EUB.

In the Hilltop Service Club battle, Kiwanis swamped the Lions 15 to 4.

Notes and Nibbles: Thanks to Dr. Bill Johannes for the photo of "those tasty things" . . . Jimmy and Louise Ryan celebrated a wedding anniversary on the 15th . . . The Ed Melvins really had a party over at Bermuda on their 50th wedding anniversary, including a kiss for Mrs. Melvin from Jackie Gleason and a visit of about an hour at their table from Jackie and Joan Taylor, and next day Ed went swimming with Jackie . . . Ed reports Jackie is the same in real life as on TV . . . Harold Cunningham was kicked by a horse at Plain City fair last week but he still believes in horses . . . The Hilltop YMCA building fund is $5,000 richer this week after receiving the check for that amount from the estate of the late Ed Staucli . . . Such gifts are helping in a big way toward the realization of the Hilltop Y building and incidentally there will be some big news on that subject for release within a few weeks . . . The Harold Cramers are back on the Hilltop and we salute them with a big "Welcome" . . . Gift Harper, former Hilltopper, has sold his restaurant at West Jefferson after about 15 years and will soon develop some home sites on a farm just west of that village.

Vacation Bible School Still Has Openings For Youngsters

Registrations for the Vacation Bible School now being held from 9:30 a. m. to 12 noon at the Seventh-day Adventist grade school building, Union and Ryan-ave, can still be made, the directors said.

Classes started Monday, Aug. 8, and will continue to Aug. 19. Each day's activities are a separate unit, so youngsters from 3 years and up, including the teen-agers, may join on any day.

The varied program includes Bible stories and lessons in workbooks for each age level, games, songs, pictures, supervised play and a wide variety of handcrafts. The school is free and open to children and youth of any faith, said Pastor Richard T. Minesinger. The theme for this year is "God's [illegible]."

Besides the regular experienced grade school teachers, Miss Opal Winterfeld of Toledo and Miss Helen Yingling of Mount Vernon, were sent by the Ohio Conference to direct this Vacation Bible School. Some of the youth leaders of the local church who will assist are: Mrs. H. A. Kinkead, 5306 Norton-rd and Miss Ruth Michaelis, 177 N. Terrace.

For further information about the Vacation Bible School call Miss Winterfeld or Miss Yingling at AM. 2-6381 or Miss Ruth Michaelis, [illegible] 4-6851.

The Human Trinity
Father, Mother, and Son. That is God's way to make a good world. He entrusts one of His children to us, hoping we may be ready... worthy.
Opportunity has come to this family. God has called and the lad needs help. He sees the future opening up. Does he dare tell them what is in his mind? Will they encourage or will they discourage? We older must never become set and finished. The growing life needs the sunshine of our hope.
If we cannot go with them in body, surely we can go ahead of them in thought. A very ordinary room, but God has spoken in unmistakable terms. Decisions are being made... maybe to go to church... maybe to accept Jesus. From just such places men have gone out to change the world. May this be another hour of decision!

'Gold Rush' At Holton Park

A treasure hunt conjured up pictures of buried gold to the literal minds of John Grazbel, eight of 335 N. Ogden-av and Carol Horton, seven, 142 N. Powell-av. The two showed up, armed with shovels, and discovered to their chagrin that the Hilltop YMCA-sponsored "treasure hunt" had nothing to do with digging! The hunt was held in Holton Park recently. New Company Formed In The Hilltop Area

"We specialize in building three-bedroom ranch type homes on your present lot" is the theme of the newly formed Sullivant Builders Inc. company with headquarters in a brand new building at 2466 Sullivant-av.

The two men behind the company are two life-long Hilltoppers, John H. Kuhn and Malcolm Pennell. Both men specialize in real estate in the Hilltop and West Franklin County areas. They will, however, continue to practice real estate individually.

Pennell has been a realtor for four years, and 15 years for Kuhn. Both men belong to the real estate board.

They opened their new office on July 1.

Kuhn is a member of the Hilltop Business Association and Pennell is first vice-president of the West Franklin County Kiwanis Club.

Pennell has a branch office at 81 Maple-dr in New Rome for better service to his Franklin County customers.

Working as salesmen for Kuhn are Lowell Drum, Al Wenger, and Ed Elliott.

James W. Donahue is a salesman for Pennell.

'Zoo Masters' Get Zoo Tickets By Aug. 15!

Between 400 and 500 children have qualified as "Zoo Masters" in the Zoo Book Club of the Hilltop Branch of the Columbus Public Library. As a reward for their summer reading success they are being provided with an honorary one-day membership in the Columbus Zoo. The membership card entitles them to one free admission to the Columbus Zoo any day from now on to the end of the 1955 season. In addition they will receive free tickets for a trip on the Zoo Zephyr and six other Zoo Kiddieland rides. The children who have received post cards from the library telling them they have completed the reading requirements making them eligible for these tickets, are urged to present the cards to the library not later than Aug. 15. Shown above exchanging their post cards for the zoo tickets are, left to right, Betty Lou Hogan, and Carol Ann Hogan, 366 N. Murray Hill-rd, Lincoln Village. The librarian is Miss Ruth Finley. Dear Editor

This newspaper invites letters from its readers on subjects of timely interest. All letters are subject to the approval of the editor. Editorial revision will be made in all letters to correct grammar and spelling. All letters MUST be signed by the writer . . . his name will be omitted if requested. The Editor.

Dear Mr. Hartley:

A member of my staff called to my attention this morning an editorial entitled "No Time for Petty Politics," which appeared in your paper on July 28. I have just read it with considerable interest and found that many of the ideas expressed in the editorial coincide with my feelings on the matter. I regard "No Time for Petty Politics" as one of the most substantial editorials on public education that I have seen in recent years.

I believe that you are to be commended for publishing such informative and thought-provoking material in your newspaper, and I hope that when similar editorials appear in the future they also will be brought to my attention.

Sincerely yours,
N. G. Fawcett
Superintendent of Schools

Dear Mr. Hartley:

We were so pleased with the pictures and description of our home that we thought we would like to let you know about it.

We have enjoyed seeing and reading about each home that has been presented every week, so it made us very happy to have ours selected as one of such homes.

Our appreciation is extended to Mr. Groom and Mrs. Weaver for their fine cooperation.

Mr. and Mrs. D. S. Snyder,

Story Tellers Spellbind 130 Youngsters

Story Hour is the big event of Wednesday these days at the Hilltop Branch Library, 3965 W. Broad-st. One hundred and thirty children listened intently recently to stories told by Mrs. Cleo Stickel, 656 Chestershire-rd. Mrs. Edward Hakola, 186 S. Richardson-av, and Mrs. Richard Hill, 348 Demorest-av.

"This has been a very successful series, thanks to the fine cooperation and unselfish sharing of talents of these gifted ladies of our community," said Mildred Phaler, librarian.

New Books Out

"Start Picking" is the timely admonition of a chapter in the new book—"Cooking By the Garden Calendar." This unusual book is written for gardeners who like to eat, and for eaters who like to garden. Author—Ruth Matson—states in the forward that seasons and the weather have a compelling influence on both cooking and gardening, so she has organized her ideas from the point of view that both cook and gardeners know their business and need only a hint to see the possibilities of this novel idea.

In this mechanized age the Canoe is still popular for hunting, fishing, camping and racing. "Principles of Canoeing," by Pierre Pulling is a valuable little book bulging with information from paddling, to the aluminum Canoe with an outboard motor. Fine for organized groups and camps.

Canoeing Out West

Thinking of canoeing and the great outdoors brings to mind a new anthology of stories, "Out West," edited by Jack Schaefer. In the table of contents are names of authors of note such as Gertrude Atherton, Stephen Crane, Howard Fast, and Fredric Remington. In the Editor's Note, Mr. Schaefer says that thru the years, a few good writers sometimes standing out, sometimes obscured in the crowded crush of the mediocre, have done good work in the field. It is his purpose in this anthology to assemble good western reading in a representative cross section of the field, and to point the path for those interested in more of the same.

The inspiration of American tradition and privilege is noted in the new biography "Hugh Roy Cullen." Subtitled, "The Story of American Opportunity," author Ed Kilmade presents an excellent picture of the life of an outstanding pioneer in American industry.

Just Kids At Knife Point

There have been several incidents of juvenile misconduct on the Hilltop during the past month. Several young boys robbed another youngster at knife point in a Hilltop park netting eight cents.

Last week two small girls were badly frightened when several teen-aged boys stole a box of money containing $25.75 which was from the sale of festival tickets. The incident happened right in front of St. Aloysius Church.

Early one morning last week police were cruising around the Hilltop looking for a group of youths who were stealing things from parked cars. The policemen asked in stores, which were open at that early hour, asked at The Record, and many other places if they had seen anything of these youthful thieves.

Though we would be the last ones to even suggest that this is becoming a trend and juvenile delinquency is rampant . . . something MUST be done!

Movies, comic books and TV have greatly aided the juvenile offender or possible juvenile delinquent toward a road of crime.

Not long ago mothers and fathers watched closely over what their youngsters were reading. Now few parents realize what type of comic book their child reads (even though a concerted effort has been made by newspapers and radio); even fewer parents tell their children they may or may not watch certain TV shows.

In New York recently a father asked his crime-ridden son, "What are you trying to do to me?"

Parents today who do not offer their youngsters anything better reap the harvest of neglect, lack of love, lack of understanding and lack of vigilance.

It is not all the parents fault. Much of the problem lies in our faulty code of ethics which allows too much freedom in the production of comic books, freedom in the production of TV and freedom in allowing "trash reading" to get into the hands of youngsters who ACCEPT WHAT THEY READ AS GOSPEL.

It is not too late to do something about it in your home and ours. What must be done is very simple. The statement: The family that prays and plays together stays together. It might be added that the children of these families generally stay out of trouble too.

The Hilltop offers a wide variety of amusements and recreation centers for children and youth. The YMCA and YWCA have many sports events, religious discussion groups, clubs and other activities. Get your child interested in them.

If the home is the center of high minded thinking, enjoying good music, listening to worthwhile radio and TV programs, reading worthy books and talking things over between one another . . . then parents need not be concerned as to the road their child will take.

If swearing is common in the home, it surely carries out into the street with the children; if fighting is common in the home, it carries out into the activities of the youngsters; if reading trash and looking at every TV presentation is allowed in the home, the things seen on the screen will be done or thought about by the children.

As the twig is bent so grows the tree, as the parent, church, school and other sources of amusement for children offer good clean entertainment and education, so the youth of the Hilltop will grow up to be worthwhile citizens.

Vacation

One Man's Opinion

From THE EDITOR'S DESK

One of the finest service organizations on the Hilltop this week announced the opening of a drive for memberships soon.

The Hilltop YMCA has long been known as a progressive mainstay for good activities for youth. There are many other service organizations which offer similar programs . . . but none also includes in its basic tenet the spiritual phase for development of youngsters.

When a youngster goes to the "Y" he is there with excellent trained personnel who have been educated and specially trained for their job. There is no hit and miss chance taken here. These men must be tops to handle the children of the Hilltop.

Recently a new man was chosen to replace Dick Wilson, long known to Hilltop youngsters as a most regular guy. Bert Korte has been chosen to take Wilson's place.

The choosing of Korte was not done overnight. After many letters and interviews, he was chosen from a host of others.

When parents buy a membership for their youngsters at the "Y" they buy a ticket on a worthwhile train of moral, physical and spiritual education.

An outstanding personality on the Hilltop, "Doc" Campbell serves with a group at the Hilltop "Y." Doc represents the fine quality of lay leadership working with the Hilltop Youth.

If you do not have your youngster enrolled as a member at the "Y" don't wait, do it now.

There are also hundreds of boys and girls who do not have the $1 for membership and would like to belong . . . here too you can help.

Remember . . . if you're going to do it . . . do it TODAY.

St. Aloysius Festival Today

The annual lawn festival of St. Aloysius Church is being held today at the church. There will be many activities for the enjoyment of everyone.

Be sure to drop over to the church and join in the fun. Catholics and Protestants alike will walk among the booths at the festival and in the spirit of Hilltop friendliness everyone should have a wonderful time.

For a Civic Purpose

For a long time now, the Hilltop Community Council, the Hilltop Y-Teens, Hilltop Y and Glenwood Recreation Center have been supporting the Y-Teen Dance.

No finer recreation could be found than that sponsored by civic minded groups. They are not only offering something wonderful in recreation, but the music presented is tops too.

The affair of "Dancing In The Dark" climaxed one of the highs of the season's programs. Boys and girls gathered, enjoyed cokes, danced, sat and talked, all under excellent chaperons.

Welcome Rev. Cunningham

Returning to the church in which he was ordained 16 years ago, the Rev. Fred Paul Cunningham has returned to Columbus to serve the church. Welcome back!

Ordained as a minister at St. Paul's Evangelical Congregational Church, the Rev. Mr Cunningham will now serve there as its minister.

The Rev. John Paul Dunn has left for the impressive position as presiding elder of the Western District of the Western Conference of the Evangelical Congregational faith at Akron.

No Place For Monopoly

The production of atomic weapons is a job for the government. But when it comes to putting the atom to work to serve the arts of peace, private enterprise must enter the picture.

Right now private enterprise is building the first commercial scale atomic-electric plant. Proposals for four other plants have been presented by private enterprise to the Atomic Energy Commission. These are pioneering plants, and initially the power will probably be expensive to make. But it will be sold at regular rates. The electric industry expects to learn from such experiments how to build more economical and efficient atomic-electric projects for the future.

There are those who want a government monopoly of the atom—in electric power production and everything else. That attitude is not shared by the most in top policy-making governmental positions.

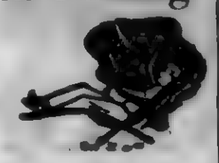
Actually, the surest way to prevent progress is to have a monopoly, governmental or otherwise, of anything. The more minds and more resources we can devote to any problem, the sooner it will be solved.

The element of competition comes into this too—monopolists can afford to take things easy. Men who work under competitive conditions can't.

No one knows how soon atomic power will be practical on a really big scale. But private enterprise can be counted on to bring it about in the shortest possible time.

Devotion To Duty

On the day following former President Hoover's retirement to private life, the Portland Oregonian said: "Herbert Clark Hoover, who will be 81 years old in August, can look back on a public career that has had few, if any, parallels in the history of the republic. . . .



"When Mr. Hoover left the presidency in 1933, he had even then reached an age when most men look toward retirement and the tranquil satisfaction of a sequestered life. But Mr. Hoover never laid aside his vital concern with the nation's fortunes at home and abroad. . . .

"Herbert Hoover should have the warm gratitude of all Americans for his extraordinary and unselfish devotion to public duty. . . .

Mr. Hoover has always stressed the philosophy of government upon which this nation was founded and which has been the true source of its strength and well-being. Not long ago he expressed that philosophy in a sentence when he said: "The remedy is to restore the checks and balances of power, to reinvigorate state and local governments and to deflate the bureaucratic empires."

Politics is such a torment that would advise every one I love not to mix with it.—Thomas Jefferson.

In Passing

By Esther Weakley

SUGGESTED VISIT TO MOTHER
Why not go out to see her soon?
Don't stop to put your chores away
Or wait for some dull afternoon
When you have no place else to play—
She might be out of town that day.
She might be so far out of town
That all the world's loud-pealing bells
And Time's brass knockers hammered down
Could never echo down the wells
Of distant silence where she dwells.
The mills that grind exceeding slow
May grind you both to dust too late;
It may not long be yours to go,
Nor always hers to sit and wait
To greet you — smiling — at the gate.

Today is his birthday. A mother remembers many things the day she suddenly realizes her son is thirty. Most of all she wishes he were small again and she could have another chance—she would do things so differently. She remembers his first smile, his first tooth, his first steps, his first words, his first day of school, his last day of school, the day he went to war and the long days till he came back, the day he was married—and all the days in-between. If she cries a little and prays a little it's because the years have gone by so swiftly.

People are wonderful, especially the people who read The Hilltop Record. A column or two ago I mentioned that all I ever got in the way of illnesses is poison ivy. Two readers called and two wrote, recommending cures for it. Of course one said "Stay away from it," and didn't give a cure, but anyway, he called. Thank you for writing and calling—and for reading this.

One particular day I like to remember happened when my aforementioned son was about ten. In a weak moment I had promised him that some day I'd let him demonstrate his Scout cooking knowledge. I was downtown that day so he thought that was the opportune time. When a proud little cook watches anxiously from across the table, half-raw potatoes and charred ham seem somehow to slide down one's throat under their own power. And one can DRINK Jello that doesn't jell. The next day I discovered the garbage can was full of dough. He had used baking powder not wisely but too well, so when the result didn't resemble the biscuits he had intended to bake, he had decided we'd have bread, instead.

Mail—From Columbus: I heard this on television: A little boy was asked to write an essay about his parents. He wrote "One day my dad went into a store and a clerk sold him a dill pickle that turned out to be my mother" . . . This time I'm looking over Sandy Sanford's shoulder and reading a letter she received from our own Don Alban, who is spending the summer in Dallas. Sandy has a friend in Bellaire, Texas, and was under the impression that Bellaire is a suburb of Dallas. She wrote to her friend and to Don, hoping they could get together. Don answered Sandy: "Bellaire is 800 miles from Dallas, and even in Texas that is a rather distant suburb."

From somewhere—At 2 a. m. a doctor was called for an emergency ten miles out of town. The patient proved to be a sort of Milquetoist with nothing more wrong with him than a simple cold. He said he'd had the cold three days. The doctor asked "Why did you call me out here in the middle of the night?" and the patient answered "I knew I couldn't pay you and I just didn't want to bother you during the day when you are busy with your paying patients."

The Ollie Bettinger home, 4580 Alkire-rd, is four and one-half years old. Tastefully landscaped on all sides, it nestles down to the well-kept lawns just as though it "grew" there. The front is limestone, while the other sides are brown shingle. The aluminum awnings are yellow and brown. The roof is also brown.

Bettingers Have Colonial Ranch House

Alkire Road Home Air-Cooled

The attractive Ollie Bettinger home at 4580 Alkire-rd is Colonial ranch style. The exterior is of brown shingle with a limestone facade. The roof is brown, and aluminum awnings at the front windows are yellow and brown.

The two-car garage is attached to the house by an enclosed breezeway.

Well-kept lawns slope down to fields in back of the house. Here you usually see some of the handsome race horses and colts which Mr. Bettinger breeds on his ACTAS. Mr. Bettinger also farms.

The Bettingers, who have no children, live comfortably and coolly in their one-floor plan air-cooled home.

In the living room a blue velvet mohair sofa and companion chair stand out against rose wall-to-wall carpeting and gray walls.

The picture window to the south has draw draperies of natural background, with rose-colored magnolias and touches of green in the print.

A pair of identical gray mohair frieze chairs flank the picture window.

A mahogany drum table with silk-shaded pottery lamp stands before the big window. The table has a leather top handsomely tooled in 22-karat gold and is a copy of a Colonial antique style. There is also a mahogany desk and television set.

Much of the Bettinger living room is reflected in the lovely wall-to-ceiling mirror around the fireplace on the north wall. The hearth and fireplace are fashioned of rose marble in a design of strict simplicity.

Adjoining the living room is the dining area of the home. Here the furniture is of bleached oak with chair seats of rose. Draperies at the wide window have a modern block pattern of blue green with touches of yellow, white and red.

The mottled linoleum, in shades of rose, cream and blue, continues into the nearby kitchen where counter tops are blue Formica with gray plastic tile on under-cupboard areas.

Kitchen cupboards and clever little half-circular shelves at the ends of cabinets are of natural-finished birch, as is all the woodwork throughout the house.

The large guest bedroom is done in pastels only. It has pale yellow walls, beige ceiling, and all the furniture is light bleached oak.

The bed, like the rest of the furniture, is of modern design and has a pale yellow quilted taffeta spread on it. From underneath this hollows a white dust ruffle.

White chromespun draperies hang at the windows, striking in their stark simplicity.

Chartreuse throw rugs complete the unusual color scheme in the guest bedroom.

In the master bedroom the walnut furniture is set against a background of green walls and rose window draperies. The taffeta spread has a rose print in it and is trimmed in plain rose ruffled edges. The Mr. and Mrs. closet is spacious.

The den is in the breezeway connecting the kitchen and garage, and is Mr. Bettinger's favorite room. Living is informal here with chairs sturdily slip-covered or done in green plastic upholstery.

Tan and brown linoleum covers the floor and the walls are pine-panelled. Green and yellow plastic draperies at the many windows complete the color scheme.

In this room the Bettingers read the papers, relax, and listen to the radio. The family house pet, "Tootsie," a parakeet, spends each morning on a card table set up for her exclusive use, and covered with a parakeet play yard, ladders, turning wheels and all kinds of perches which "Tootsie" likes.

A panelled stairway leads down from the den to the roomy basement, which is used for recreational purposes in the winter. It also contains the laundry, oil-fired furnace, and air-cooling system.

A jewel-tone blue velvet mohair glows against gray walls and rose carpeting in the Bettingers' living room. The floor-to-ceiling mirror surrounding the rose marble fireplace reflects the picture window framed in floral-printed draperies.

In the guest bedroom, shown above, very pastel warm colors are featured. Draperies are white chromespun material; bedspread and walls are pale yellow, white lampshades and loop-pile rugs are chartreuse.

A portion of the Bettinger's kitchen and dining area is shown above. All cupboards are natural-finished birch. The mottled linoleum floor is predominately blue, with rose and cream touches.

Are You Ready For Winter's First Attack?

The first snowflakes are gentle reminders of the troubles that besiege the house in winter — condensation, on the Windows, drafts, cold walls, high fuel bills, leaking roofs.

Now is the time to decide. Are you going to suffer with these problems through the winter or do something right away to prevent them, while there still is time?

The best place to start the pre-winter checkup is the roof. If shingles aren't down tight, nail or cement them in place. Otherwise wind and moisture will do their dirty work. Freezing and thawing will complete the job of destruction and you'll have a leak before spring.

Check Gutters

As you leave the roof, clean out the gutters and look for spots where they might rust through. Perhaps a coat of asphalt-base paint is needed on the inside.

Shifting to the outside walls, look for cracks around doors and windows that can be sealed with caulking compound. If the walls need new siding and you are plagued with cold interior walls, you can lick both problems at once with insulating siding. You'll insulate the house, give the exterior an attractive modern look and save on the fuel bills.

If the sidewalk or driveway needs repair, don't wait for cold weather when concrete will freeze. Do it now.

Moisture vapor is a continual problem during the winter if you don't have storm windows. They help cut fuel bills, too, and save your walls from the damage caused by moisture dripping from the windows.

All this may sound like a lot of bother, and it is. But it saves money and grief in the long run.

Kirkpatrick's Celebrates Its Centennial Year

A pioneer Columbus agency is celebrating its 100th year. Kirkpatrick's Insurance Agency at 42 E. Gay-st originally organized in 1855 as the Seeley Agency has represented the Ohio Farmers Insurance Company in Franklin County since that time.

The company today is under the management of three men. C. D. "Zeke" Palmer is president of the agency and has 36 years of service with his company. Zeke is particularly remembered for his many years of service to the Franklin County Agricultural Society in promoting the Franklin County Fair at Hilliards. John E. Best is vice president and has been with his company since 1944. Samuel E. Miller, the newest member, is office manager and secretary-treasurer. He came with the firm in 1946.

The men are active in various civic affairs throughout the county and the agency is recognized by the Ohio Farmers Insurance Company as one of its most aggressive representatives, affording an adjustment, engineering and survey service so essential to a comprehensive insurance business.

The Paul Leighninger Memorial Fund

Few business men of this community are so well liked by most everyone as was Paul Leighninger. His death this past week has meant the loss of a very pleasant friend to many. His service to the community will long be remembered.

It was a very fitting gesture when his family decided to establish a memorial fund to be given to the Hilltop YMCA. All such contributions may be made to H. G. Deems at First Federal Savings & Loan and all gifts will be promptly acknowledged and the family will be given a list of donors. The money in turn will be added to the Hilltop Y building fund and at the time of dedication of the new building a suitable memorial will be placed therein to commemorate Paul's interest in the youth of the Hilltop.

In the words of all who knew him "he was a wonderful fellow". His interest in sports and youth activities was outstanding. The community has lost a wonderful friend and booster.

Dangerous Corner Claims Another Victim

One car traveling the wrong way down a one-way street brought two cars together in a collision which demolished the front end of a 1955 Oldsmobile and pushed in the side of a 1947 Chevrolet. Fortunately no one was injured in this accident. STAFF Photo

"I was just going to get a cup of coffee," said Lawrence A. Strang, 28, 147 Coolidge-av, who was alone in his car. "Suddenly there was this car which hit my car and I couldn't get out of the way."

On Friday noon, Aug. 12 Edward L. Aisel, 28, 16 N. Glenwood-av, was bringing his girl friend and aunt home from work at General Motors. As she directed him on a maze of Hilltop one-way streets they missed one at Whitehead-rd and Harris-av and without knowing it they were traveling south on a one-way street, according to Aisel's friend, Miss Irene Casey, 2760 Vanderberg.

There is no stop sign going south on Harris-av and with caution, Aisel said, he was about to turn left onto Mound-st when he struck Strang's car. Fortunately no one was injured, Strang added.

For a long time, Aisel pointed out, he has been driving fire equipment at the Grandview Heights fire station and he has never had an accident.

No estimate of damage was given, but Mrs. Otis Kinney, 2659 McKinley-av, Aisel's aunt, said the Hilltop one-way streets are not adequately marked.

345 Violations Noted

Mr. and Mrs. Ray Compton, 732 S. Harris-av, live on the corner of Mound and Harris-av and stated that in a year there are at least 365 violations at that corner.

Just last May in the Hilltop Record there appeared a picture showing a Cadillac on their lawn after it was in an accident at the corner. It came near to crashing into their living room.

"For one thing," Compton asserted, "there should be a blinker light at the corner of Harris and Mound for Harris-av traffic. When the plants let out some drivers are in such a hurry to get home they travel over 50 miles-an-hour down Mound-st.

While the reporter and the Comptons were discussing the corner situation and the police cruiser was on the corner facing north, a woman driver drove the wrong-way down Harris-av and turned onto Mound-st without bringing pain from the law officials.

Violations Too Common

"It is so common," Mrs. Compton insisted, "that if you stood here for even a short time you could see people violating the one-way street and stop signs."

"Three or four people go down Harris the wrong way almost every night," Compton said. "We sympathize with the people in the crashes but something has to be done . . . there are just inadequate signs here."

There have been no deaths reported at Harris and Mound-sts, but there have been many accidents involving many dollars of damage, the Comptons pointed out.

So many people miss the stop sign at Harris going north that someday someone will be killed and then they'll put up a blinker light there, Compton concluded.

How Good Is Voice On Your Hilltop?

How is your voice? Are you heard above the din of rush rush rush of everyday heller skelter? Do you think you have some ideas that are worth hearing by other Hilltoppers?

HERE IS YOUR VOICE . . . THE HILLTOP RECORD!

Any person may write a letter to the editor of the Record about topics of local interest.

What do you think about the one-way streets on the Hilltop, are they good or are they just a menace to good auto navigation?

Did you want to compliment a Hilltop Cop for work well done, or perhaps the fire department has done you a service and you would like your neighbors to know how efficiently they worked . . . the Record is your voice . . . use it wisely.

Lucky Explorer Scout Returns Home Again

Thirteen days on a 137,000 acre Boy Scout reservation in New Mexico was the good fortune of Joe Weaver, son of Mr. and Mrs. Harold Weaver, 133 S. Westgate-av.

Little Joe, just returned from a trip in which 21 Explorer scouts from this area spent their days on Philmont Ranch, near Cimmaron, N.M.

While there Joe and his buddies found new training skills developed in camping, hiking, horseback riding, nature study and the observation of western wild life. They watched jack rabbits, deer beaver, buffalo and porcupines at work in their natural habitat.

On the way home the group visited Pike's Peak, the Garden of the Gods, and other points of interest in Colorado Springs and Denver.

50 Years Of Wedded Bliss Celebrated By Lawn Fete

Only four more days and the climax to a years preparations will be seen as a Hilltop couple celebrate their golden wedding anniversary.

Mr. and Mrs. Grover Amrine, 150 Binns-blvd, who have lived on the Hilltop for 47 years, will not watch the 50th year of their married life slip by unnoticed. Even if they wanted to there are four children who would never let that happen.

On Sunday from 2 to 5 p. m. open house will be held at the little white frame Amrine home where neighbors and friends have been invited to gather for refreshments and to sit on the large finely clipped lawn to just sit and visit.

Setting up some of the preparations are the children of this couple: Mrs. R. A. Shipley of Gloucster, O. who has four children, three of whom are married; Kenneth Amrine of 1120 Wicklow-rd and his two children; Harold Amrine of Santa Fe, N. M. who has one child married with two children; and William Amrine of 3541 Beulah-rd and his two children.

The former Lottie Livingston lived with her parents in the home her father had built at 309 S. Harris-av when she first met Grover Amrine.

The couple was married on Aug. 19 at the Fifth Avenue United Brethren Church by the late Rev. O. G. Wright. They lived first at 480 S. Harris-av and have lived at the Binns-blvd address for the past 30 years.

The only living couple who are charter members of Bergen Avenue Evangelical United Brethren Church they really helped the church to grow, literally from the ground up. Mrs. Amrine recalls that her husband helped dig the foundation for a small white frame building that preceded the church's present structure.

Mrs. Amrine is a member of the Daughters of America, Liberty Chapter and of the Ohio State University Mothers Club, Group A.

Mr. Amrine was retired in 1953 as supervisor of the 20th-st station, Pennsylvania Railroad, after 49 years and one month of service. He is a former Democratic committeeman of the 11th ward.

He happily admits his hobby is talking with people and his wife agrees with him enthusiastically. She says, "He can go to Broad-st for a simple errand and not return for two hours if he happens to meet a friend."

Gracefully passing the years, Mrs. Amrine, 69 and Amrine at 71, have many memories of growing families, a changing neighborhood and friendly neighbors on the Hilltop.

Hilltop Boy Is Accidentally Electrocuted At Play, Sunday

Death wrote "finish" to the fun with terrible suddenness while three Hilltop boys played at constructing a make-believe fort Sunday afternoon in an open field behind the 700 block of Wedgewood-dr.

Walter F. Schwind, Jr., 721 Derrer-rd, was pronounced dead on arrival at Mt. Carmel Hospital, accidentally electrocuted as a steel pipe he and a playmate were hoisting as a flagpole came in contact with high tension wires.

His two friends were Benny Jackson, 15, 656 Derrer-rd, and David Schneider, 14, 633 Derrer-rd. The three boys were classmates at Briggsdale School and were graduated from the eighth grade there in June.

Franklin Township emergency squadsmen and a Westgate Manor resident, John P. Norton, 24, 725 Wedgewood-dr, behind whose home the accident occurred, worked over the boy three-quarters of an hour in attempts to save his life.

A cloth was attached to the end of the pole for a flag, the Jackson boy said, and he and the Schwind boy lifted it into the air to lodge it in the ground. The Schneider boy was standing nearby.

The pole was upright when it struck one or more of eight high tension lines carrying 2300 volts.

The Jackson boy said he was able to let go of the pole, but young Schwind was frozen to it as it tumbled to the ground. He was jarred free as it hit.

Benny suffered electrical burns on the left hand and right foot. He was released after treatment at the hospital. A third fort builder, David, was not handling the 34-foot-long pipe and was uninjured.

Sheriff's Deputy Russell Conner said the life of the Jackson boy may have been saved because he was wearing rubber-soled shoes. Young Schwind wore shoes with leather soles which had become dampened in the grass.

The boy was a member of St. Mary Magdalene Church and is survived by his parents, Sgt. and Mrs. Walter Schwind; three brothers, Arthur, 18, Joe John, 13, and Bill, 6; two sisters, Lisa, 11, and Ann, 8, and paternal grandfather, Reuben Schwind of Whittier, Calif.

The youth's father, T/Sgt. William R. Schwind, stationed with the air force at Chitose Air Force Base, Japan, has started home.

Requiem High Mass will be sung at 9:30 a.m. Friday in St. Mary Magdalene Church. Friends may call at the John Quint & Sons Funeral Home. Burial will be in Mt. Calvary Cemetery.

Franklin County Fair Starts Today In Hilliards

An unprecedented number of visitors are streaming into the grounds of the Franklin County Fair at Hilliards. It would appear that the 30,000 attendance figure predicted by Amor R. Bogan, fair board president, will be reached by Saturday evening.

The fair is displaying a record number of exhibits this year. More enrollments were made by county 4-H and FFA clubs than ever before.

Better and larger facilities for cattle exhibits in the new Junior Fair Cattle Barn account for many of the increased cattle entries.

The new cattle barn, at the northeast corner of the fairgrounds, was dedicated in a ceremony Wednesday, at 1:30 p. m. Principal speaker was Bob Jones, manager of the Ohio State Junior Fair. Fair board members, County Commissioners and others participated.

The new 84 by 105-foot building was built principally with funds supplied by the Franklin County Commissioners. It is completely modern with overhead doors, electricity, piped water and skylights, in addition to new stalls and facilities for handlers.

YOUR YOUTH

By Bert Korte and Bob Schmidt

With approximately only a week and a half remaining in our Summer Fun Club program we find all of the members attending as many of the events as possible so that they are eligible to receive the Summer Fun Club emblem. We find that by checking the points that there are three members who are very close in the number of points they have earned which means that we will not know which will be the grand prize winner until the evening of the Summer Fund Club awards night which is scheduled for Aug. 25, 7:30 p. m. at the new Westgate Shelter House.

It seems that one of our most popular and educational rubberneck tours this year turned out to be our recent tour to the City Prison. Approximately 50 Summer Fun Club members attended this tour and were treated to a complete tour of the city jail. This was a very impressionable tour for these youth and we know it will be long remembered and also will be very educational to them during their school year.

Lady Salesman Turns To Hilltop For More Sales

Former Hilltopper returns to the Hilltop to sell real estate.

Mrs. Stanley Smith, known as Ruth to her customers and friends, lived on the Hilltop when she worked at GM for five years in the office. Now serving with the firm of The Kissell Co., Realtors, 37 W. Gay-st, Mrs. Smith returns to the Hilltop to serve western Franklin County in realty sales.

"Normally I handled the entire city with the rest of the staff here at Kissell Co.," said Mrs. Smith. She was named assistant manager in charge of sales in this area. "In the near future we plan to open an office on the Hilltop."

Dealing exclusively in the sale and handling of residential properties Mrs. Smith stated, "I love selling to Hilltop people. They are so cooperative and friendly. We plan to get Hilltop people who have lived there for years to help us build up listings here."

Hilltop, County Boys Seized For Burglary, Looting

Sixteen youths aged 14 to 18 were arrested this week for complicity in at least 200 car lootings and 10 burglaries on the Hilltop, and in south Franklin County over the past year, according to Sheriff's Sgt. James Potts.

A 14-year-old youngster was apprehended at Westgate Manor in the act of attempting to strip a car last Wednesday.

With the first arrest, more were made following implications made by the first youth and those he named. Several Hilltop boys were arrested and quizzed on burglary and larceny charges which were filed against them on Tuesday.

The boys admitted stripping cars throughout the southern part of the county, of light mirrors, aerials, spare tires and any other removable accessories.

They also admitted some 10 burglaries of gas stations, drive-in movies and a Veterans of Foreign Wars post. The parts stolen from cars were either given away or sold for petty amounts of cash, the sheriff's department revealed.

Free Road Maps By The Millions Ease Travel

Some 46 million vacationing Americans are taking to the highways this summer. The advance guard is already on the move.

These and other travelers will pile up, by year's end, well over 400 billion passenger-car miles. For most of them, their road maps will be as essential as the car itself.

Maps have marked the route for fighter and trader for at least 2,500 years—since the days of ancient Greece. The free road map, however, is still largely peculiar to the United States and Canada. Giving them away is a $10 billion annual business, with oil companies providing about half the estimated annual total of 300 million maps. Equally uncommon outside North America are the free touring services which provide up-to-the-minute information on routes to any part of the nation and, in some cases, to many other parts of the world.

The advent of the low-wheeled "safety" bicycle in the late 1800s generated the first quantity demand for road maps. The "biker" brought a new kind of personal mobility and made real, though short-range touring popular for the first time. "The Cyclist's Road Map of Connecticut", issued in 1868, was one of the first of its kind. Nevertheless, lack of accurate route information severely hampered bicycle touring. When the motor car appeared at the height of the bicycle craze, demand for easy-to-read and accurate road maps mushroomed.

Early route books such as issued by the Automobile Club of America in 1900 often depended upon narrative description "Go straight out to where the way ahead is blocked by irregularity of cross streets, where bend left and follow Shore road . . . "Some books included maps, but there were no standard highway markings. The first major highway numbering job was not done until 1917, in Wisconsin.

So motorists were as often frustrated as helped by early routings. One such was Otto G. Lindbergh. In 1912, his three-year-old General Drafting Company turned out the first road map of Vermont (an effort he now terms "pretty bad"). The next year a Pittsburgh advertising man sold Gulf Oil Company on giving away 10,000 maps of Allegheny County—the first known oil company distribution.

Ten years later—shortly after Lindbergh and associate Ernest Alpers spent most of a fishing trip trying to find out where they were—General Drafting landed its first really big job: 100,000 copies of a Massachusetts map for the First National Bank of Boston. Into that map went a host of new ideas—white background for the state, tints for bordering states, blue for water areas, type size adjusted to size of towns and cities, main routes distinctively marked.

Armed with that map, Alpers next year challenged Standard Oil Company of New Jersey: "Let us make a map of New Jersey. If it isn't the best map you ever saw, you won't owe us a cent." The present-day marketers of Esso took that challenge, and the map—the first to be mass-distributed by an oil company.

With Rand McNally and Harry M. Gousha, General Drafting is one of three major U.S. mapmakers. Over half a billion maps have carried the company signature. That figure is swelling by some 20 million a year.

An accurate road map requires arduous effort, taking up to a year for U.S. areas and usually longer for foreign nations. Road maps are out-dated as quickly as women's fashions. Many must be updated two or three times a year, and redone from scratch every five years.

Today's highway-building boom merely adds to the problem, with its multitude of realignments, new bridges and numbering changes. Corrections are going onto the maps right up until press time—and sometimes even then.

In view of mapmaking progress, it's little wonder that the map-reading illiteracy of some of us tends to dismay the mapmakers. Some diehards, for instance, are willing to concede that it may be nice to have northern areas toward the top of a map—but why, they want to know, does east always have to go on the right? Those who ask for a routing from Seattle west to Los Angeles also occasion some misgivings. The business of helping people along the way does have its compensations, of course.

Safely buried in the files of Esso Touring Service is the exuberant thank-you note from the fellow who used an Esso routing to take his bride on a honeymoon trip to her native state. Along the way, the young husband heard all and more than he cared for about the delights of this particular bit of Old South. Consequently, he studied detour warnings for the area with special care—and bounced his unsuspecting bride over many a dusty mile until she gradually lapsed into silence.

There was also (intelligence officers please note) the flood of several hundred requests for routing to obscure point in Tennessee called Oak Ridge, while that way station's atomic installation, barely off the drafting boards, was still Top Secret—and the frantic State Department request for all available maps of Costa Rica and Nicaragua just before the recent border flare-up there.

With or without a map, some of us will always have trouble finding the corner grocery. For us, there may be some comfort in the story told by author Carl Carmer. As Carmer tells it, he pulled up at a country general store and asked a lounger: "Friend, if you were me, how would you go about getting to Pleasantville?"

To which the man replied, after some thought: "Stranger, if I was you, I wouldn't move a gol durned inch!"

Do You Plug "The Hilltop" . . . or Are You Just a "Plug"?

Residents of The Hilltop believe they live in the finest section of the city and most of them look upon this area much as a Texan does his native state.

Some, however, are just a little too complacent . . . neglecting the job of helping to "Keep The Hilltop On Top." Perhaps, like the lackadaisical "plug," pictured at the left, they just don't do anything more than necessary.

No community maintains a status quo . . . either it progresses or gradually slips backward, depending almost entirely upon the progressiveness of its people. Examples of this may be found in every city.

What's necessary to "Keep The Hilltop on Top"? The interest of the people in its schools, churches, recreational facilities for its children, the neat appearance of the homes, streets, parks, etc. In general, an intensive devotion to everything that's good for this area. Won't you help?

Robert Sherridan was a patient at St. Carmel two weeks ago where he underwent surgery for a tumor on the lung. At the present time, Sherridan who is a supervisor at Westinghouse is remaining at home recuperating.

All of the residents of Westgate Manor were saddened to learn of the death of Walter Schwind, who was a popular carrier for a downtown newspaper in this area.

Mr. and Mrs. Donald Howell and daughter, Julie, spent the past weekend in Brook and Rensselaer, Ind, which are their former homes. While there, they attended the wedding of Mrs. Howell's cousin.

Steve Edward was the name chosen for the new and first baby of Mr. and Mrs. Robert G. Miller.

While enroute to Panama City, Fla. to visit her son and family, Catherine Cook stopped off in St. Louis to pick up her parents. Her daughter-in-law, Mrs. Joan Cook returned to Columbus with her and plans to remain here until her husband who is in the Air Force has completed training in a school which he is now attending in Illinois.

YOUR YOUTH

By Bert Kerle and Bob Schmidt

With approximately only a week and a half remaining in our Summer Fun Club program we find all of the members attending as many of the events as possible so that they are eligible to receive the Summer Fun Club emblem. We find that by checking the points that there are three members who are very close in the number of points they have earned which means that we will not know which will be the grand prize winner until the evening of the Summer Fund Club awards night which is scheduled for Aug. 25, 7:30 p. m. at the new Westgate Shelter House.

It seems that one of our most popular and educational rubber-neck tours this year turned out to be our recent tour to the City Prison. Approximately 50 Summer Fun Club members attended this tour and were treated to a complete tour of the city jail. This was a very impressionable tour for these youth and we know it will be long remembered and also will be very educational to them during their school year.

Congratulations to a new Indian Guide Tribe that has just been recently organized in the Westgate school district, under the supervision of Big Braves Dewey Parris and Wayne Chappelear.

Lady Salesman Turns To Hilltop For More Sales

Former Hilltopper returns to the Hilltop to sell real estate.

Mrs. Stanley Smith, known as Ruth to her customers and friends, lived on the Hilltop when she worked at GM for five years in the office. Now serving with the firm of The Kissell Co., Realtors, 37 W. Gay-el, Mrs. Smith returns to the Hilltop to serve western Franklin County in realty sales.

"Normally I handled the entire city with the rest of the staff here at Kissell Co.," said Mrs. Smith. She was named assistant manager in charge of sales in this area. "In the near future we plan to open an office on the Hilltop."

Dealing exclusively in the sale and handling of residential properties Mrs. Smith stated, "I love selling to Hilltop people. They are so cooperative and friendly. We plan to get Hilltop people who have lived there for years to help us build up listings here."

Hilltop, County Boys Seized For Burglary, Looting

Sixteen youths aged 14 to 19 were arrested this week for complicity in at least 200 car lootings and 10 burglaries on the Hilltop and in south Franklin County over the past year, according to Sheriff's Sgt. James Potts.

A 14-year-old youngster was apprehended at Westgate Manor in the act of attempting to strip a car last Wednesday.

With the first arrest, more were made following implications made by the first youth and these he named. Several Hilltop boys were arrested and quizzed on burglary and larceny charges which were filed against them on Tuesday.

The boys admitted stripping cars throughout the southern part of the county, of light mirrors, aerials, spare tires and any other removable accessories.

They also admitted some 10 burglaries of gas stations, drive-in movies and a Veterans of Foreign Wars post. The parts stolen from cars were either given away or sold for petty amounts of cash, the sheriff's department revealed.

Free Road Maps By The Millions Ease Travel

Some 46 million vacationing Americans are taking to the highways this summer. The advance guard is already on the move.

These and other travelers will pile up, by year's end, well over 400 billion passenger-car miles. For most of them, their road maps will be as essential as the car itself.

Maps have marked the route for fighter and trader for at least 2,500 years—since the days of ancient Greece. The free road map, however, is still largely peculiar to the United States and Canada. Giving them away is a $10 billion annual business, with oil companies providing about half the estimated annual total of 300 million maps. Equally uncommon outside North America are the free touring services which provide up-to-the-minute information on routes to any part of the nation and, in some cases, to many other parts of the world.

The advent of the low-wheeled "safety" bicycle in the late 1800s generated the first quantity demand for road maps. The "bikes" brought a new kind of personal mobility and made real, though short-range touring popular for the first time. "The Cyclist's Road Map of Connecticut", issued in 1895, was one of the first of its kind. Nevertheless, lack of accurate route information severely hampered bicycle touring. When the motor car appeared at the height of the bicycle craze, demand for easy-to-read and accurate road maps mushroomed.

Early route books such as issued by the Automobile Club of America in 1900 often depended upon narrative description "Go straight out to where the way ahead is blocked by irregularity of cross streets, where bend left and follow Shore road . . . "Some books included maps, but there were no standard highway markings. The first major highway numbering job was not done until 1917, in Wisconsin.

So motorists were as often frustrated as helped by early routings. One such was Otto G. Lindbergh. In 1912, his three-year-old General Drafting Company turned out the first road map of Vermont (an effort he now terms "pretty bad"). The next year a Pittsburgh advertising man sold Gulf Oil Company on giving away 10,000 maps of Allegheny County—the first known oil company distribution.

Ten years later—shortly after Lindbergh and associate Ernest Alpers spent most of a fishing trip trying to find out where they were—General Drafting landed its first really big job: 100,000 copies of a Massachusetts map for the First National Bank of Boston. Into that map went a host of new ideas—white background for the state, tints for bordering states, blue for water areas, type size adjusted to size of towns and cities, main routes distinctively marked.

Armed with that map, Alpers next year challenged Standard Oil Company of New Jersey: "Let us make a map of New Jersey. If it isn't the best map you ever saw, you won't owe us a cent." The present-day marketers of Esso took that challenge, and the map—the first to be mass-distributed by an oil company.

With Rand McNally and Harry M. Gousha, General Drafting is one of three major U.S. mapmakers. Over half a billion maps have carried the company signature. That figure is swelling by some 20 million a year.

An accurate road map requires arduous effort, taking up to a year for U.S. areas and usually longer for foreign nations. Road maps are out-dated as quickly as women's fashions. Many must be updated two or three times a year, and redone from scratch every five years.

Today's highway-building boom merely adds to the problem, with its multitude of realignments, new bridges and numbering changes. Corrections are going onto the maps right up until press time—and sometimes even then.

In view of mapmaking progress, it's little wonder that the map-reading illiteracy of some of us tends to dismay the mapmakers. Some diehards, for instance, are willing to concede that it may be nice to have northern areas toward the top of a map—but why, they want to know, does east always have to go on the right? Those who ask for a routing from Seattle west to Los Angeles also occasion some misgivings. The business of helping people along the way does have its compensations, of course.

Safely buried in the files of Esso Touring Service is the exuberant thank-you note from the fellow who used an Esso routing to take his bride on a honeymoon trip to her native state. Along the way, the young husband heard all and more than he cared for about the delights of this particular bit of Old South. Consequently, he studied detour warnings for the area with special care—and bounced his unsuspecting bride over many a dusty mile until she gradually lapsed into silence.

There was also (intelligence officers please note) the flood of several hundred requests for routing to obscure point in Tennessee called Oak Ridge, while that way station's atomic installation, barely off the drafting boards, was still Top Secret—and the frantic State Department request for all available maps of Costa Rica and Nicaragua just before the recent border flare-up there.

With or without a map, some of us will always have trouble finding the corner grocery. For us, there may be some comfort in the story told by author Carl Carmer. As Carmer tells it, he pulled up at a country general store and asked a lounger: "Friend, if you were me, how would you go about getting to Pleasantville?"

To which the man replied, after some thought: "Stranger, if I was you, I wouldn't move a gol durned inch!"

Barns Painted Red As Economy Move

Many people have speculated on the reason why barns were always painted red in the old days. The explanation, according to paint experts, is that red paint was cheapest and most easily obtained in those days. These factors were important as a barn absorbed a great deal of paint because of its rough surface.

Nowadays other colors are as inexpensive as red and the planed siding of modern barns takes paint just as easily as the clapboards of a house. Consequently, most barns are today painted with the same material as the adjoining house and in a color which matches or harmonizes with it.

Drip Stain From Copper Screens Easily Removed

Drip stains from copper window screens can be removed from white siding with a solution of one-half cup of Trisodium phosphate to a quart of water. Rinse this off after the stain disappears because it will soften and damage the paint.

Hilltop Boy Scouts Help Christian Youth

Selling corn just another good deed? For the the boys of Boy Scout Troop 58 of St. Paul's Evangelical Congregational Church who spent many hours raising corn on a plot of land, cultivating the ground, picking it and selling the corn door-to-door, it was definitely not just another good deed, but a deed with repercussions which would sound throughout the movement of Christian youth. The plot was donated by the former pastor, the Rev. Paul Buhn, now district superintendent of the Evangelical Conference, Western District. Seed was given by Leo Chesser and Jesse Calvert. Every cent raised, $45 was turned over to Lloyd E. Siberell of the Christian Youth Center at N. Fifth-st and Mt. Vernon-av. Shown, left to right: Bob Chesser, 17, 678 S. Picking 'Carpeting' For Shady Places

Carpeting shady places not to be walked upon usually is solved by planting hardy ivy, periwinkle (Vinca minor) or Japanese spurge (Pachysandra terminalis). These grow from 10 inches to a foot tall which in some cases is more than a gardener likes.

For a dwarfer carpet the bugle (Ajuga reptans) is a very serviceable. The thick rosettes of dark green leaves are seldom more than four inches in height. To this must be added the height of the flower spikes which may be as much as another five inches. Their blue flowers are quite attractive and the blooming season lasts from early May until mid-June.

Ajugs grows as well in the shade as in full sun, spreading with fair speed by establishing new crowns on short underground runners. The offsets may be transplanted at almost any time during the growing season, but early spring is the best period with late fall as second choice.

Self-interest has always been the foe of national security, the destroyer of patriotism.

'Bicycle Garage' Solves Vexing Home Problem

Are bicycles, tricycles and other wheeled items a problem around the house? The home economics department of a midwestern college has the solution — a "bicycle garage" for storing such equipment. The "garage" may be a lean-to added to back porch or regular garage on an independent structure.

Fashion World Often Influences Decoration

Decorating trends are often influenced in the fashion world, notably in color. Brilliant orange and purple tones, for instance, have been fashionable for several seasons in dress fabrics. Decorating fabrics, too, are currently to be seen in these colors, less brilliant and more muted, of course, so you can live with them longer.

Orange tones, presently favored by decorators, include pinky orange, salmon, crab-apple red, peach, russet, apricot and amber. Often shades of orange are combined with greens or blues for an iridescent effect.

Purples run the gamut from lilac to Mauve, and are dramatic combined with white, green or soft blues like hydrangea or delphinium blue. Yellow is a wonderful combining color with the purple tones, providing the warm bright note needed for pleasant color surroundings.

Decorating a baby's room should go hand in hand with safety measures that will prevent accidents and sustain mother's peace of mind. All nursery furniture should have rounded edges and a non-toxic finish (required by law in some states). To prevent baby from putting his head between crib slats, make certain slats are no more than three and one-quarter inches apart.

Additional suggestions come from "Baby Care Manual," quarterly publication for new mothers:

A playpen bought when a child reaches the active and playful age of three months should be sturdy enough to withstand the rompings of an older baby. Select a pen with casters, if possible, so it can be moved out of drafts. Keep a soft washable pad on the bottom of the pen until the baby is old enough to stand or sit most of the time.

Remember that every toy will eventually find its way to baby's mouth. Junior's first toys should be chewable, but not small enough to be swallowed. Make certain all playthings are washable, non-toxic in their finishes, without sharp edges or detachable parts.

Closing Exercises Set At Adventist Vacation School

The 10-day Vacation Bible School conducted by the Ohio Conference of Seventh-day Adventists and the local congregation at the church's grade school building at Union and Ryan-ave. Aug. 8 to 19, will have its closing exercises Friday morning, Aug. 19, at the school. The directors are Miss Helen Yingling and Miss Opal Winterfeld.

Parents are invited to attend the closing session Friday from 9:30 a. m. to noon. There will be an exhibit of the children's activities and handcrafts, and refreshments will be served.

The school is the first one held in Columbus under the joint sponsorship of the Ohio Conference of Seventh-day Adventists Educational and Home Missionary departments and the local church, according to the directors. It is one of five vacation Bible schools held this summer in Ohio under this plan.

The others were held in Akron, Barberton, Cincinnati, and Toledo. Experienced grade school teachers in the regular employment of the denomination's educational system were employed to direct these schools.

"In many situations, it's a darned sight easier to stay out than to get out!"

As naturally as the flower turns its face to the sun, so does the human child respond to the love and grace of God... they know He loves them.
Jesus, who knew the Father's heart, said to some good people of His time — "Let the little children come unto me and forbid them not."
Surely no woman or man would detour a child in his natural search for God and goodness. Take them to church... show them the way... the Master still commands us. They may be ours for a few short years.
They are His forever. How important then to introduce them to Jesus.
Here they meet Him, know Him and love Him, for such is the Kingdom of God.
You In The Church... The Church In You—
Form a combination for good. Every man, woman and child needs the influence of the church. Be a faithful worker. Attend every service.

Glenwood Moves To Quarter Finals In Little Jet League Tournament

The Glenwood Cowboys posted a 12-3 win over Fairmoor to advance to the quarter finals in the city-wide Little Jet League tournament. The Cowboys' game was played on Glenwood's diamond on Wednesday, Aug. 10.

Glenwood scored the first run of the ball game as Junior Rinehart crossed the plate on a long fly by Mike Mentel. This run came in the first inning. Two more runs were scored in the Cowboys' half of the second inning on hits by John Landefeld and Pat Mentel.

The score stood 3-0 as the Cowboys went to bat in the bottom of the third inning. Jerry Jaynes was walked, and then Terry Briggs drove a ball into deep center field for a home run to give Glenwood a 5-0 lead.

Fairmoor showed signs of life as they pounded out two hits in the top of the fourth which eventually gave them two runs. Their next two men up were struck out, however, to end the threat.

The last of the fourth inning proved to be disasterous for Fairmoor. The first two men up got base on errors, Mike Mentel singled, driving home a run, Jaynes walked, and then two runs were driven in on a double by Terry Briggs. John Landefeld tripled driving home another run, and then Landefeld eventually stole home, making the score 10-3 in favor of Glenwood.

In the last inning, Terry Briggs scored on a steal, and Landefeld scored on a hit by Johnny Warren. This made the score Glenwood 12, Fairmoor 3, which was the way the game ended.

It was 12 runs on 9 hits with 3 errors for the Cowboys, and 3 runs on 6 hits with 5 errors for Fairmoor. The battery for Glenwood was Mike Mentel and Terry Briggs. For Fairmoor, it was Dollinmayer and Compton.
